Rights Under GI Bill Discussed By Ogden

Some of the problems facing the discharged GI's, and the need for home assistance in bringing about their readjustment were explained by Vance Ogden when he addressed the Rotary Club here Tuesday evening, following dinner at Brees House. Mr. Ogden is a member of the club, and resides in Clinton.

The speaker explained how important it is that boys returning from service fully understand their rights under the GI bill, and told how, in his job, he was able to assist them with insurance matters, education, jobs, etc.

"It would be an excellent thing, I think, if Rotary and every other service organization would spend more of its time assisting boys in making the adjustment from military to civil life," the speaker declared. "There is more to our peace time readjustment than reconverting our industries."

Mr. Ogden recently was presented with the Congressional Award of Selective Service for three years service as reemployment committeeman with the Slective Servic, doing welfare work in Lenawee county. He is a recognized authority on problems concerning selective service matters.

Four-Way-Stop Street Ordered

LOGAN AT OTTAWA STREET, NEAR HIGH SCHOOL, TO BE "STOP" ALL WAYS

Acting to prevent an accident involving school children near the high school building, the village council, in session Monday evening, ordered that Logan street, at Ottawa street, be made a stop street, effective immediately. Ottawa sreet, at Logan, already is a stop street, making the intersection a four-way stop for all traffic.

The council's action was taken on the recommendation of school officials and police, who believe the intersection to be a dangerous one.

C. W. Gilman was named as a member of the Tecumseh Hospital board of trustees for a five-year period, succeeding Ned Baldwin.

The petition of Leo Kurchock for the transfer of the beer and line license now held by Dominic M. Baibak to himself, was granted.

The street sign over Chicago boulevard at the intersection of Evans street in the downtown district, was ordered illuminated by the council. The sign has been dark since the beginning of the war.

Three hundred feet of eight-inch sanitary sewer was ordered constructed in Pearl street, from Bidwell to Chippewa street, and from Pearl to Maiden Lane, cost to be assessed to abutting property owners and rebated as property is occupied by homes.

The council voted $25 to defray the cost of a Hallowe'en party, sponsored annually in Tecumseh by the Rotary Club.

Ask Paving of Primary Roads

COUNTY GRANGE ADOPTS RESOLUTIONS; WOULD CHANGE HUNTING, GAS TAX LAWS

At the County Grange convention held Thursday in Adrian three resolutions were adopted to be submitted at the state convention in Alpena in October.

One suggests paving of more primary roads instead of widening those already paved.

Another asks for the postponement of the hunting season from October 15 to November 1 until fall crops are out of the fields.

The other proposes a simplification in the manner of handling gasoline tax refunds to farmers for gasoline used in producing crops, by attaching a statement to the gasoline bill which would be used as a certificate to show the use for which the gasoline is purchased. This certificate would be filed with the state authorities, thus eliminating the payment and return of the tax. Under the present system the tax is paid by the farmer and later returned to him.

Delegates to the convention were elected as follows: District 1, Mr. and Mrs. Lee Richardson with Mr. and Mrs. Everett Stevenson, alternates; District No. 2, Mr. and Mrs. Harold Case with Mr. and Mrs. Wm. Woirings, alternates; District No. 3, Mr. and Mrs. Charles Lee; District No. 4, Mr. and Mrs. E. F. Smith, the latter two to name their alternates.

Ceiling Prices Are Returned to Meat But Meat is Gone

OPA rolled back the price of meats, nation-wide, Tuesday, but in Tecumseh butchers simply "rolled back" the lids on their refrigerated counters and said, "What meat?"

The fellow who was lucky on Tuesday to buy fresh meat of any kind in Tecumseh should remember the date well and tell it to his grandchildren. There was nothing in a majority of the counters at the markets except for a little cold meat, a few chickens and cheese.

"Don't ask me when we're going to get any meat," one butcher said. "We haven't any promises from our suppliers, in fact it would not surprise me if cold meats disappeared, too."

The new OPA ceilings rolled back prices on fresh meats of all kinds from 30 to 40 per cent. For example, all ground beef now must sell for 29c a pound, grade A bacon at 46c, veal steak at 47c, T-bones at 64c, and ready-to-eat cooked hams, bone in, at 37c. Top grade of frankfurters sell at 49c as does the best grade of link sausage.

AMERICAN SENSE

Those folk who forecast immediate and uncontrolled inflation with the death of OPA last June showed insufficient faith in the wisdom of the American people, and in the efficiency of production and distribution.

Prices, of course, rose in many instances. This was due in a number of cases to the elimination of government subsidies—the consumer simply started to pay all of the costs out of his pocket at the time of purchase, instead of government paying part of his living through taxes. In other cases, past OPA prices had been too low, and increases were inevitable. But in no instance did the upward price spiral go on and on without end.

One reason for that is consumer resistance. The average American isn't a sucker. If prices for certain commodities go too high, he simply goes without them or buys substitutes. Another reason is a slow but definite increase in supply in many basic lines. As more goods enter the free market, the opportunities for black markets and chiselers diminish.

Whatever the future of price control, we should not depend on it to prevent dangerous inflation. Price control cannot instill the desire to produce, save and reduce debt. These things are essential and fundamental to a sound economy. They are the only permanent cure for inflation.

What Would You Do if Fire Destroyed Your Home?

Rather a horrible question, we agree, but just what would you do?

Would the insurance you now carry on your house and its contents be ample to replace them? How much would you be "out of pocket" in the event of a total loss?

Yes, rather horrible questions, but they're fair ones, you must agree. Questions about which you should be thinking.

See us, find out if your home is underinsured. If it is, we'll write you additional coverage, effective momentarily.

School Consolidation Opposed By Farm Bureau

Officers were elected and current topics were discussed at the regular meeting of the Tecumseh-Raisin Farm Bureau, meeting Monday evening in the home of Mr. and Mrs. Lawrence L. Boyd.

Officers named are: Discussion leader, James Feight; chairman, Raynor Van Valkenburg; vice-chairman. Carl Williams; secretary, Mary Lou Boyd; member of the County Women's Committee, Mrs. Raynor Van Valkenburg; recreation leader, Fay Van Valkenburg; publicity chairman, Mary Lou Boyd; song leader, Fay Van-Valkenburg.

The group discussed school problems as they face rural areas and the subject of consolidation was considered at length. Members were of the opinion that school consolidation has too many faults, including higher taxation, lack of individual attention for students, and a lack of agricultural training, so badly needed by rural boys and girls. This agricultural understanding, the members believed, might be obtained through 4-H Clubs, available to youth in the country schools.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

I KNOW JUST HOW YOU FEEL!

Even though I'm ready and waiting to go to work for you, my boss is having a mighty tough time trying to get the necessary wire, poles, transformers and many other accessories needed to bring service to you. It's the first time in over 60 years that customers of Consumers Power Company have had to wait an unreasonably long time for connection to our lines.

Where lines can be run from existing transformers, orders for new electric service are being filled as promptly as the available supply of wire permits. *And requests for service requiring the installation of new transformers will be filled in turn as quickly as this material is available.*

If you are waiting for electric service, please bear with us. We are doing everything possible to hasten service to you.

School to Seek Additional Room

DISCUSS TAKING OVER GREEN LANE, USE OF ST. PETER'S PARISH HOUSE

Tecumseh's record school enrollment, some 125 greater than a year ago, is causing W. L. Berkhof, superintendent, and the board of education to look about for additional classroom space, especially in the elementary grades.

The board of education, in session last week, discussed the advisability of taking over Green Lane Academy, a Ford-Edison Institute operated school, about two miles southeast of here. The board also is considering the advisability of renting St. Peter's parish house and use the space for kindergarten and first grade children.

Mr. Berkhof pointed out that the heavy enrollment, due to the closing of all Ford-operated schools in this area, is a genuine problem. Last year, space for elementary classes was lacking and this year rooms are more crowded.

"We have contacted Edison Institute about Green Lane Academy, but as yet we have not received a reply," Berkhof said. "Just what we would use the school for this year has not been fully determined. It might be that the Veterans' Institute would meet there for a while. Of course, if we use the Academy for elementary classes there would be an added problem of transportation."

Discussing the use of the parish house, Berkhof said that it might be used for some kindergarten and first grade pupils, especially those residing in the northeast and west sections of the village.

"We are not definitely sure what we can do," the superintendent pointed out. "If we open another classroom we will need another teacher, and our finances are such that we will have to make a careful check to determine whether or not we can afford a teacher. If we can, and we can obtain the use of the building, it is possible that we will, in the near future, put it into school use."

Berkhof said that he is attempting to determine whether or not more state financial aid might be available, because of the increased enrollment.

The board also discussed the advisability of permitting children four and a half years of age to enter kindergarten. At the present time, the age limit is five years. Should relief in classrooms be found, the limit might be lowered, but in all probability nothing will be done in this connection before next year.

The board authorized necessary repairs to the fan blower system in the central building heating system. Mrs. Robert Williamson was employed as secretary to the superintendent.

Brownie Scouts To Be Sponsored By D. A. R.

The opening meeting of Abi Evans chapter, Daughters of the American Revolution, was held Friday afternoon at the home of Mrs. Floyd Elliott.

The regent, Mrs. Arthur H. Brown, presided at the business session. Mrs. Brown and Mrs. Hoyt Whelan were elected delegates to the National Congress to be held in May at Washington, D. C., and Mrs. Edith Smith and Mrs. Florence Roberts were elected alternates. Delegates elected to attend the state convention o be held in St. Joseph, in March were Mrs. Brown and Mrs. Winifred Bates with Mrs. Edward Beal and Mrs. Kenton Hunt as alternates.

The Regional meeting will be held in McKenny Hall, Ypsilanti, Mich., Sept. 25, at 12 o'clock.

The chapter voted to sponsor the Brownie Scouts again this year and to contribute $10 to this organization.

GRASS FIRE

No damage was done at a grass fire at the Comfort Brick & Tile Yards, southeast of Tecumseh, Tuesday afternoon. The local department answered the alarm.

Firemen Warn Public To Halt Open Fires

B. B. Moon, chief of the fire department, and Lee Purkey, president of the Firemen's Association, today served notice on Tecumseh residents that, in the future, persons who set open fires, either in the business or residential district, will be considered in violation of a local ordinance and taken to court.

"There is an ordinance here forbidding open fires," Mr. Moon said, "but, in the downtown district, business men take their paper and other refuse behind their stores and burn it. That is against the law. Such fires, if in a container, are legal, but open fires are not.

"In the residential district, similar violations also occur," he said. "These must stop, too. We intend to issue violation tickets for these offenses in the future."

Moon pointed out that open fires at this season are extremely dangerous. "We're trying to save property and to do the residents a kindness by enforcing the law," the fire chief said. "I hope that we will not be criticized. However, criticism or no criticism, this is the final warning."

The coach and the captains, discussing the approaching football season, were optimistic as to Tecumseh's chances for victory and another trophy. Tecumseh plays its first grid game of the season on Friday evening here, under the lights, at Recreation Center. Milan high is the opposing team.

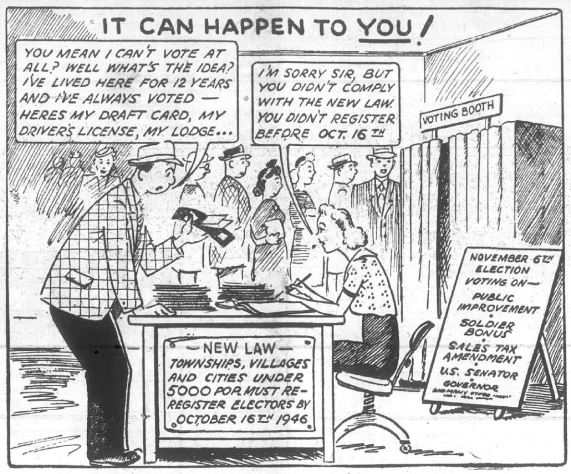
FORMER RESIDENT DIES

Word has been received here of the death of Mrs. Frank Hammond which occurred Saturday morning at her home in Flint following a cerebral hemorrhage.

Mrs. Hammond was formerly Kitty Lamb, a teacher in Tecumseh schools and a resident here for many years.



Unless you register twice, if you live in the Village of Tecumseh, and once, if you live in Tecumseh township, you will lose your opportunity to vote at the special election in the village on October 22, and the general election in both the village and township on November 5, under the new Michigan registration law.

Persons who desire to vote at the special village election next month when Tecumseh decides whether or not liquor shall be sold by the glass within the corporate limits, must register with Wade L. Jones, clerk, not later than October 2. Only residents of the village who are of legal age, and who have resided in the state for six months and the precinct 20 days may vote at this election.

In the general election November 5 the same qualifications are necessary for voting in both the village and township. To enable one to vote in this election he or she must register with H. H. Hanna, township clerk, in Le Roy Tibley's office in the Strand Theatre building not later than October 16.

In other words, here's the story in brief: If you live in the village and desire to vote in both elections—the special election and the general election—you must register twice; with the village before October 2, and with the township before October 16.

If you live in the township, you are not eligible to vote in the village and you need register but once—before October 16—to enable you to vote in the general election, November 5.

But regardless of where you live, if you fail to register, you will lose your vote.

Tire Thieves May be Part of Ring Operating in Southeast Michigan

MILAN, SALINE, DURAND AND DUNDEE ALSO HAVE RECEIVED "VISITS"

Thieves who early last Thursday morning stole more than $1,000 worth of tools, tires and wheels from Tecumseh residents may be members of a ring now operating in southeastern Michigan, police believe. Similar "visits" have been paid to other communities, including Durand, Milan, Chelsea, Saline and Dundee, and, as in Tecumseh's case, they've always escaped arrest.

The robbers made their largest haul from a workshop on South Maiden Lane, operated by Frederick Bell. Here, entrance was gained through a window. An outboard motor, an electric motor, a radio, movie camera, and a quantity of tools, estimated by police to have been valued at about $1,000, were stolen.

It is thought that the first robbery here occurred about 2 a. m., Thursday, when the thieves removed the rear wheels, tires and hub caps from the new car owned by Fred Milette, parked in the rear of the M. G. Fartridge residence on W. Chicago boulevard, where Mr. Milette has a room. The rear of the car had been jacked up and bricks placed under it.

Barking dogs awakened Frank Gray, who lives nearby, and he told Ray Sweet, state police sergeant, that he saw two men carrying wheels from a car. When he asked them what they were doing, they told him they were repairing their car.

An effort also was made to remove the wheels from a trailer, parked in the Partridge Implement Company's lot, but here the thieves were unsuccessful. Bearings and hub caps were left on the ground.

The thieves also visited the H. H. Hanna home on East Kilbuck street, and stole two tires and wheels from the rear of his car, which was in his garage. A hub cap from the Milette car was found in the Hanna garage.

State police believe that the thieves operating here may have been a part of the ring now operating in southeastern Michigan. Similar thefts have occurred in Chelsea, Saline, Milan and Dundee and in Durand. In the latter city, one new car was stolen and several sets of tires were taken from other cars.

STORK SHOWER

Mrs. Douglas Hall and Mrs. Kenneth Ernst entertained Thursday evening at the home of their parents, Mr. and Mrs. Russell Hall at a stork shower in honor of their sister, Mrs. Mervin Pilbeam. Games were played and prizes awarded to Mrs. Mildred Jackson, Mrs. John Millan and Mrs. Pilbeam, who also received many lovely gifts. Refreshments were served in conclusion.

Eagle Lodge Here Favors Lowering of Voting Age

At the regular meeting of the Eagle Lodge, held Monday evening, a poll was conducted on the question "Should We Lower the Voting Age to 18 Years?" Arguments for the change were given by Leon Perin and against the question by Ervie Raymond. Leon Hall also spoke in favor of and Gene Skinner against the question. Howard Dunlop of Adrian was present and also spoke briefly.

Following the discussions the question was voted on by ballot. Harvey Robison, George Milosh and B. W. Mominee acted as tellers and results were 16 for and 15 against the issue.

Next month's discussion will be on the topic "Should We Have Peacetime Military Conscription?"

L. R. Mix Buys Interest In Local Jewelry Firm

Leon R. Mix, Tecumseh jeweler and watchmaker for many years, announced this week that he had purchased the interest of William Zorn of Monroe, in the jewelry firm of Zorn & Raymond, 152 East Chicago boulevard, and that in the future the firm would be known as Mix & Raymond.

Mr. Mix about two years ago operated a jewelry store in the East Chicago boulevard location, selling the business to S. S. Stull of Adrian, who in turn sold it to Zorn & Raymond. Mr. Mix, therefore, is not a stranger in the store.

Monte Raymond, who is a veteran of World War II, will go soon to Los Angeles, where, for about a year, he will study watchmaking and repairing. He plans then to return to Tecumseh to take an active interest in the business. Mr. Mix is a veteran of World War I.

During Mr. Raymond's absence, Mr. Mix will be in active charge of the store. He has announced that quality lines of merchandise will be continued, that the lines will be expanded as rapidly as market conditions will permit.

Schools Close Two Days For The County Fair

Children of all grades in Tecumseh have nothing but praise and compliments today for W. L. Berkhof, superintendent of schools, and members of the board of education.

The reason: The board, on Mr. Berkhof's recommendation, has ordered the public schools here closed today and Friday for the Lenawee County Fair.

In former years, a one-day vacation was granted to children, but the heavy demand for "time off" for children by parents during fair week has brought about the change in policy.

Opening Grid Game on Friday

INDIANS TO MEET MILAN HERE "UNDER LIGHTS"; TICKET PRICE CUT

By Jim Sisson

After two weeks of stiff practice, the Tecumseh High School Indians will get their first "feel" of the pigskin here tomorrow evening when they meet Milan High in the opening game of the grid season. The game will be played under the lights at Recreation Center, and the kick-off will be at 8 p. m. A record crowd is expected for the opener, inasmuch as admission prices have been ordered reduced this year by the board of control.

Coach Miles Runk has been stepping up the amounts of practice in preparing his footballers as the deadline draws near. The Milan gridders have always proved a tough test for a preliminary to the regular season play. Last year, the Orange and Black yielded to Milan in a hard fought contest 13-7 on a last second touchdown pass. In the preceding years the Redskins hung up two victories and one tie but all on very close scores.

The Indians have had to iron out a good many details, which is true in the late practice sessions of any team, so that the eleven could click with more accuracy than in the preliminary scrimmages. Missing from the starting squad will be Dermont Poley, Bob Baktr, John Murdoch and Ted Sisson who were lost through graduation.

Mr. Runk issued a probable starting lineup with several of the chief competitors for berths on the first string. At center, the Braves' mentor named co-captain, Ben Hammack, and at the guards he placed co-captain Tom Judd and Bill Tilton. Filling the tackle slots will undoubtedly be Roger Williams and Bob Dinse.

At the end posts the question is extremely difficult with several contestants battling for the jobs. Here, Runk is working Dick Purkey and Jack Hadley as probables for the kickoff. The backfield has also been subject to shift without notice but at present consists of Bill Brown a fullback, Jim Sisson at quarterback, and Marvin Barber and Dick Colson in the halfback posts.

Possibilities for starting berths in a last minute shakeup are Norbert O'Hara, Harold Anderson, Melvin Murphy, Duane Murphy, Millard Snyder, Bruce Jennings, Don Aebersold, John Underwood, Dave Vanderpool, and Jack Whelan. Bill Hayden, a last season letterman, will be out of Friday's lineup because of an ailing back along with Clyde Smith and Tom Corkery who are also on the injury list.

Taking into consideration the unknown facts and feats of the Milan team and the untried Tecumseh squad's power along with past experience of Milan encounters, tomorrow night's game promises to be a very interesting battle. The Athletic Association has lowered the price of admission which should attract a large crowd. The adult cost dropped from 75c to 60c and the student prices are now 40 and 25c.

CHECK THE SPENDING

Although a majority of the folk who read newspapers probably missed the item, news reports from Washington now indicate that for the first time in many years the United States can have a balanced federal budget.

The American people should also consider the words of President Truman when he said: "For fiscal 1948 we must plan not only for a balanced budget but for a. . . reduction of the national debt. . . sizable debt reduction is nothing short of obligatory."

As Time put it, the President's budget policy "might not please practical politicians, but would be applauded by practical fiscal experts." Its principal points are that strict economy prevail in government spending.

Just what is going to happen to this policy remains to be seen. It is evident that Congress is still free with the people's money. This is an election year, and the boys who want votes are say it with public dollars.

We will have economy in government only if the people make it clear to Congress that giddy spending will bring political defeat. And unless we have economy we must expect inflation and all that goes with it.

Standard Oil announces

A great new motor oil

Permalube Removes the goo Improves the go!

Gives you premium-plus lubrication

Here's the latest idea in motor oils . . . remove the "goo." Get rid of engine deposits of soot, varnish, carbon, and sludge . . . and you definitely improve the *go!* There's nothing to stifle power, stick rings, or put a damper on free valve action. You get a sweeter-running engine . . . a better-lubricated, longer-lasting one, too.

Permalube, Standard's great new motor oil, gives you this premium-plus lubrication. It does more than thoroughly lubricate . . . it cleans your engine and *keeps* it clean.

For Permalube contains a patented ingredient that not only cleans up deposits already present, but also prevents new ones from forming. It keeps engine dirt in harmless suspension . . . unable to interfere with free valve action and smooth, powerful piston strokes. The "goo" drains out when you change oil.

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

"I never saw oil drain out so dirty!" "Good! That shows Permalube's been taking out the 'goo'!"

When you wash your hands, the basin water gets dirty. But your *hands* get *clean!* Same way when you use Permalube Motor Oil. The *oil* gets dirty. But the *engine* gets *clean.* The dirt is carried out of the engine when you *drain* out the oil.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

NINETY-SIXTH YEAR—NUMBER FORTY-FOUR | TECUMSEH, MICHIGAN, THURSDAY, SEPTEMBER 26, 1946 | FIVE CENTS PER COPY

Registration Half Complete

OCTOBER 2 AND 16 ARE LAST DAYS IF BALLOTS ARE TO BE CAST HERE

With approximately one-half of the eligible voters in Tecumseh village and township registered according to law, it was pointed out today that a light vote may be expected at both the special and general elections here next month, unless more interest is shown by electors.

"We have a few less than 700 registered voters in the village," Wade L. Jones, clerk, said, "and it is estimated that there are about 1,500 potential voters. This means that less than half of the voters are registered, and will be able to cast their ballots at he special election on Tuesday, October 22. Would-be voters must remember that under the new Michigan law, next Wednesday, October 2, is the last day to register for the special election."

At the special election here, October 22, Tecumseh will decide whether or not liquor-by-the-glass may be sold within the village.

While residents of Tecumseh township outside the village are not eligible to vote at the special election, it was pointed out that they, too, must re-register if they are to vote at the general election on Tuesday, November 5. Under the law, the last day for township registration is Wednesday, October 16.

H. H. Hanna, township clerk, said today that about 1,000 voters had registered thus far, and he estimated that there are more than 2,000 potential voters in the township.

Persons living outside the village in the township need but register once — with the township clerk—but persons living in the village must register twice—with the village clerk and the township clerk—if they are eligible to vote at both elections.

Under the new Michigan law, a general re-registration of voters is now mandatory. Regardless how often or how late a voter cast his ballot, he must, to vote in the coming elections, re-register to become eligible to enjoy his franchise.

The bride was attended by her three sisters, Marguerite Judson as maid of honor, Jennie Donnelly and Genevieve Overton as bridesmaids. Gordon Yancer served his brother as best man and the ushers were Fred Judson, brother of the bride and Richard Mulkey, a college friends of the groom.

The wedding was followed by a reception in the church parlors for 100 guests, after which Mr. and Mrs. Hill left on a trip through northern Canada, before resuming their studies at Olivet College.

A&P Announces Plan for 5-day Shopping Week

CHAIN WILL INAUGURATE MONDAY CLOSING OF STORE HERE SEPT. 30

Effective September 30, the A. & P. will inaugurate a five-day shopping week here by closing its store on Mondays, it was announced today by R. R. Betz, Toledo vice president of the food chain.

Object of the move, Betz said, is to "give better service to our customers and a two-day weekend holiday to our store employees."

We confidently feel that house wives will find this plan working to their advantage," Betz explained. "The complete personnel of Tecumseh store will be on the job the entire store week, resulting in the most efficient customer service of which the store organization is capable.

"For instance, this should result in less waiting, in fresher merchandise, in more completely stocked shelves and better overall store housekeeping. The employe hours now required to staff the store on Monday will be carried over to the busy days when they will be of greatest service to customers.

"Success of the plan depends, however, on the co-operation of our Tecumseh customers. Purchase of sufficient supplies to last the family over both Sunday and Monday will be essential if inconvenience is to be avoided. Since Monday purchases in all stores combined amount to only a small percentage of the weekly total, no serious dislocation of shopping habits should result."

Employes of the A. & P. Store here are strongly back of the plan, according to Betz.

"I believe I am safe in saying that this move is significant to the food industry generally," he said. "Now the employes of our store will be able to enjoy a two-day holiday weekend, a privilege equal to that enjoyed by the employes of many other industries."

Betz said that details of the plan being worked out include "remaining open for five days a week—that is, our store will remain open on Monday whenever it is to be closed by a legal holiday occurring on any other week day." Regular store hours will remain unchanged for Tuesday, Wednesday, Thursday, Friday and Saturday, he said.

Tecumseh Wins Gridiron Opener From Milan; Meet Hudson, Friday

RUNK-COACHED ELEVEN TROUNCE VISITORS AT RECREATION BY 7-6 SCORE

In a spirit of revenge for last year's defeat, the battling Tecumseh Indians took to the gridiron battlefield, at Recreation Center, last Friday night, and carried away the Milan eleven's scalp to start off the football season. The Orange and Black lads paid the year-old debt to the Milan Reds and edged over the opponent's 6-point lead in the third period to set the final decision at 7-6.

Last season, the Milan squad took victory out of the Braves' hands on a scoring pass in the last second of play and won 13-7. But, Bill Brown, Indian fullback, had different ideas for the 1946 opener, as he paved the way down the field, and then smashed across the goal to overcome the Milan margin and set Tecumseh in the victor's role.

Milan had scored in the second stanza when the Reds' substitute halfback, Auten, tallied from the 5-yard line. Bassett failed to make good the conversion on a line plunge. Coach Runk then nursed the Indian troubles at the half time interval and the Redskins reentered the gridiron with new life.

Brown spearheaded the Braves' power over the linemarkers into enemy territory following the second half kickoff. Marvin Barber, Tecumseh left half, hit of his right tackle to set the pigskin within the Reds' fifteen yard stripe. Sisson then picked up a first down and placed the ball on the five yard marker from which Brown plunged to deadlock the score. The Teepee Town boys then set up a fake place kick for the conversion and Brown again bucked the line for the extra and winning point.

Roger Williams stopped a late Milan offensive cold when he recovered their backfield fumble, enabling his teammates to stall the ball until the final whistle.

The triumph was taken by Tecumseh at odds, however, as Milan's deceptive backfield ran up 11 first downs to the Indians' 9. The Reds' speedy backs also piled up a larger total of yardage for the books, but completed only one pass for a very small gain.

Purkey aided in the Tecumseh cause when he pulled in three of Brown's ariels for approximately 10 yards each. Tom Corkery knocked down a would-be Milan touchdown pass to prevent the visitors from ringing up two scores in the second quarter and to keep the home team in the running. But the credit goes not to half or parts of the team but to the squad as a whole, who were in the engagement fighting to the last second, and to Coach Runk who engineered the victory through the preceding weeks.

Tomorrow night the Indians travel to Hudson with another vengeful attitude, as they will attempt to compensate last year's 6-0 loss, which cost them sole ownership of the county trophy. But the battle will be far from easy as the Tigers have also proved their worth in defeating Manchester 12-0.

Vets Asked to Meet at School

INSTITUTE DIRECTOR WOULD LIKE TO DISCUSS COURSES, LEGAL FORMS

All World War II veterans, who are interested in availing themselves of the privileges accorded them under the GI Bill of Rights—on the job training, educational advantages, extra high school credits, etc.,—are asked to meet with Neville Hart, director of the Tecumseh Public School's Veterans' Institute, next Tuesday evening at 7:30 at the high school.

"Thus far," Mr. Hart said, about 20 veterans have enrolled at the Institute, but I feel certain that there are many others who would take advantage of the course if they understood the program. Tuesday evening, we want to determine the time that the classes will be held, what special courses, if any, should be offered, and assist the veterans in preparing their eligibility forms that must be filed with the government." Mr. Hart, himself, is a GI and is familiar with the program.

The instructor also pointed out that there are many veterans in the community who did not graduate from high school before they entered service. In many instances, courses that they took in military service can be counted toward high school credits.

"In some cases, GI's need only three or four credits to make them eligible for diplomas," Hart said. "It is possible that these credits could be worked out for them through the general educational intelligence tests, now being offered here in cooperation with Adrian College."

Hart stressed the fact that it will be to the advantage of every veteran to attend the meeting and learn for himself just what his advantages are under the government program.

Scouts to Aid Safety Patrol

VOTE COOPERATION WITH SCHOOL ORGANIZATION A NEW YEAR SERVICE PROJECT

Tecumseh Boy Scouts, at a meeting this week, voted to again engage in a community service project consistent with their previous record, this time by cooperating with the public school's Safety Patrol Division. Scouts here are under the leadership of B. C. Daniells.

The problem of protecting school children from traffic hazards has become increasingly critical as school enrollments have grown, and traffic on Tecumseh streets has been augmented by increased employment at local factories. The use of branch elementary schools has also contributed in making the problem a difficult one to handle by the School Safety Patrol which is composed of students of the elementary grades in the Central building.

Since Monday of this week, the division of the safety patrol organization composed of Boy Scouts has been and will continue to be responsible for the safety of children crossing the streets at Maiden Lane and Chicago Boulevard, Evans and Kilbuck, Ottawa and Kilbuck, and Maumee and Chicago Boulevard. The School Safety Patrol continues to guard crossings at Ottawa and Chicago Boulevard, Ottawa and Logan, Shawnee and Mill and Logan and Evans. Local police are assisting as available personnel permits. The establishment of double-stop crossings at Ottawa and Logan, Kilbuck and South Maiden Lane, and Pottawatamie and Maiden Lane will facilitate the work of the Safety Patrol. Parents of children attending the East Branch and West Branch schools have received instructions concerning recommended safety lanes to these schools and guarded crossings enroute.

Prior to acceptance of the safety patrol responsibility by the Boy Scouts, a group of high school boys served as a temporary organization supplementing the work of the School Safety Patrol. Boys who served are Tom Hamilton, Owen Campbell, Barry Freckelton, Russell Hubbard, Richard Haight, Tom Rohweder, David Ousterhout, Jerry Judd, Jack Colson, David Green, Gordon Keyser, Douglas McDowell, Bob Rentschler, Dean Peotter, Melvin Murphy, Bill Martin and Jack Gillin. Other boys cooperated by serving as substitutes on several occasions.

Britton Couple Observe Wedding Anniversary

Mr. and Mrs. William Niblack of Britton celebrated their 25th wedding anniversary Saturday at their home in that village where their marriage vows were repeated before an improvised altar of lighted tapers and baskets of white gladioli. The Rev. A. B. Johns read the impressive ceremony which was preceded by two vocal solos "Always" and "Through the Years," sung by Mildred Miner Hunt, accompanied by her sister, Vena Hiscock, who also played the Wedding March from Lohengrin.

Dinner was served at the Ridgeway Methodist church by the United Worekrs Class and tables were attractively decorated with white mums and stock in silver bowls, all centered with a three-tiered wedding cake. The gift table, centered with a silver dollar-lum tree, was laden with many gifts and cards.

Out-of-town guests were Mr. and Mrs. J. H. Miner, Mr. and Mrs. Hershel Miner and daughter Judy, Mrs. Wayne Nichols and Mr. and Mrs. Harry Bellamy, all of Hillsdale; Mr. and Mrs. Dana Hiscock of Detroit; Mrs. Mildred Hunt of Jackson; Mrs. Roy Townsend of Pittsford; Miss Almeda Niblack of aCro and Miss Patricia Niblack of Clarkston.

WHO FIRED WALLACE?

The President's request for the resignation of his Secretary of Commerce, and Mr. Wallace's prompt agreement, is fine headline material in the newspapers but, behind the scenes, what we'd like to know is WHO demanded Mr. Wallace's retirement, and who actually "put the finger" on Mr. Truman for action?

Obviously, Mr. Truman did not take the step because it was to his liking. Regardless of how little or how much he personally, thinks of Wallace's ability, he knows and so do the leaders of the New Deal know that the former secretary controls a vast number of votes. That was why he was kept in the family" by FDR and by Mr. Truman. It was a policy of appeasement.

Mr. Wallace should have been fired within the hour after he made his pro-Russian speech in New York. The White House knew that, and so did the New Dealers. But it took several days for them to realize that a coat of whitewash was not sufficient to cover the secretary's error.

Mr. Truman has acted wisely, we agree, but we refuse to give him full credit for his act. Somebody—perhaps the Secretary of State or Senator Vandenberg told him that Mr. Wallace MUST go or there would be serious happenings in his official family.

The firing of Wallace is a healthy sign. We sincerely hope that it has taught the New Dealers a lesson. No office is greater than the power that created it, and neither is the occupant of that office. America, by and large, is becoming tired of being pushed around by a lot of loose-talking, vote-catching individuals.

Going Fishing? Here's How!

To hear Willie Wells and Basil Strube arguing about trout fishing, you'd think it was more important than the atom bomb.

Willie favors dry flies, Basil pooh-poohs anything but wet flies. Willie swears by a Royal Coachman; Basil won't hear of anything but a Silver Doctor. And by the time it comes to steel rods versus bamboo rods . . . #!X&**!?!

But on Saturday, each got back from Seward's creek with a catch that couldn't have differed by more than several ounces!

Each had used his favorite kind of fly, his favorite rod and his favorite place to cast. So over a friendly glass of beer, they allowed as how maybe they were *both* right . . . which is how so many arguments should end.

From where I sit, if we all respected one another's different opinions—whether about trout flies, or drinking beer, or voting, life would be a whole lot pleasanter.

"My checking account does my income tax bookkeeping"

Recently a customer told us of an "extra" value he got from his checking account here. "It's practically a whole bookkeeping system all by itself," he said, "when it comes to keeping records for income tax returns—and it's mighty simple.

"I just put all the money from my income in the bank in a checking account, pay all bills by check, and I've got a bonafide record and receipt for everything."

This is a timely suggestion for all. Let a checking account in this bank keep your income tax records, too.

Now's The Time to Plan Your 1947 Model Home

If you intend to build a new home next year—and we expect that 150 or more new homes will be built in Tecumseh in 1947—now is the time to begin the planning.

The first consideration for a home is the site, and if you should care to choose the new addition to Indian Acres, we have lots that are available NOW.

The next step, of course, is the design of your home, its size, shape, etc. We have plenty of plans available to show you, plans that are certain to meet with the approval of the family and the budget.

So, we say, begin making your plans now for building next year. We expect a more free flow of lumber in 1947 and your order NOW will enable us to help you with your plans.

Call on us anytime. We have helped scores of persons with their home-building problems—we'll be only too glad to assist you.

To those who eagerly await their new Chevrolets . . .

Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941.

We know that Chevrolet is doing *everything* possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America . . . and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that *Chevrolet led all other manufacturers in production of passenger cars during June 1946,* and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; *we thank you for your friendly patience and understanding;* and we promise you a new high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST!

Keep Your Present Car Alive

Meanwhile, may we suggest that you safeguard your transportation by bringing your car to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new Chevrolet comes along.

Seventh and eighth grade boys and girls in both rural and village schools may participate in an essay contest sponsored by the county library by writing 200 words on the subject "How the County Library Helps Our School."

The contest was announced to the county teachers at their regular fall meeting so that pupils might begin planning their essays promptly. Each teacher was given printed instructions and asked by the county librarian to see that all entries from his school were completed by November 1, the closing date of the contest. At that time, Mrs. Bessie Armsrong, county school commissioner, and Mrs. Robinson, training teacher, urged all teachers with seventh and eighth grades to submit entries.

Two winning essays, one each from the rural and village school entries, will be selected by a board of judges. The sum of $5 will be presented to the writers of the winning essays, and their schools will each receive Audobon's "Bird Book" for its library.

Permalube

Removes the "goo"

Improves the go!

There's always more *go* to your car when you remove the "goo" —those engine deposits of sludge, varnish, carbon, and soot that stick rings and hamper valve action. There's better lubrication, too—better protection.

Removing the "goo" is the latest idea in motor oils. It's the Permalube idea. Yes, Permalube, Standard's great new motor oil, does more than thoroughly lubricate—it cleans your engine and *keeps* it clean. That's premium-plus lubrication!

When you wash your hands, the basin water gets dirty. But your *hands* get *clean!* Same way when you use Permalube Motor Oil. The *oil* gets *dirty.* But the *engine* gets *clean.* The dirt is carried *out* of the engine when you *drain* out the oil.

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

The A & P Announces
A New Pattern in Food Merchandising
EFFECTIVE ON and AFTER SEPT. 30
THE A&P FOOD STORE
IN TECUMSEH
WILL BE CLOSED ON MONDAYS
A 5-day store week is being established after extensive study and experiment in the belief that it will mean:

Better Service to You . . . . .

The complete personnel of the store will be on duty the entire store week. This should result in the most efficient service to you of which the store organization is capable—less waiting, fresher and better-cared-for merchandise, more completely stocked shelves and displays, better overall store "housekeeping."

Better Living for Store Employes

Several years ago, the A&P gave its employes the first 5-day week in the history of the retail food industry. Now our store employes will have two full consecutive days of leisure . . . A short "vacation" each week for which they can plan . . . A privilege equal to that enjoyed by the employes of many other industries.

We solicit the cooperation of our customers to the end that these advantages may be fully realized . . . The purchase of sufficient supplies to last the family over both Sunday and Monday will prevent any inconvenience.

Since Monday food purchases are only a small percentage of the weekly total, no serious dislocation of our customers' shopping habits should result.

Our store will be open Tuesday, Wednesday, Thursday, Friday and Saturday at regular hours to give you the most courteous and efficient service of which it is capable.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

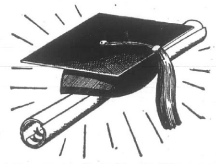
SET YOUR SIGHTS

It takes planning to achieve a goal



Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to $500 per ordinary school year, plus $65 a month living allowance—$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of $50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
6. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

If We Have Your Order
WHEN YOUR TURN COMES
Your New Ford Car Will be Delivered

We Don't "By-Pass" Orders

We Refuse to be Bribed; we think too much of our friends, our reputation and our business.

We've heard, recently, that there's "monkey-business" in the new car business.

We've heard, for instance, that Bill told Joe that, for a price, he could get a new car ANYTIME.

Such stories hurt the automobile business. The instance referred to by Bill may have happened a thousand miles from here, but stories get around.

That's why we're running this advertisement. We want to tell you that there's no "monkey-business" in our business.

What few new Ford cars we are getting we deliver "on order" and "in the order" that the orders were received. We think that is the only fair way to handle an item as scarce as a new automobile.

We have never "by-passed" an order, and we don't intend to start now. We don't take bribes, make bets we know we can win, or trade only with fellows who have a car to "swap."

We believe in doing business fairly; we like to treat others as we would like to be treated. Ours has been known as "The Honest Service Garage" since we opened it—nearly 20 years ago. It still is, and we intend to keep it that way.

We write this so that you may understand, clearly, our policy. If you have a new Ford on order with us, when your turn comes, we'll notify you. That's all that we can do and, at the same time, treat all of our customers fairly.

You'll admit that's fair, certainly.

THE TECUMSEH HERALD

NINETY-SIXTH YEAR—NUMBER FORTY-FIVE | TECUMSEH, MICHIGAN, THURSDAY, OCTOBER 3, 1946 | FIVE CENTS PER COPY

IT'S NOT CASTORIA TODAY'S KIDS CRY FOR—

Oh, Mr. Porter! Where do You Buy 3-cornered Pants?

Maybe you did stand in line for hours at a time trying to buy cigarettes, nylons or some other thought-to-be essential to the American way of life, but listen, friends!

If you should, some frosty morning, discover a baby line in front of a drug store or department store, don't shake or pinch yourself or look for the pink elephants.

The babes—infants we're talking about—will be on their knees crying for those old-fashioned, three-cornered things commonly known as diapers. There just ain't none!

Department store clerks will tell you that diapers are a thing of the past. Maybe the old folk did wear 'em—when they were kids—but this is a new social order. If some merchant is fortunate enough to receive a shipment of four or five dozens, he's got a waiting list longer than the Bill of Rights, (or has that been rationed, too), to buy them.

Anyway, store owners say that diapers are now the most difficult things to buy in America. And, what is more, they say, you can't buy flannel cloth from which to make them, and neither can you buy any other suitable material.

So, to the list of "gone with the administration" items can be added diapers, toilet paper, facial tissues, sheets and pillow cases, men's underwear of all types and description, and, if space would permit, scores of other things.

No, it's not just meat that's scarce folks, (maybe we shouldn't mention any meat shortage in face of the President's statement) it's dozen of other items that some of older folk—those above the age of 25 or 30—had thought to be common, essential things Americans used or wore.

So thinking about it because you can't get a car or a tire or repair parts for your farm implements. If hand towels and old worn-out blankets must replace three-cornered pants for the kids, perhaps things aren't so bad after all.

DON'T GRIPE IF YOU CAN'T VOTE—

Tecumseh Uninterested in Elections=

Between 600 and 800 citizens of Tecumseh who, had it not been for their apathy, might have voted in the special election to be held on Tuesday, October 22, have disqualified themselves as legal electors by having failed to register in accordance with the new Michigan Election Law. The new law provides that persons desiring to cast their ballots must register at least 20 days prior to a special or general election. In the case of Tecumseh, the final day was October 2.

"We have no way of telling exactly how many legal electors there are in the village," Wade L. Jones, clerk, said today. "However, in all probability there are between 1,600 and 1,800. We are now checking our re-registration figures, but I doubt that the cards will show more than 1,000 legal electors within the corporate limits."

At the special election to be held October 22, Tecumseh will decide whether or not liquor may be legally sold by the glass within the village. Petitions, bearing the necessary signatures, were filed with the council several weeks ago, asking that the election be held. If the proposal carries, it is understood that the State Liquor Commission would grant one liquor-by-the-glass store to every 1,500 population. Based on the last federal census, Tecumseh would be permitted only one such retail outlet.

Persons living in both the village and Tecumseh township also must register with H. H. Hanna, township clerk, not later than October 16 if they would vote in the general election, Tuesday, November 5, when Michigan will choose a governor, other state officers, congressmen and also decide on three important amendments to the constitution.

Mr. Hanna has estimated that thus far about 1,000 persons have registered for this election, or less than one-half of the potential voting strength.

Under the new re-registration law, regardless of how often or how lately citizens voted, they must register again to be eligible to vote. This registration, however, is permanent provided the voter in the future casts his ballot at least every two years.

Maybe Mr. Truman Has Never Heard of Bronson, Mich.

"Closed. No meat. Write your Congressman."

That was the sign that hung on the door of a Bronson, Mich., meat market last week when one of its customers rattled the door.

The customer was Congressman Paul W. Shafer of the Third District, publisher of the Bronson Journal.

"I tell you now that I never voted for OPA, I never voted for an appropriation for OPA and I'm not in favor of OPA," Cong. Shafer told weekly newspaper publishers of seven counties, in meeting at the Devils Lake Yacht Club, Saturday evening. Shafer was the principal speaker.

"I think we've got to get rid of OPA and do it quick. If we don't we're going into a tail spin. I'm not talking only about the scarcity of foods, but of other essentials.

"I know the President has said that there isn't any meat shortage, but I'm certain that there isn't any meat in my home town."

Council Head Praises Tecumseh Boy Scouts

Praise for Tecumseh Boy Scouts on the excellency of their record while camping at Washington Lake this summer was sounded by Arthur Lessow of Monroe, president of the Wolverine Council, comprising Monroe and Lenawee counties, when he addressed members of the Rotary club, Tuesday evening, following dinner at Brees House. Mr. Lessow was accompanied by Al Jones, Scout executive, also of Monroe, who spoke briefly.

"There is something basicly sound about Scouting, something that has been proved over a 40-year period," Lessow said. "And I want you to know, too, that Wolverine Council was one of four in this area to win national recognition in the Phillips award, which meant a $2,500 grant to us to help care for operating costs."

The speaker reviewed briefly the history of scouting, told of the excellent record Scouts rung up in World War II and declared that with proper leadership and direction all boys are potential Scouts. He said that during the war years the Washington Lake camp was operated under difficulties but he pointed to immediate improvements.

Tecumseh Rotary Club has, for several years, sponsored the local Boy Scout troop.

Clinton Machine Company To Step Up Production

Because of rapid growth and need for added space, the Clinton Machine Company, Clinton, recently has moved a part of its equipment to an adjacent building on the Tecumseh-Clinton highway, and this new plant is expected to get into operation in the near future, manufacturing an electrical disintegrating machine. The company's new schedule calls for the employment of from 40 to 50 more persons weekly, and some form of transportation system, to get workers to and from their homes, is being given serious consideration.

The company, primarily, manufactures a gasoline motor used to propel garden tractors, bicycles, portable light plants, etc. To meet sales demands, a schedule of 500 motors a day has been set up, and present averages are about 445 daily.

The company now employs more than 375 persons and pay adjustments recently authorized advanced rates to hourly workers 15 cents an hour.

Bishop Emrich will meet and address representatives from fourteen churches including Jackson, Lansing, Ann Arbor, Ypsilanti, Hillsdale, Adrian and others.

The 55th general convention having just been concluded at Philadelphia there will be some brief reports made on the important decisions reached by that official gathering. The Rev. Henry Lewis, D.D., one of the deputies of general convention, and dean of the southwest convocation, will have a part in the evening program.

Dinner Served Winners In Sunday School Contest

Sunday marked the close of a Sunday school attendance contest for members of the Semper Fidelis class of the Methodist church. Following the morning services winners led by Mrs. Ray Krempel were served a dinner by the losers led by Owen Partridge, in the church dining room.

A gift was presented to Mr. and Mrs. Sam Lykken, members who are leaving soon for South Dakota. Plans were also completed for a rummage and bake sale to be held at the church Friday and Saturday, October 4 and 5.

Leaders Are Needed To Aid Girl Scout Work

At a meeting of mothers of Girl Scouts, held recently at the high school, those present were divided into troop groups and committee women chosen for each group, who in turn will meet to form a town committee to have jurisdiction over all local Girl Scout troops.

Mrs. Zelma Townley of Milan, Girl Scout commissioner, spoke and explained details of organization and also gave the history and development of the organization.

Tecumseh has the largest enrollment of Girl Scouts in lone troop organization in the state for towns of this size, and due to its rapid growth, leaders and assistant leaders are needed badly.

Four are Hurt in Auto Mishap

DRIVER MISJUDGES END OF ROAD AT HOLLOWAY CORNER; CAR JUMPS DITCH

Four persons were hurt, two of them seriously, when the driver of the car in which they were riding misjudged the distance to the intersection of the Holloway road and M-50, east of here, early Sunday morning, and the car skidded across the trunkline highway and into the ditch.

Those hurt are Mrs. Russell Thurlby, jr., of W. Logan street, who suffered a broken back and body bruises, Miss Beth Smith, W. Logan street, a broken nose, a wrenched ankle and body bruises, and Mr. Thurlby and Richard Kaner of Dundee, who escaped with only minor bruises. Mrs. Thurlby is a patient in Tecumseh Hospital.

The Holloway road is a "dead end" at the M-50 intersection and is not marked with reflector lights. Mr. Karner was driving, traveling north on the Holloway road. His effort to halt the car failed and it skidded across M-50 and into the ditch. The car was not badly wrecked. The injured were removed to the hospital in an ambulance.

This is the second accident at the intersection involving members of the Smith family. Ten or more years ago, Maxwell Smith, brother of Miss Smith, was a passenger in a car when a similar mishap occurred. He suffered cuts and bruises about the face and head.

Mr. and Mrs. Harry Rosacrans of Toledo narrowly escaped serious injury, Sunday, when their car overturned in a ditch south of Holloway, when Mr. Rosacrans attempted to avoid hitting a chicken that was crossing the highway. The doors of the car could not be opened but Mr. Rosacrans shut off the ignition and two young passing motorists succeeded in getting Mrs. Rosacrans out through a window. Both were bruised. One side of the car was badly damaged but moved under its own power and after a visit with his brother, Leon Rosacrans, and wife, they returned to Toledo.

3,000 Expected at Adrian Game

RECORD CROWD LIKELY FRIDAY NIGHT WHEN INDIANS CONTACT MAPLES

By Jim Sisson

A record-breaking crowd for Tecumseh Recreation Center, variously estimated at from 2,250 to 3,500, is expected on Friday evening when Coach Myles Runk's Tecumseh high school Indians meet the Adrian High Maples in a game that may unofficially prove the supremacy of the Lenawee county gridiron. The kick-off, under the lights, will be at 8 p. m. Officials have requested that fans come early, and that as many as possible use the east gate to the local field. Extra ticket salesmen will be on hand. Reports from Adrian say that a crowd of 1,500 is expected from that city, including both the city and the high school bands.

While the Maples have an impressive record this year, having rung up two Class B victories, they also realize that they have an old score to settle, a stinging 6 to 0 defeat administered by the Indians on the Adrian field, last fall. The outcome of the game will in no way affect the local circuit standing, as Tecumseh is a Class C school.

The Indians again turned in a victory for THS, but by a very narrow margin, last Friday evening when they defeated the Hudson Tigers, there, by a 14-13 score. In this game the Warriors again discovered that conversions are important, as in each of their contests the extra points have been the deciding margin. Friday's game with Hudson was similar to the previous week's engagement with Milan when Tecumseh was barely victorious, 7-6.

Bill Brown again sparked the visitors in their campaign as he rang up the first touchdown and extra point in the first quarter to set the Indians out in front, 7-0. The game appeared cinched with the Redskins coordinating satisfactorily for their first score. But the Tigers opened their jaws and sank their fangs into the Braves' defense and came back to rack up seven markers for the Hudson cause to keep the figures deadlocked at the half.

Tecumseh hit the warpath again in the third stanza as Brown plunged his way down the stripes to pay dirt. However, the driving fullback became injured and was removed from play. With Brown absent, Tecumseh expected to suffer heavily in offensive action, but Marvin Barber turned on his heat and plowed the pigskin over for the conversion and the Indian's 14th point.

The Bengals let out their claws again in the fourth period to tally on a sustained drive from midfield. But they let down as they failed to plunge the important extra point and the contest ended minutes later with Tecumseh on the long end of the point making, but with a lesson learned.

Runk has admitted that the Teepee defense was ragged, that the defense functioned sloppily and were both discouraging. This undoubtedly meant that the Redskins were in for a tough week of practice for the Adrian contest.

Nerves are running bare on the practice field this week as last minute preparation is made for Friday's contest, but the Indians are determined to retain the Maples' scalp, clipped in the 6-0 defeat a year ago.

LEGION AUXILIARY TO INSTALL NEW OFFICERS

Their attendants were Ms. and Mrs. Sumner McCollum, jr.

BLIND PIGS OPERATE

OPA has publicly admitted that, as a result of the new meat ceilings, there is a large storage of meat which cannot be sold profitably under legal prices. Interpreted into the language of the street, what OPA was saying was that the black market—the blind pig of prohibition days with meat instead of booze for sale—will return, fatter and bolder than ever, and that the people as a whole will pay more for meat than they did without price control.

During the period when meat was removed from OPA it flowed in normal, honest channels. True, prices were high, but they were steadily coming down. The law of supply and demand began to operate.

Now, meat will be still higher, and fewer folk will eat it because black market prices are bound to be high, and there are many who will refuse to patronize "blind pigs."

If we are to remain a democracy, then price controls must be removed eventually—perhaps quickly. This is true not only of meat but other products, too. The American people will stand for only so much pushing around, then something is bound to happen. Either we will revert to the before-Roosevelt tpye of government or we will go all-hog for state socialism.

Don't forget this, Mr. and Mrs. Citizen: When you can't buy meat for your table, food for your children, diapers for your babies and toilet paper for your bathroom—and all because of bungled government directives—it's time to think and to act.

Bert Childers and the Melon Patch

Bert Childers put an ad in the Clarion the other day. Here's what it said:

"Planted more melons than I can eat this year. Stop by and pick as many as you want. All free."

As you can guess, plenty of folks sent their kids over and plenty of the parents came too. Stripped Bert's melon patch in no time. And as they went away, Bert treated the kids to lemonade, and offered the grownups a glass of ice-cold sparkling beer.

Naturally it puzzled some folks . . . but Bert explains: "It gives me a kick to share things when I can afford to—whether it's the melons, or the lemonade, or beer. I guess I just like to indulge my whims."

From where I sit, if we had more "self-indulgent" people like Bert—who believe in share and share alike, live and let live, this tired world would be a whole lot better off!

Would You Like to Save Up to One-Third of Your Heating Costs This Winter?

You can, and that's real money in your pocket if you'll insulate your home this fall.

Don't take our word for it, you don't have to. Ask the family that lives in an insulated home, inquire for yourself just what savings they realize as a result of insulation.

We know that they will tell you that they save up to one-third of former costs of heating each year; we know that they will tell you of the greater comforts they enjoy; we know that they can tell you far better than we can, of the many comforts and economies they enjoy.

You can insulate your home yet this fall, if you act promptly, and begin immediately to save on your fuel cost. Your home, too, can be much warmer than ever before; every room can be comfortable.

And, contrary to some opinions, the cost of insulation is comparatively little. Fuel savings alone will pay the bill in a very few years.

See us about home insuation NOW. Have the work done this fall. You'll never regret it.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

You Can Double the Wear in All of Your Garments

Clothing kept clean wear twice as long as clothing neglected, statistics show

Yes, it's a proven fact, that clothing cared for by proper cleaning and pressing, wears twice as long as clothing that is neglected.

That's really something in times such as these when all garments are difficult to obtain, expensive to buy.

For genuine clothing economy we suggest that you send the entire family wardrobe to us for service. We know how to clean all fabrics so that they will give you "the most for your money."

THE TECUMSEH HERALD

NINETY-SIXTH YEAR—NUMBER FORTY-SIX | TECUMSEH, MICHIGAN, THURSDAY, OCTOBER 10, 1946 | FIVE CENTS PER COPY

HONESTLY, WHOSE FAULT IS IT—

If You Lose Your Freedom?

It's typically American to want what you haven't got.

It's also typical for Americans to be unappreciative of what they have, once they've got it.

And, so it goes with the greatest privilege still possessed by the American people—the right to vote.

Everybody, over the age of 21 years, has it. Somebody, back a few hundred years ago, fought and died so that we might possess it.

So, what!

Right here in Tecumseh township, a typical American community if ever there was one, from 800 to 1,000 men and women over the age of 21 years will lose their right to vote in the November 5 general election unless they register before next Wednesday, October 16, at 8 p. m.

Why should you register? Why should you vote?

Every day you hear a chorus of such questions. Every day you hear your friends and neighbors griping, moaning and complaining that they can't do this or that, buy this or that—that their liberties are fast fading.

Whose fault is it? Take a look in the mirror! How much interest are you taking in politics? How often have you cast your vote? What have you done to preserve and protect the old-fashioned American way of life?

If you don't register and if you don't vote at the general election on November 5 just because you "forgot" or you "didn't have time," don't gripe in the coming years about your government.

In the United States, YOU ARE the government. If YOU refuse to take part in its formation, whose fault is it?

And if, gradually, YOU lose YOUR freedom, whose fault is that?

RURAL DRIVING IS CONSIDERED MOST DANGEROUS—

One Killed, Hurt Every 15 Minutes by Michigan Cars!

One hundred and twenty-eight persons were killed and 3,043 were injured in 8,777 reported traffic accidents in the State of Michigan during the month of August, according to a report made public today by the Michigan State Police. Deaths and injuries exceeded those in any month this year and compared with the same month last year, deaths increased 46%, injuries increased 20% and the total reported accidents jumped 35%.

Strange as it may seem, provisional figures indicate that most of the August fatality increase occurred in rural areas.

During the first eight months of this year, 854 persons were killed, 21,873 were injured, and there were 68,542 reported accidents. Compared with the same time last year, deaths and injuries increased 38 per cent and reported accidents were up 41%.

Rural deaths for the eight month period increased 197 or 63%, and urban deaths were up 30 or 19%.

The bulk of the fatality increase has resulted from the following types of accidents: collision with pedestrians, 296 killed, up 22%; collisions of two or more vehicles, 252 killed, up 54%; ran-off-roadway, accidents, 149 killed, up 82%. Ran-off-roadway accidents are most frequently caused by driving at speeds too fast for conditions and in rural areas deaths resulting from this type of accident were up 58 or 95% compared with the same period last year.

The relative importance of speed and other contributing factors in total accidents during the first eight months of this year is shown in the following summary of reported violations:

VIOLATIONS	Per Cent Rural	Per Cent Urban
Excessive speed	48	32
Right-of-way	6	16
Under influence alcohol	6	8
Wrong side of road	13	7
Improper passing	6	7
Disregarded officer or control device	12	19
Other violations	8	11

Two out of three fatal accidents involved one or more who were violating the law at the time of the accident, and two out of three accidents occurred during hours of darkness.

1,000 Expected to Lose Votes

INTEREST IN NOVEMBER ELECTION FAILS TO ATTRACT REGISTRATIONS

It is expected that upwards of 1,000 potential voters in Tecumseh township—including the village of Tecumseh—will lose their votes in the general election, November 5, because they failed to register in accordance with the Michigan Election Law. The new law provides that regardless of how lately or how often a voter has cast his ballot, he must re-register not later than next Wednesday, October 16, if he would vote in November. Voters who will cast their ballots for the first time, also must register on or before that date.

To accommodate voters, the Township Clerk's office, in the Strand Theatre building, is open each afternoon, and all day and until 8 p. m., next Wednesday, for the purpose of accepting registrations.

H. H. Hanna, township clerk, said today that while cards had not been counted carefully, he believed about 1,200 persons had thus far registered for the election. It is believed that there are somewhere between 2,100 and 2,400 potential voters in the township.

"The law is very plain," Mr. Hanna said, "and voters who fail to register and who come to the polls next month to vote, must be denied the privilege. There's nothing that we can do about it. We have no choice in the matter."

State-wide, it is said, voters are apathetic about registering for the November election ,despite the fact that a governor will be chosen as well as congressmen, and other state and federal officials. Three important amendments to the Michigan constitution also will be submitted to electors for their approval or disapproval.

Death of Oldfield Recalls Memories

The death, last Friday in Beverly Hills, Calif., of Barney Oldfield, famous automobile racing driver, recalls to mind many memories of the gay 90's for several Tecumseh folk, many of whom enjoyed a speaking acquaintance with the racing king.

Oldfield, in 1896-97, raced in bicycle races in Tecumseh and was known as a top-flight man in that sport.

Leon F. Rosacrans enjoyed a personal acquaintance with Mr. Oldfield, having known him in Toledo, when both men were employed there. About three years ago, the racing king stopped in Tecumseh to visit Mr. Rosacrans, enroute to his home in California.

Will Supervise School Recess

CROWDED CONDITIONS MAKE NOON-TIME RESTRICTIONS AT SCHOOL NECESSARY

Increased attendance in the Tecumseh public schools from outlying rural areas, this year has necessitated a definite program of supervision of students who remain at the school during the noon recess period, authorities have announced.

Paul Johnson, principal of the elementary grades, said today that the school now has a supervisory program for all pre-high school age students who remain at the school for lunch, which program is supervised by elementary grade teachers in both the Central and Brownville schools.

East Branch school students remaining at school for lunch, now travel as a group to the Central building at 11:30, and remain there until 12:30. No students are now remaining at the West Branch for lunch.

School authorities are requesting that parents residing in Tecumseh instruct their children to return home for lunch. Children living in Tecumseh also are asked, in inclement weather, not to return to school for the afternoon period before 12:45 p.m.

At the request of a few parents for direct school supervision during the whole noon-period for children coming to school by bus or car, a classroom has been provided at the Central building to which such students may go and remain quietly for study under a teacher's direction. Students whose parents make written requests to Mr. Johnson will be required to go to this room directly after lunch and remain there until 12:45. Excuse from such supervision will then be granted only upon the written request of the parent.

1,050 Register for Liquor Vote

LESS THAN TWO-THIRDS OF POTENTIAL VOTERS WILL BE ABLE TO BALLOT

Less than two-thirds of the eligible voters in the Village of Tecumseh will be able to cast their ballots on October 22 when this community decides whether or not liquor may be sold by the glass, over the bar.

Wade L. Jones, village clerk, said today that 1,050 persons had registered with his office, making them eligible to vote in the election.

"While we have no accurate way of knowing, it is estimated that there are about 1,800 persons in Tecumseh village who, if they registered, would be able to vote. Registered voters, then, comprise less than two-thirds of the potential strength."

Wednesday, October 2, was the last day for registration in the village for the October 22 election, the law requiring that books must be closed 20 days previous to the election date.

The ballot to be submitted to voters at the special election week after next will be very simple and will ask only the one question, whether or not liquor should be sold by the glass within the limits of Tecumseh. The voter will answer in the affirmative or the negative.

The special election was authorized by the council after it had received petitions bearing the necessary signatures to bring the issue before the voters.

Monday Club Opens New Year With Luncheon

Mrs. McPhail reviewed the program of the district meeting, to be held in Detroit on October 22 and 23, and at which Mrs. Donald Goddard and Mrs. Hayden will represent the club as delegates.

Mrs. Guy Pocklington introduced Mrs. Margaret Vaughn, dramatic soprano, who sang several numbers, with Mrs. Frank C. Gilman at the piano. Mrs. Vaughn's program included, Aria "Angels Ever Bright and Fair," Handel; "Music I Heard With You," Hageman; "Wild Geese," deLeath; "Spendthrift," Ernest Charles; "Deh Vieni, Non Tardar," Mozart; "The Ninghtengale and the Rose," "An Old Song Re-sung," "Celle que je Prefere," and "Do I Love Thee."

The report was made public by Fay Whelan, treasurer of Recreation Center.

Forgot Gun Was Loaded; Boy, 15, Is In Hospital

Because he forgot that the 16-gauge shotgun he was using was loaded, Richard Conklin, 15, son of Mr. and Mrs. Frank Conklin of Jackson Road, Clinton, is in Tecumseh hospital, suffering from a severe gunshot wound in his left arm near the shoulder.

Richard and William Schmidt, 15, son of Mr. and Mrs. Hans Schmidt of near Clinton, were duck hunting on the River Raisin here, late Saturday afternoon. State police say that Richard told them that the accident happened when he attempted to pull the canoe they were using to shore. He reached over the muzzle of his shotgun, which he forgot was loaded, and the gun discharged.

Indians Invade Clinton, Friday

RIVAL SQUADS TO CLASH ON NEIGHBORING FIELD TOMORROW AFTERNOON

By Jim Sisson

The Tecumseh high school Indians will travel to Clinton tomorrow afternoon for one of the county grid classics of the season, the annual game between the Redskins and the Indians which has, in years gone by, attracted recordbreaking crowds. Because Clinton does not have a lighted field, the game is played in daylight with a 3:30 kick-off.

Both the Indians and Clinton have one conference victory to their credit, the Redskins having defeated Blissfield last week, 20-6. Two weeks ago, Tecumseh defeated Hudson. Tecumseh is the favorite to win tomorrow's game, having a slightly heavier line, but Clinton is determined to scalp their opponents.

Tecumseh gridders went down fighting as they gave way before the class B Adrian eleven last Friday, 19-0. The non-league clash took place before one of the largest crowds ever to fill the Tecumseh Recretaion Center as approximately 3000 fans witnessed the exhibition.

The contest proved one of the most interesting of the season. The Indians held down the highly favored Maples through the entire first half.

In the second half the Warriors re-entered the gridiron to receive the kickoff and begin a threat of their own. Following several line plunges, Marvin Barber, Redskin left half, flipped a long pass to his teammate end, Bill Hayden, to put the ball down to the Maples' 30 yard stripe. But the hazard was eliminated when Adrian intercepted another pass thrown by Brown, Indian fullback.

The visitors began their comeback with a controversial decision, in which co-captain Ben Hammack, misunderstood the referee's statements on an intentional grounding by Smith in the Adrian backfield. Hammack took the down which he understood would move the ball back to where Smith had been tackled, and therefore refused the penalty. But the referee promptly moved the pigskin-ap to the former line of scrimmage leaving the Indians a bit dazed.

On the next play, Adrian's quarterback, Marvin, tossed a short arie to Myers who somehow slipped through three would-be tacklers of the Braves' secondary and scampered 45 yards for the initial score. Mitchell plunged the conversion and Maples led 7-0.

With the deadlock broken, Adrian crossed the goal line twice more to tally the final score a 19-0, and set Tecumseh down to their first defeat of the current schedule.

DR. MacNAUGHTON IS ROTARY CLUB SPEAKER

Dr. Norman MacNaughton, head of the psychology department at Adrian College and pastor of the Methodist church here, was the speaker at the regular dinner-meeting of the Rotary Club, Tuesday evening at Brees House. Dr. MacNaughton discussed, "Learning How to Live in a Crowded World."

Discussing the problems facing the nation and the world, and pointing out that the world seemingly is smaller because of modern communication, the speaker stressed the need for greater understanding.

"There are those who tell us that we must get 'back on the road' if we are to succeed. It seems to me that such a statement is wrong. We're not off the road, we can't turn back. We must go ahead over a road yet to be built. We must take with us the good and the knowledge that we have if we are to succeed."

US-112 Mishap Fatal to Child

RONALD TAYLOR, 4, KILLED WHEN HIT BY CAR SIX MILES EAST OF CLINTON

One child was killed and several other persons were hurt, some of them seriously, in a series of automobile accidents in this vicinity during the past week.

The one fatality occurred about six miles east of Clinton on US-112 shortly after noon, Sunday, when Ronald Taylor, 4-year-old son of Mr. and Mrs. Harlos Taylor of Saline, ran into the path of a car driven by William E. Brown of Detroit. The boy died instantly. A Washtenaw county coroner held that the accident was unavoidable.

Dr. Tony Delvanthal, 51, and Dale Palmer, 38, both of Napoleon, O., were seriously hurt about 5 o'clock Saturday afternoon east of Clinton on US-112, when, in attempting to pass a string of traffic, Dr. Delventhal's car crashed head-on with a truck. His spine was fractured, several ribs broken, as well as one leg. Palmer suffered deep cuts and bruises. Both men were removed to an Ann Arbor hospital. They were enroute home from the football game at Ann Arbor.

Richard Merriweather, 15, of Clinton, suffered cuts and bruises about 7:30 Saturday night when the car he was driving at a fast speed skidded about 175 feet and went into a swamp on the Willow Road, two miles east of Clinton. Miss Josephine Samonek and James Moore, both of Manchester, passengers in the car, were bruised.

Betty Phipps of Tecumseh, was removed to Tecumseh hospital Sunday night about 9 o'clock when the car she was driving hit the cement bridge on N. Evans street, near St. Peter's church. She was taken in an ambulance to the hospital in an unconscious condition.

Cars driven by Virginia Ferguson of Tecumseh, and an unidentified driver were damaged, Sunday evening on Chicago boulevard, due, police say, to a "cutting in" accident. Both cars were damaged.

The Misses Mary Brown and Martha Hayden escaped injury Sunday afternoon when the car driven by Miss Brown struck a cement culvert, northwest of here and left the roadway. The car was badly damaged. The accident happened when a rear tire blew out, causing the driver to lose control.

Pet Poisoning Arouse Council

$50 PERPETUAL REWARD POSTED FOR ARREST, CONVICTION OF GUILTY PARTIES

In an effort to halt the poisoning of pets within the village limits, the village council, in session Monday evening, posted a perpetual reward of $50 for information leading to the arrest and conviction of guilty parties. Several dogs and cats have been poisoned here recently.

The council also passed an ordinance making it a misdemeanor to burn rubbish or waste paper within the fire limits of the village, except in a container and then, only when under constant supervision. Dumping of rubbish or waste paper in the streets in the same area also was prohibited.

To protect Tecumseh's water supply, the council enacted an ordinance prohibiting building of a type that might contaminate or pollute the water, within 200 feet of village wells.

James Howard of Ypsilanti, was granted permission to operate a taxicab in Tecumseh. Operation is to start in about two weeks, he said.

Robert Williamson and Leo Smith were named as members of the police department.

The extension of South Union street, south from Fatterson street to the village limits, was approved.

Officials for the special village election, October 22, were named as follows: Inspectors, Florence Howe, Doris Tonneberger, Ed Smallidge and Rudy Mead; clerks, Minnie Russell, Myrna Tingley, Iva Marsh and Mrs. Earl Lindsley; gate keepers, Robert Quackenbush, Arthur Harding, Geo. Rubadou and John Wyrill.

DON'T BLAME MERCHANTS

Although it is a very human failing to "take it out" on the merchant when you can't find what you want in his store, customers should remember that the merchant is having a far more difficult job than the consumer, and that he really is entitled to genuine consideration.

Most every store today finds itself crowded with eager buyers at a time when it has little to sell, because strikes and shortages are holding up production. Then, too, experienced and courteous employees are hard to find. Everything considered, the merchant goes to bed night after night with his head throbbing from the complex and endless reports he must make to the income tax officials and other agencies. And he's faced with a price problem over which he has no control.

But despite all of these handicaps, the average merchant is doing a bang-up job. He has stretched supplies so that as many people as possible get a share. Somehow he has managed to keep good standards of service going, and is ever-attempting to better them. He has done everything in his power to limit price increases, and he is constantly in the market, trying to obtain the goods you want to buy.

So remember, the next time you go into your store and your merchant is out of what you want, be considerate of him. He's human, and probably more disgusted about the whole affair than you are. He is the dumping ground for everybody's trouble. Don't add to his already heavy load by griping. Today, your merchant needs a friend, too.

DO YOU REMEMBER?

Are Returning Veterans "Different"?

During the war you heard a lot about how hard it was going to be for returning veterans to get adjusted to civilian life . . . how they'd be "different."

Well, plenty of them have returned to our town, and a finer, steadier bunch you couldn't ask for. Most of them are back at the same jobs . . . going with the same nice home-town girls (getting married, some of them, and setting up families) . . . renewing the same old friendships.

Even their amusements are the same. Nothing more exciting than fishing Seward's creek or pitching horseshoes . . . enjoying an outdoor barbecue with friendly wholesome beer and pleasant talk.

If they've changed at all it's in the direction of maturity and tolerance . . . tolerance for everything except dictators, and those who would destroy our democratic principles of live and let live. And from where I sit, that's another reason to be proud of them.

There's Danger in Under-Insurance of Both Real and Personal Property
Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

To Keep Well—

Don't Risk the Health of your Children

At the first sign of illness, call your doctor . . . for children seldom complain unless they are really sick.

Of course, there are the simple children's diseases—stomach ache from too much candy or too many apples—that usually can be treated at home, and for which we have all of the needed remedies.

But if illness persists, call your doctor. And his prescription, for careful compounding, should always be brought to us.

You Want To Have Your New Car Now!

And We Want to Deliver it as Soon as Possible

Here Are Some Answers to Questions Frequently Asked About Delivery of New Ford Cars

Perhaps they'll answer your question, too

Q: Can I place my order for a new Ford now?
A: Yes. We shall be glad to take your order now.

Q: When can I expect to get a new car, if I place an order now?

A: We wish we could tell you exactly when your new car can be delivered, but there have been so many interruptions in production during recent months, we hesitate to even make a guess.

Q: But can't you give me some idea when I can get delivery?

A: We're awfully sorry, but we can't, and here's why. The Ford Motor Company can't tell us how many cars they will be able to let us have in the near future—and until we know how many cars we can count on getting, we just can't forecast future deliveries. Frankly, the way things look now it will probably be several months and maybe even longer, before deliveries can be made on orders taken today.

During past months, there has been an acute shortage of materials and parts to build new cars, due to work stoppages in major industries and plants the Ford Motor Company depends on for supplies. And it is still difficult to get all the materials and parts needed to step up production. So long as this uncertainty continues it will be difficult to make definite promises of future deliveries.

On the other hand, every effort is being made to secure needed materials and parts in sufficient quantities to maintain full Ford production. And we are all hopeful that the present uncertain industrial conditions will be adjusted. As soon as this can be done, Ford Motor Company can and will step up production to full capacity—and then it will be possible to make delivery quicker than can be foreseen right now.

Q: Can I place an order for a new car, even though I don't have a car to trade?
A: Yes. We'll be glad to take your order.

Q: But if I had a good used car to trade, wouldn't that help me get a new one sooner?
A: No, I'm sorry but it wouldn't. We are in the automobile business, and naturally, we are glad to get all the cars we can, both new and used, to sell—but we don't let that control delivery of new cars.

Q: If I make a deposit on a new car, and later on decide I don't want it, can I get my money back?
A: Absolutely; whenever you want it.

Q: How will my deposit on a new car be protected?
A: All the deposits we take on new cars are put into a special account at the bank until delivery is made. We don't use customers' deposits in the operation of our business—so your money is always right there in the bank if you want it back.

Q: I am a veteran of World War II. Do I get any preference in the delivery of a new car?

A: Yes. At least one out of every four cars we receive is delivered to a veteran whose order we are holding on our Veterans' Order List.

Q: Well, does that mean that veterans get their cars quickly?

A: Yes, but of course not immediately. New cars are delivered to veterans in the order in which they placed their orders with us—and we are already holding many veterans' orders.

Here's the way we handle orders for new cars. Two order lists are kept: one for veterans and one for civilians. When a veteran places an order for a new car his name is added to the veterans' list and his car will be delivered in proper rotation. The veterans' advantage is that we deliver at least one out of every four new cars we get to a veteran.

Q: Well I just have to have a car now. Don't you consider the merits of your customers' needs?

A: Yes. When urgent need of a new car is a factor, we will, in the public interest, determine such cases on the basis of the now abolished, but publicly accepted, OPA priority lists.

Q: Isn't there something I can do to get a new car now? I am willing to pay a premium if necessary.

A: We do not accept bonuses over our regular, established prices. The new cars we get will be delivered to the people who have placed orders with us on a first-come-first-served basis. The only exceptions for earlier delivery that will be made are to veterans and cases of public necessity, as mentioned above.

Q: Why hasn't the Ford Motor Company built more cars since the war?

A: Ford was the first automobile manufacturer to get into production with a 1946 model car—and was months ahead of the rest of the industry. But circumstances that neither Ford Motor Company, its employees nor its Dealers could control have restricted the production of new cars to only a fraction of the number the company had planned to build.

Q: Have strikes held down Ford production?

A: There hasn't been a single strike at the Ford Motor Company since the close of the war. But strikes in other plants and industries have held Ford production down.

In addition to the steel and coal strikes, with which you are familiar, there have been numerous strikes in plants the Ford Motor Company depends on for other materials and for parts. These work stoppages created a shortage of materials and parts that have held the production of new cars down—and on several occasions completely closed all Ford plants for weeks at a time.

We want to thank you for your patience and understanding in this difficult situation and to assure you that we are doing everything we can to give you early delivery.

In the meantime, may we suggest that you bring your present car to us for service. We will give it expert care, at reasonable rates, to keep it serving you well until your new Ford can be delivered.

School to Use Parish House

CROWDED CONDITIONS IN BUILDINGS MAKE OVER-FLOW ROOM NECESSARY

Because of crowded conditions in Tecumseh's school buildings, W. L. Berkhof, superintendent, said today that sometime next week, probably Wednesday, St. Peter's parish house would be converted into a classroom for about 30 kindergarten and first grade children, with Miss Alice Seger, at present teaching a first grade class in the East Branch, in charge.

Alvin Brazee, who this year retired from the school system, will return to his duties next week in charge of a third grade class in the Brownville school. Mrs. Homer Colson, who has been teaching at Brownville, will take charge of a first grade class at East Branch, formerly taught by Miss Seger.

"We hope that this change will enable us to better take care of the youngsters in these overcrowded rooms," Mr. Berkhof said. "We have had the St. Peter's building inspected by the state fire and health departments, and after minor changes have been made, both departments have approved."

Mr. Berkhof said that children residing in the vicinity of St. Peter's and Brownville, who are in kindergarten, first or third grade, would attend those schools.

The board of education is now asking for bids for the construction of an addition to the West Branch building, that will cost about $14,000. It is hoped that work on this addition can be started soon, and that it will be ready for occupancy soon after the first of the year.

Miss Margaret Gafner Bride of John N. Kittel

Miss Margaret Gafner, daughter of Mr. and Mrs. Albert Gafner of Adrian, formerly of Tecumseh, and John N. Kittel of Ann Arbor, were married Thursday evening, October 10, at a candelight service in the First Methodist church in Ann Arbor. The double ring ceremony was performed by the Rev. Robert Jongeward.

The bride, given in marriage by her father, was attended by her sister Mrs. Doris VanValkenburg of Tecumseh as matron of honor and Miss Esther Combs of Ann Arbor as bridesmaid. Thomas Kittel of Ann Arbor was his brother's best man and ushers were Robert Gafner and Michael Katapol.

A reception was held in the Green Room following the ceremony.

Mr. and Mrs. Kittel will make their home in Ann Arbor after their return from a trip in the eastern states.

SEINA HEIGHTS PRIEST IS ROTARY CLUB SPEAKER

The Rev. Fr. E. C. La More, O.P., Ph. D., S.T.Lr., of Seina Heights College, Adrian, discussed the subject, "Why Psychology Has Failed," when he addressed the regular dinner meeting of the Rotary Club, Tuesday evening at Brees House. He heads the department of religion and philosophy at the college.

The Rev. Fr. La More contended that America is fast becoming a land of make believe instead of reality, and warned that we must be ourselves if democracy is to be made to work.

Pretense is not what is needed, Fr. La More believes, in statesmanship, religion, business or home. To make democracy work, he thinks, Americans must be genuine and sincere.

Guests at the meeting included C. H. Osgood and L. A. Warner of Saline, Nate Gould of Clinton, Glenn Van Etten of Independence, Ia., and Clarence Rodd of Temperance.

FRIENDSHIP MEETING

Josephine Hall Temple of Pythian Sisters will be hosts to the District Friendship Meeting this evening in their temple in Witherell Building.

Grand officers and guests from Milan, Hillsdale, Adrian and Tipton are expected. The meeting is open to all Knights of Pythias and Pythian Sisters and their friends.

Potluck supper at 6:30 will precede the meeting.

PAST CHIEFS NIGHT

Past Chiefs Night will be observed at the regular meeting of Josephine Hall Temple of Pythian Sisters on Wednesday evening, October 23. This is also the anniversary of the temple and lunch will be served after the meeting.

Hear William R. Kelley, veteran candidate for Congress, speaking over WPAG (1050 on your dial) at 1:15 p. m. on Sunday, October 20.—adv.

2 DOWN, 1 TO GO!

Now, You Must Register for the School Election

For the average Tecumseh voter, insofar as registration is concerned, its two down and one to go.

Because of a change in the Michigan election law, voters in this area have thus far registered twice; once for the village election, to be held next Tuesday, and again for the general election, to be held November 5.

Now, to add to the voters' burdens, the law further compels that he or she must register for school elections, and the registration dates have been fixed by the board of education as November 4 to 9, inclusive. Registrations will be taken in the office of LeRoy Titley, in the Strand Theatre building.

There are two types of electors. The "general elector" is a person over 21 years of age, a resident of the state for six months and of the district 20 days, who may vote on issues that do not involve bonds or taxes. He or she may or may not be the parents or guardian fo school-age children, or a property owner.

The "taxpaying elector" must possess the same qualifications as to age and residence, but he or she also must own property that is assessed for school taxes, or be the lawful husband or wife of such an owner. This type of elector may vote on all issues, including the expenditure of money, the issuance of bonds, etc.

Tecumseh comes under this new law as the result of a directive received from voters at the last school election, and in the future, all candidates running for election to the board of education must file nominating petitions in advance of the election date.

Miss Donna J. Malady Weds Anthony Krzyzaniak

Miss Donna Jean Malady, daughter of Mr. and Mrs. Maurice Malady of Tecumseh and John Krzyzaniak, son of Mr. and Mrs. Anthony Krzyzaniak of Manchester, were united in marriage Saturday morning at a lovely ceremony performed at St. Joseph's Catholic church in the Irish Hills. The Rev. Fr. William McGoldrick of Clinton officiated at the double ring ceremony.

The bride, who was given in marriage by her father, was attended by Miss Erma McVay as maid of honor, and Misses Marilyn Malady and Dolores Krzyzaniak as bride's maids. Eugene Krzyzaniak was his brother's best man and another brother, Donald, was the usher.

Following the ceremony a wedding breakfast for the immediate families was served at Brees House in Tecumseh and in the afternoon a reception was held at the home of the bride's parents on N. Union street for relatives and friends from Chicago, Detroit, Manchester, Clinton and Tecumseh. Marlys and Evelyn Arnold, Marilyn Wilson, and Maureen McLain assisted in serving.

Mr. and Mrs. Krzyzaniak left later for Chicago and on their return will make their home near Manchester where both are employed by the Ford Motor Company.

The bride graduated from Tecumseh high school in June 1946 and the groom was recently discharged from the army after three years service.

JACKSON DOCTOR IS KILLED IN ACCIDENT

Dr. H. O. Petersen, 51, Jackson osteopathic physician, died instantly about 1:30 Tuesday morning when he lost control of his car on M-50, just south of Cambridge Junction, and it was wrecked. Dr. Petersen was thrown from the machine. It is believed that he fell asleep at the wheel. This was the 23rd fatal traffic mishap in the county this year.

Community Fund To Seek $3,500

DRIVE TO OPEN HERE ON OCTOBER 28; TWO DIRECTORS ARE ELECTED

The Tecumseh Community Fund campaign will be operated concurrently with all other Community Chest drives in the state, and will open on Monday, October 28 and continue through November 13, it was announced today. Locally, the drive is for $3,500, the same size quota as was sought and subscribed a year ago.

Tecumseh's Community Fund is incorporated and at a meeting at the United Savings Bank last week, two directors were elected: Robert G. Fuller was named to succeed himself, and Howard Diedrich was named to succeed Cy Curtiss, whose term had expired. Other members are John R. Thompson, Geo. H. Adamson, Perry C. Satterthwaite, the Rev. Edward Escolme and Robert H. Moore. Mr. Adamson was elected president, Mr. Satterthwaite, vice-president, and the Rev. Mr. Escolme, secretary, treasurer.

The directors announced that Ellsworth A. Collins had been chosen as general chairman of the 1946 Community Fund Drive, and that he would have his committee appointments ready for announcement next week, in time for the opening of the campaign the last week in this month.

Many organizations share in funds contributed to the Community Chest. Included in these are the Boy Scouts, the Girl Scouts, the Camp Fire girls, contributions toward a milk fund for children and many other civic charities.

"I hope to have the committee appointments made so that they can be announced next week," Mr. Collins said, "and we hope to make the campaign a speedy one, and go over the top by the final date."

As in other communities, the Red Feather will be the symbol of contributors here this year.

Cafeteria supper was served after the meeting to 125 members of the district and several visitors from Toledo. Following supper the Tecumseh Barber Shop Quartet entertained for an hour and the remaindre of the evening was spent dancing.

A cordial invitation was extended to neighboring aeries to attend the regular meetings of the local aerie on Monday evenings and the social meetings on Saturday nights.

Another in a series of debates was held Monday evening at the regular meeting of Chief Aerie. POLLS ARE OPEN FROM 7 A.M., to 6 P.M.

Tecumseh Votes Tuesday on "Liquor by the Glass"

The sale of hard liquor over the bar by the glass will be the issue to be decided when voters in the Village of Tecumseh go to the polls next Tuesday, October 22. Voting will take place in the council building, So. Evans street, and polls will be open from 7 a.m., to 6 p.m.

To be eligible to vote in this election, an elector must have registered with the village clerk on or before Wednesday, October 16. It is estimated that there are about 1,050 registered voters, or about two-thirds of the normal voting strength of the village.

If the proposal carries, the village council might approve one such liquor-by-the-glass license in Tecumseh. The state law provides, according to John R. Zeigler, village attorney, that one by-the-glass license may be granted to each 1,500 population of a community, according to the last federal census. Tecumseh's 1940 census was slightly under 3,000.

Tecumseh is one of nine communities to vote on the issue this fall. Deerfield voted Tuesday, Tecumseh and Clinton will vote next Tuesday, Britton will vote October 31, Adrian, Hudson, Morenci and Hudson township will vote November 5, and Onsted on November 6.

In the event that the issue is defeated in any of the communities, the state law provides that the issue cannot again be placed before the voters of those communities for at least four years.

Sale of liquor-by-the-glass has been prohibited in Lenawee county since 1911 when a county-wide vote made Lenawee dry. That was nine years before the Volstead prohibition amendment became effective in 1920. Beer was legalized in Michigan on May 11, 1933, and late in that year the state went into the hard liquor business and in some communities, in early 1934, liquor and cocktails were offered by the glass. Lenawee county, however, continued to remain dry.

The village council here ordered the election after petitions had been filed by the Table Toppers Association, bearing the required number of signatures, asking for the vote.

Indians Humble Clinton Eleven

VICTORY LAST FRIDAY GIVES TECUMSEH LEADERSHIP IN LENAWEE LEAGUE

By Jim Sisson

The Tecumseh high school Indians worked their way into sole ownership of the top berth in the LCAA standings by edging out their chief rivals, the Clinton Redskins, by a six to nothing score on the Clinton gridiron, last Friday afternoon. Although the victory was another scalp for the Braves' war belt, it was far from another feather in their bonnet. The exhibition appeared to be anything but championship football playing, and was extremely sloppy throughout the four quarters.

The break which handed the contest to the Runk clan came on the opening play when the visitors connected with the ancient "sleeper" play. Following the kickoff, Bill Hayden, Indian left end, lay down on the Tecumseh side of the field to prepare for the old but surprising trick. The ball was immediately snapped and Marvin Barber flipped the pigskin to Hayden who had slipped unnoticed past the opponent's defense. He scampered the remaining 50 of the 60 yards to the only score of the encounter.

Don Aebersold, who had taken over Bill Brown's duties at fullback since his leg injury, failed in the conversion when he fumbled the pass from center. Thus, the Warriors ended the days' tallying on the first play of the game.

The Tecumseh squad played anything but good football. The Redskins out-passed and out-maneuvered them all afternoon and barely missed scoring on several dangerous threats.

Although the light rain and slippery pigskin might have altered the Tecumsehites efficiency, it certainly did not form an impediment which set the Indians back to preseason style. The lack of enthusiasm and power seemed unexplainable but Coach Runk promised some drastic changes in attitude this week.

Harold Anderson sparked the Tecumseh backfield to what meager efforts they did perform with his driving and kicking while Co-captains Ben Hammack and Tom Judd held up the backbone of the forward wall. Hammack came back into the grueling brawl after having his front teeth kicked out in the opening plays.

With this page of grid warfare in the history books, the Teepee Town lads have settled down for the serious business of preparing for two non-league contests. The first, to be played tomorrow at 8 in Monroe, with the Monroe Catholic Central eleven, will test their recovered strength and power, and will compare them with the eastern football loops.

Pheasant Season Opens In Tecumseh With Bang

The pheasant shooting season got under way here Tuesday, with scores of hunters in the field by the 10 a.m., deadline. The birds are not too plentiful this year, reports said, but the kill was considered on a par with a year ago.

The change in the law made hunting impossible until 10 a.m., Tuesday and yesterday, but for the balance of the season—until November 5—there is a 7 a.m., starting time limit. Two pheasants may be killed in a day, four in possession at one time, and eight in a season.

More Than 700 To Lose Votes

TOWNSHIP REGISTRATION IS BELIEVED TO BE BETWEEN 1,400 AND 1,500

It is estimated that more than 700 could be voters of Tecumseh township—including the village of Tecumseh—will be unable to cast their votes in the general election, November 5, because they failed to register.

Le Roy Titley, supervisor, has estimated that the registered strength of the township, including the village, for the national, state and county election, next month, will run between 1,400 and 1,500. The final day to register was yesterday.

The new Michigan law provides that voters who failed to re-register are not eligible to cast their ballots, even though they have voted at previous elections.

The registered voting strength of the Village of Tecumseh has been estimated by Wade L. Jones, clerk, as 1,050. This means that only about 400 have registered outside the village proper.

HAVE YOU HAD ENOUGH?

Fun, isn't it, getting your corns stepped on, your hat crushed in, your patience tried to the snapping point as you stand in line trying to buy a pound of shortening, a roll of toilet tissue or a box of soap flakes?

Have you had enough? Is it time for a change?

* * * *

Nice, isn't it, hiking from one market to another trying to buy a piece of meat, a pound of lard or a dozen eggs? Pacifying, isn't it, to hear the clerk say, 'Sorry, we're out. There's a shortage, you know."

Have you had enough? Is it time for a change?

* * * *

Enjoyable, isn't it, wearing a pair of shorts that won't stand another patch and hearing your clothier tell you that shorts are not available; that if a shipment of a few pairs comes in he'll remember you—under the counter?

Have you had enough? Is it time for a change?

* * * *

Comfortable, isn't it, wearing a pair of shoes that won't stand another pair of half-soles, arches broken, counters run over; comforting, isn't it, for the clerk to tell you that shoes are on an allotment basis, that they're slow coming in?

Have you had enough? Is it time for a change?

* * * *

It's a pleasure, isn't it, trying to cook on a stove that's ready for the junk pile, keep foods without refrigeration and twiddle your thumbs in the evening because the family radio needs a new condenser? Repairs for these essentials—or are they—are limited, you know, by some alphabetical agency.

Have you had enough? Is it time for a change?

* * * *

Is this the America—the United States our forefathers fought and died for under General Washington? Is this the government of, by and for the people that Mr. Lincoln spoke about at Gettysburg?

We believe, definitely, that it is not, that it's time for a change. It's time that statesmen took over our government; men who are not afraid, men who are willing to sacrifice votes for the good of America; men of Patrick Henry's type, men who'll not let their country down in a time of crisis.

Communism thrives on unrest, discontent, half-truths and fear. It must not continue to thrive in America.

From where I sit ... by Joe Marsh

Want a Vacation from Marriage?

Alvin Blake went south on his vacation, for some fishing, and left his Missus to enjoy a vacation from the corncob pipe, clothes in a heap, and solos on the harmonica.

First few days, Martha enjoyed it—house neat and quiet, top back on the toothpaste, no morning mess from Alvin's midnight snacks (Al's partial to a bit of cheese and beer at bedtime).

Come the end of the week, she began to fidget; couldn't even read the *Clarion*, it looked so unmussed; didn't have any appetite with nobody to cook for. She was about to wire Al, when he barges home a week ahead of time, and she almost cries for gratitude. ("Felt the same way myself," says Al.)

From where I sit, those differences of habit and opinion—whether they have to do with corncob pipes, a glass of beer, or playing the harmonica, seem mighty trivial when you're separated. And they *are*, too!

BRITTON

Home From Honeymoon

Mr. and Mrs. William J. McElroy have returned from their wedding trip and are now at home to friends in Britton.

Mrs. McElroy, formerly Mary Esther Houseman, daughter of Mrs. David Houseman and the late Mr. Houseman, and Mr. McElroy, son of Mr. and Mrs. Royal McElroy, all of Britton, were married Wednesday evening, October 2, in the Britton Christian Congregational church. The double ring service was read by the Rev. Gerald Hallauer before an altar banked with palms, white gladoli and candelabra.

Before the ceremony, Mrs. Belva Welchner, accompanied by Mrs. Doris Exelby, sang "Always," and "The Lord's Prayer."

The bride, given in marriage by her brother, John, was charming in her gown of ivory slipper satin made with a marquisette yoke above a hertha of satin. The fitted bodice buttoned down the back with tiny covered buttons, and the skirt exended into a long train. A coronet of seed pearls with a rhinestone cross, held the double finger-tip veil of net. She carried a colonial bouquet of white gladioli and gardenias from which fell satin streamers.

The matron-of-honor, Mrs. John Houseman, sister-in-law of the bride, wore a gown of blue nylon taffeta, and her colonial bouquet was of rust glads with a headdress to match. The bridesmaids, Miss Arcelia McElroy, sister of the groom, and Miss Isabel Koski of Ozark, Mich., wore gowns of peach and aqua, and each carried bouquets of peach glads with headdress to match. Neil Benedict, dressed in white, carried the rings on a white satin pillow.

For her daughter's wedding, Mrs Houseman chose a black and aqua dress with silver nailhead trim, with black accessories. Mrs. McElroy wore black with sequin trim with black accessories. Each mother wore corsages of pink snapdragons.

After the ceremony a reception for 100 guests was held at the bride's home. A 3-tiered wdding cake, topped with a miniature bride and groom, centered the serving table. Mrs. Roy Richards presided at the coffee urn, while Mrs. Charles Benedict cut the cake. Others assisting were Mrs. Richard Bruce, Mrs. Gerald Benedict, Mrs. Walter Millyard and Mrs. Lilly Millyard.

Shortages Slow Flow of Power

Because of shortages of construction materials, the wartime backlog of unfilled applications for electric service is still continuing to grow, according to H. H. Koelbel, Jackson division manager of Consumers Power Company.

The Company has more than 20,000 unfilled applications for service on file, of which about 1,600 are Jackson division applications. The Jackson division embraces Jackson, Lenawee and Hillsdale counties and portions of Ingham, Livingston, Washtenaw, Branch and Monroe counties.

"In Jackson and the other cities we are keeping up fairly well," said Mr. Koelbel. "The most serious tie-up is in the rural areas, where the connecting of new customers usually requires substantial quantities of wire, poles and other materials. About 1,000 of our unfilled Jackson division orders are from the rural areas.

"Many farmers and other rural people have been waiting for electric service all through the war and ever since the war ended. During the war, government restrictions prevented us from extending our lines as we normally would have done. This caused a big backlog of orders to pile up. We were highly conscious of this backlog and we planned to clean it up quickly after the war ended.

"Shortages of material have kept us from gaining ground. In fact, new applications have been coming in faster than we could take care of the old ones. Unless the materials situation changes, we will continue to lose ground in spite of anything we can do.

"We have plenty of electricity, but in order to get it to our customers we need wire, poles, transformers and insulators. We anticipated our needs and ordered well in advance, but instead of a flood of materials we have received only a trickle. If poles were available, wire was not. Or if we had both poles and wire, we lacked transformers or something else."

Mr. Koelbel traced the shortages of materials to the steel, copper, coal and lumber strikes and to a series of strikes in the plants of copper processing companies and other materials manufacturers.

"We know that a great many of the people who have applied for service need it very badly," he said. "It is hard to ask them to wait, but we have no choice. For the most part, applicants for service have been understanding and patient. We appreciate their attitude, and it makes us more eager than ever to supply them with service at the earliest possible moment.

There's Danger in Under-Insurance of Both Real and Personal Property
Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

NINETY-SIXTH YEAR—NUMBER FORTY-EIGHT | TECUMSEH, MICHIGAN, THURSDAY, OCTOBER 24, 1946 | FIVE CENTS PER COPY

CONG. PAUL SHAFER SAYS—

Remedies, not Disease Cause U. S. Ailments

Confusion is what is wrong with the United States; confusion that is centralized, like most everything else, in Washington, and about which something must be done if America is to be restored to a healthy, prosperous nation, Paul W. Shafer, congressman from the Third District of Michigan and publisher of The Bronson Journal told members of the Rotary Club, Tuesday evening, when he spoke to that group, following dinner at Brees House. Congressman Shafer was the guest of Earl L. Wickwire.

"There is a nursery rhyme about the old woman who lived in a shoe. Her troubles were small as compared with Uncle Sam who has 140 million children. He doesn't know what to do, either. And the reason is the same. He has tried to 'mother' too large a brood," Mr. Shafer declared.

"The confusion in Washington is not accidental, and it is not temporary. It is going to stay unless we do something about it. The federal government is undertaking to do too many things. It has assumed jurisdiction and responsibility for individual, corporate and state problems. It tells you how to live your life and how to run your business.

"Washington for many years has been like the hysterical mother who sees pneumonia in every case of sniffles. Today, the country is suffering from a complication of remedies rather than diseases."

Organically, Mr. Shafer believes, the nation is sound, having an abundance of everything and a pet-up demand for production and finished goods.

"Yet in the midst of this potential prosperity this great nation has worked itself up to a critical case of poverty," he said. "No longer is just-one third of the nation ill-housed, ill-clothed and ill-fed. Now, thanks to the confusion in Washington, most of us are in that condition. Not because we cannot buy, but in spite of our miraculous productive capacity there is nothing to buy. Truly, our problem is mental, not physical.

"Psychiatrists seek to solve a mental ill by probing the past of the patient. So, perhaps, we, as a nation, can find the thread that will lead us to the national sanity we once enjoyed."

Pointing out that there was a time when men believed in their duty to stand on their own feet, make their own decisions and run their own business, Shafer said he believes these things could be done again today to better advantage than leaving them to government clerks. There are now 2,946,947 civilian employees in the executive branch of government, he said, and the figure is increasing at the rate of 27,000 monthly since January 1.

"This should concern every one of you, not because this top-heavy centralization is costly and inefficient, but because more and more it is reaching for power and undermining local government." The highly-advanced federal bureaucracy shares at least one viewpoint with the totalitarian governments, he declared, and that is a "profound contempt for the individual's ability to take care of himself."

"We have ceased to be citizens and have become wards...This is not a political issue; it is a fundamental problem. Even those who have carried bureaucratic centralization to new and astronomical heights are beginning to worry about the Frankenstein they have created," the lawmaker said.

Local governments must refrain from asking for federal aid and grants from Congress if we are to solve the debt crisis, the speaker declared. The nation must return to the principles of thrift and self-reliance. It is because cities and states have failed to do their duty to their citizens that the federal government has moved in.

"It is easy to blame the bureaucrats. . . and Congress," he said, "but again, who is to blame? Congress obeys the popular will. If a constituent wants a free ride, the congressman whistles for the taxi."

Shafer thinks that people should demand that their own state officers stop passing the buck to Washington, and that local units of government operate and finance their own business. It is the way to end the confusion, to get the nation out of debt. It is wasteful folly to handle local problems on a national scale; federal money is not free, "it comes from your own pockets and earnings."

Washington's approach today is that of an all-wise adult dealing with a child in local problems, the speaker thinks. "I believe most of you will agree that a local problem can best be solved by local government, a state problem by a state alive to its responsibilities. There are, of course, broad national questions which require the machinery of the nation as a whole, but you do not shoot sparrows with a howitzer or hunt rabbits with a Sherman tank."

Shafer believes that it is time for the nation to stand on its own feet, individually, to refuse federal hand-outs and to "buck the trend" if we are not to become a nation of faceless people.

"It will be hard to turn from wonderful nonsense and alluring theories to good American common sense, but it is the only way that I see to end the confusion that besets us; to check the creeping paralysis of beauracracy and bring order out of chaos. You must refuse to support any proposal that will call for federal contributions. You must demand an end to deficit spending. You must demand a balanced budget. You will do this if you want Michigan a truly sovereign state, and the nation orderly, strong and prosperous. It is up to you."

Hon. Paul W. Shafer

Girl Scout Week To Be Observed By Brownies

In observance of Girl Scout Week, the local Brownie Scouts will attend services in a body at the Presbyterian church, Sunday morning.

At a meeting of the group held Monday evening in the library basement Miss Irma Herman of Milan spoke on "The Intermediate Child." Study meetings are being conducted by Mrs. Velmt Townley of Milan, area counsellor.

The second grade group, sponsored by the Child Study Club, is divided into two groups with Mrs. Jack Haynes and Mrs. Wm. Kerentoff as leaders. Group 1 meets Wednesday and Group 2 on Thursday afternoons.

At a meeting held at the home of Mrs. Walter Pfaus last week an All-County Leader's Club was formed with Mrs. Wm. Goulding of Adrian, president; Mrs. Walter Pfaus, vice president; Mrs. Ralph Bulla of Deerfield, secretary and treasurer; Mrs. James Nelson of Onstde, publicity. A group of 21 leaders and two guests, Miss Herman and Mrs. Townley were present. Meetings will be held monthly.

COMMUNITY CHEST IN TECUMSEH TO SEEK $3,500 FOR YEAR'S OPERATION

Plans have been completed and committees named for the Tecumseh Community Fund Drive which will be launched on Monday. The goal this year is $3,500, slightly less than was raised a year ago, and all of the money subscribed will be retained in Tecumseh for local benefits.

Ellsworth A. Collins is general chairman of the money-raising campaign and today he announced these committees directly responsible for the collection:

Northwest section: Miss Vera Gilbert, chairman, Mrs. Doris Tonneberger and Mrs. Marion Spafford; southeast section: Mrs. Russell Thurlby, chairman, Mrs. Eleanor Tressler and Mrs. Ralph Atchison; northwest section: Mrs. Geo. Rathbun, chairman, Mrs. Frank Smith and Mrs. Edith Cotton Smith; southwest section: Mrs. Neville Hart, chairman, Mrs. Yale Kerby and Mrs. Ray W. Herrick; Brownville, north of Evans Creek: Mrs. Hal Lewis, chairman ,Mrs. Marie Carlson and Mrs. C. C. Ruppelle; business district: east of Evans, north side: Mrs. Marvin Watkins, south side, Miss Sally Heilman, west of Evans street, north side, Mrs. Helen Oliver, south side, Mrs. Charles Howe; industries: Meyers Aircraft, Bruce Hoffman; Tecumseh Products Co., Howard Dietrich; Bruce Foundry, Geo. Mc Comb; Quaker Oats Co., Donald Nixon; Philco, Howard Wick; Hayden Flour Mills, Wm. Beardsley.

Mr. Collins has called a meeting of all workers to meet at the Library this evening at 8:15.

As of September 26, the local Community Fund had on hand in cash $3,922.14, having spent last year $1,847.92. Of this amount, $217 went to the Lenawee Patriotic League as a part of the League's campaign expense and $770 as Tecumseh's share of the county League budget. To the Boy Scouts went $300; to the Recreation Committee for summer playground activities, $100, as part of the Halloween party expense, $49.32, to the Child Study Club, $75, to the P.-T. A. $50, to the Scouts' secretary, $25 and to the Girl Scouts, $100. Other expenses to make up the total included secretarial and printing services and donations to needy persons.

This year's budget calls for the gift of $300 to the Boy Scouts, $100 to the Girl Scouts, $150 to the Child Study Club, $100 for playground activities, $100 for the Hallowe'en celebration, and $2,750 for welfare and emergency relief.

The directors of the fund believe that now is the time to get together funds for welfare and emergency work for a future need, rather than to wait until the actual need arrives and be without funds when money is difficult to obtain. It was pointed out that the money is administered locally, that funds will not be expended unless necessary, and that every effort will be made to build up a reserve for future need.

The solicitors will begin their work next week, and Mr. Collins hopes that the campaign can be brought to a speedy conclusion. This year, as in other cities throughout the state, the "Red Feather" will be the symbol of giving.

Monday Club Hears of County Health Unit

Tecumseh Monday Club met Monday afternoon at the home of Mrs. Vera Connor. Mrs. P. M. Hayden, presided and Miss Ethelyn Garlinghouse was leader of the program which consisted of a talk by Dr. J. W. Huntley on the County Health Unit; a talk on "Palestine" by Miss Garlinghouse; a talk on a trip to Toledo Art Museum by Mrs. C. C. Ruppell.

Rotary-sponsored Hallowe'en Party, October 31

Another Rotary-sponsored civic Halloween party in Tecumseh, this time even more elaborate than in previous years, has been announced for next Thursday evening, October 31, by Wade L. Jones, president of the club.

In 1946 program calls for a complete theatre party at the Strand for the youngsters, preceded by a parade of the ghosts and goblins through the business district, and prizes of candy and theatre tickets for a dozen winners.

The Rotary plans call for the formation of the parade of masked and costumed youngsters at Ottawa and Chicago boulevard, at 7 p.m., on Halloween. Headed by the high school band, they will march through the business district, past the judges stand, to the theatre. All prizes will be awarded on the theatre stage.

In the prize group will be three classes: boys and girls under the age of eight years; boys and girls between the age of eight and 12 years, and boys and girls over 12 years of age. In all divisions, prizes will be awarded to the funniest dressed boy and girl, and the boy and girl wearing the most original costumes. To the winners under the age of eight years will go boxes of candy. To each winner in the other groups, the prizes will be six complimentary tickets to the Strand, to be used at the winners pleasure.

"This year," Mr. Jones said, "the Rotarians have decided to take over the Strand for Halloween, and in that way the children will not be 'annoyed' by adults. The pictures to be shown are the best obtainable, there will be a full-length feature, comedies and a community sing. The show will be out between 10 and 11 o'clock.

"This Rotary-sponsored show is for all school-age children in Tecumseh, from elementary grades through the high school. No tickets will be necessary, the party is entirely free, everything is being arranged by the Rotarians."

Mr. Jones pointed out that again this year as in the past, Rotary has decided to stage the party for the youngsters in an effort to reduce vandalism to a minimum in the village.

"The children are to be complimented," Mr. Jones said, "for their excellent cooperation in other years. The Rotary club has asked that windows not be soaped, that property not be destroyed, and that all forms of vandalism be abolished. In years gone by we have had complete cooperation, and I believe that we will get it again this year. The older folk feel that they would rather spend their money on a party than on cleaning up after Halloween.

"Therefore, Rotary again this year asks for the youngsters cooperation in this civic party.

Indians Travel to Mich. Center

SQUAD HOPEFUL FOLLOWING MONROE DEFEAT; RUNK IN HOSPITAL

By Jim Sisson

After dropping its second grid contest of the season to Monroe Catholic Central there, last Friday night, the Tecumseh high school Indians were hopeful of victory today as they prepared for a final practice session before traveling to Michigan Center tomorrow for another non-league game, their fourth and last of the season. The kick-off will be at 2:30.

The Center outfit promises to be a tough and heavy adversary and it is not altogether unlikely that Tecumseh will return on the small end of the score. The Indians are a bit gloomy over the fact that their coach, Myles Runk, is in a Grand Haven hospital, suffering from what may be rheumatic fever. In his absence the boys are being put through practice sessions by James McDowell, high school principal.

In the Monroe game, the Indians attempted the "sleeper" play which proved so effective at Clinton a week ago but a balk in the action made it ineffective. The Warriors never came closer than the Central's 30-yard stripe. The Catholic boys scored in the second period, again in the third and in the fourth. The final score was 19 to 0. Tecumseh's first string team remained on the sidelines for most of the game, the second-stringers handling the situation more efficiently.

Tecumseh's second team has lost only once this year, to the Milan B's. They scored victories over Dundee, Hudson and Blissfield.

Average Cow Nets Farmer $15 a Year, Bureau Told

Tecumseh Farm Bureau held its October meeting at the home of Mr. and Mrs. Carl Williams, with members of the Tipton Farm Bureau as guests. The groups discussed various topics of interest to the community, including the abandoment of the OPA and the proposed health unit in this area, whether it should be enlarged and if state aid should be sought. The group though it would be wiser to wait the results of the November election. If the sales tax bill is defeated, more state appropriations should be asked for. If the sales tax bill passes, local governments should be asked to enlarge the unit. It was estimated that it costs $1 per capita to operate a health unit.

Dale McAlvey of Detroit, director of field services for Michigan Producers Dairy Association, was then introduced by James Feight and spoke to the group about the association. He stated that there was less chance of re-control over milk by OPA. Milk is the cheapest food on the market and November and December are the lowest milk production months of the year. The average return per cow for one year is $15. He also advised that if farmers would spend more money for advertising they would receive more returns. The present advertising percentage is less than 1-10 of 1 percent. Mr. McAlvey was accompanied by Mr. Baker, a field man who assisted him in helping members with their problems concerning the Association.

The next meeting will be held November 11 at the home of Mr. and Mrs. Wallace Bryan.

LET'S KEEP FREEDOM

"Christianity is not a static, weak, timid thing in its philosophy," writes Paul Mallon. "It prods ingenuity, encourages use of talents, proposes advancement, recognized the natural differences between men, and proposes reward for effort. . . It will work because it will produce. . . .

"What they (Christians) need to do is to make Christianity work—in all reason and common sense, using the utmost of their abilities to attain the utmost measure of truth, to employ their own abilities according to their talents, to promote justice in accord with Christian principles. That also happens to be good democratic doctrine. The Constitution never guaranteed happiness — only the right to pursue it."

The underlying tenent of Christianity is the importance of the individual. And the importance of the individual is also the underlying tenent of our political, social and economic system. It is not an accident that the free church exists only where all other freedom are guaranteed and maintained. It is, instead, inevitable. Freedom is an absolute—it cannot be preserved in one facet of a nation's life and denied in another.

Nor is it accidental that the utmost material progress has been made in lands where spiritual and economic freedom exists. We cannot, for example, draw a line between the free church and the free business. Both stem directly from the identical principle. Both are part of the great ideal which says, in effect, that individual man has rights which must never be abrogated.

Individual enterprise, in any field, blooms only in the air of freedom. To preserve that air is the problem confronting a chaotic world.

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere —with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer — than to hold out for professional perfection. (Besides, I *like* to play the fiddle—even badly!)

Worries about expensive heating problems are at an end, once your house is insulated. Records show, time after time, savings up to 30 per cent in fuel costs where insulation has been installed.

Ask someone right here in Tecumseh how much they save through insulation. They'll tell you, honestly, candidly.

There's still time to insulate your house this fall and begin immediately to "save in comfort"—the cost of insulating the average house is very small—in fact the figures will surprise you.

Great new motor oil by Standard
Permalube Removes the "goo" Improves the go!

You get premium-plus lubrication

Here's why there's more *go* to your car when the "goo" is gone. There are no gooey deposits of soot, varnish, carbon, and sludge. There's nothing to interfere with valve and ring action and smooth, powerful piston strokes. You get a sweeter-running engine . . . a better-lubricated, longer-lasting engine.

Standard's great new motor oil, Permalube, gives you this premium-plus lubrication. It not only thoroughly lubricates. It cleans your engine and keeps it clean.

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

"I never saw oil drain out so dirty!" "Good! That shows Permalube's been taking out the 'goo'!"

When you wash your hands, the basin water gets dirty. But your hands get *clean!* Same way when you use Permalube Motor Oil. The *oil* gets *dirty.* But the *engine* gets *clean.* The dirt is carried *out* of the engine when you *drain* out the oil.

Nov. 5 Election Big Time Affair

THIRD-OF-A-BILLION DOLLARS IS INVOLVED IN THREE AMENDMENTS

The man or woman who casts his or her ballot in next Tuesday's general election will be traveling in fast company. Truly, it's a big time affair, because it involves a cool one-third of a billion dollars.

First, there is a referendum on whether the State of Michigan should spend $270,000,000 to pay a bonus to each Michigan veteran of World War II. (Amendment No. 3). This amount would be in addition to the present $50,000,000 state fund already reserved for veterans' care.

Second, the votes will decide the fate of a proposed constitutional ear-marking of 76 per cent of the state's golden sales tax revenue for return to the public schools and other units of government—cities, villages and townships. This amendment would add approximately $64,000,000 to the coffers of local governments over what they received in 1946. (Amendment No. 2).

So, add up the two amounts and the figure is $334,000,000, or a third of a billion dollars.

In addition, there is Amendment No. 4, which would permit public expenditures of public airports.

All of these amendments are in addition to the regular ballots which will be presented to voters next Tuesday. On the national ticket, a United States senator will be named, a congressman from this district, state officers, including a governor and his official family, and all county officers.

In some sections of the county voters will decide on the liquor-by-the-glass issue.

So, all in all, it will be a big-time election. Both political and purse-strings are at stake.

THE RED FEATHER IS THE SYMBOL OF GIVING!

Community Fund Launches $3,500 Drive

Is there a red feather in your hat?

If there isn't, you should be looking up a solicitor for the Tecumseh Community Fund and make your contribution. The Community Fund is the organization to which you "give once for all."

Tecumseh's Community Fund campaign got under way on Monday under the direction of Ellsworth A. Collins as general chairman, and a score of other workers in all parts of the village. The quota is $3,500, slightly less than was subscribed a year ago, and Mr. Collins hopes that this village will reach its goal before the final deadline, November 13.

"Of course it is too early to give out any figures on the solicitation," Mr. Collins said, "but I will say that residents are being generous, and that some contributions have been larger than a year ago. Folk realize that the Community Fund represents a combined effort on the part of the many local organizations, and they appreciate having to give only once for all of these projects."

The chairman has named committees to solicit funds in all sections of Tecumseh, and special committees are in charge of solicitations in the industrial and business areas.

Participating in the Fund receipts this year are the Boy Scouts, the Girl Scouts, the Child Study Club, the Tecumseh Recreation Center for summer playground activities, the civic Hallowe'en party, and a large amount for general welfare and health work.

Solicitors started canvassing the downtown section of the village on Monday and red feathers, the symbol of giving, were the style in most of the hats that make a regular appearance in the business district, yesterday and today.

"There's no shortage of feathers," one solicitor said, "so let's all give generously."

Governor

Joseph V. Brady

Joseph V. Brady of Howell, governor of the 153rd district of Rotary International, of which Tecumseh Rotary is a member, will pay his official visit to the local club next Tuesday evening, November 5. Previous to the dinner session, Mr. Brady will meet with Wade L. Jones, president, the board of directors and committee chairmen in Mr. Jones' office.

At this week's meeting of Rotary, at Brees House, the club voted to sponsor the Boy Scout movement in Tecumseh for another year. Arthur Lessow and Al Jones, president and executive secretary of Wolverine Council, both of Monroe, were present at the meeting and spoke.

Air Mail Rates Slashed by P.O.

NATION OBSERVES "AIR MAIL WEEK" AS NEW LOWER PRICES GO INTO EFFECT

In observance of National Air Mail Week, October 27 to November 2, the Postoffice Department has announced drastic reductions in rates in an effort to step up the volume of air mail. Some reductions were as much as 50 per cent.

New rates now in effect for domestic air mail reduces the price from eight to five cents an ounce. All military mail to any point in the world may now be sent for five cents for each ounce as compared to six cents for one-half ounce heretofore. The five-cent rate also applies to all air mail to any of the U. S. possessions, Alaska, Hawaii and Puerto Rico, as well as to Canada and Mexico.

Effective November 1, rates on air mail to China, Australia, New Zeland, Eastern Africa, Iran, Iraq, Madagasear, Manchuria and the Figi Islands will be reduced from 70 cents to 25 cents for each half ounce. To Great Britain and to all European countries the rate drops from 30 cents to 15 cents for each half ounce.

Parcel post now may be sent by air mail and packages weighing up to 70 pounds will be accepted. The rate is five cents an ounce and packages may be insured, registered or sent C.O.D.

"Air transports now have ample space to carry unlimited amounts of mail," P. A. Bowen, local postmaster, said. "As much weight as is now carried in passengers will be available. The air mail will be first consideration, passengers secondary. Already special bus runs and helicopters are acting as feeders for the larger airports, and soon, it is believed, the nation's volume of air mail will be greatly increased."

MONDAY CLUB TO VISIT TOLEDO ART MUSEUM

Members of Tecumseh Monday Club, for their regular meeting November 4, will enjoy a trip to the Toledo Art Museum. Mrs. C. C. Ruppell is leader and Mrs. Hoyt Whelan, Mrs. Fay VanValkenburg and Mrs. Earl Wickwire are in charge of transportation. Members are to meet at the museum at 2 o'clock for a conducted tour.

GHOSTS WILL WALK THIS EVENING!

Rotary-Sponsored Spooks Party Will Be Staged Here, Tonight

Tonight, the ghosts walk!

And, according to reports from the several schools, Tecumseh's youngsters are in receptive mood for the annual Rotary Club-sponsored civic Hallowe'en party, to be staged this evening at the Strand Theatre. It is expected that nearly 800 boys and girls will be guests, a vast majority of them in costume.

"We're doing it a bit different this year," Wade L. Jones, Rotary's president, said. "We have taken over the Strand for the evening, just for the children. The show will be one that every youngster will enjoy. It will last 'till about 10:45. There will be no adults crowding in, and the feature picture is brand new."

The Rotary party will get under way at 7 p.m., when the parade forms at Chicago boulevard and Ottawa street. Youngsters in costume or otherwise are asked to join in this part of the funmaking. The parade will march through the business district, past a judging stand, and then to the theatre.

The high school band will furnish music.

In the theatre, prizes will be awarded in three groups as follows: boys and girls under the age of eight boys and girls between the ages of eight and 12, and boys and girls over the age of 12. To the younger age group, boxes of candy will be given and to the others six complimentary tickets to the Strand, to be used at some future date. Costumes will be judged as the funniest and the most original.

"I would like to again call the youngsters' attention to the fact that Rotary is sponsoring his party to reduce vandalism in Tecumseh to the minimum," Mr. Jones said. "In previous years, we have had complete cooperation, and I believe that we will get it again this year. The business men feel, as do residents generally, that the party is very much worth while, and the only request that is made that pranksters refrain from soaping windows and doing other destructive things."

Mrs. George Hoag Dies; Is Buried In Brookside

Mrs. George Hoag, aged 70 years, died Thursday afternoon at Tecumseh hospital after a long illness. Mrs. Hoag was formerly Katherine Hamblin and was born November 20, 1875, at Fair Haven, Mich. She was the daughter of Orin and Margaret Hamblin. On December 19, 1896 she was married to Mr. Hoag. Nine children were born to this union, three of whom preceded their mother in death. Mr. and Mrs. Hoag would have observed their 50th wedding anniversary in December.

Besides her husband she leaves five children, Mrs. Leonard Kempf of Tipton, Mrs. Harold Brown of Jackson, Mrs. Lowell Monagin of Saline, Mrs. Robert Wood of Adrian and Mrs. Millard Silvens of Munith; one son Clifford of Chicago; one brother Charles Hamblin of Jackson; 21 grandchildren and nine great grandchildren.

Funeral services were held Monday afternoon at the Green Funeral Home. Rev. Alvin Brazee officiated and burial was in Brookside cemetery. Bearers were Leland Randall, A. B. Harding, B. B. Moon, J. F. Elliott, Harold Hornby and Verne Miller. Relatives and friends from Saline, Munith, Adrian, Chicago, Jackson, Detroit and Tipton attended the services.

Robert Ries Recovering From Accident Injuries

Robert Ries was brought home Sunday from Traverse City hospital where he had been a patient since October 20 when he was injured in an automobile accident. He suffered a broken bone in one of his legs, three fractured ribs and several stitches were necessary to close a bad cut over one eye. Mrs. Ries and children were bruised and Mrs. Ries suffered a black eye, but nothing serious.

The accident happened as they were returning from a visit in Bellaire when another car drove off a side road. The Ries car was demolished.

TO WED IN LANSING

Invitations are out for the wedding of Miss Barbara Tobias, daughter of Mr. and Mrs. Ray E. Tobias of Lansing, to Ronald Verne Kyser of Brooklyn, to take place Saturday, November 2 at 4:30 at the Central Methodist church in Lansing.

Mrs. Tobias was formerly Gertrude Kriedler of Tecumseh and a sister of Mrs. R. S. Bumpus.

Hear William R. Kelley, veteran candidate for Congress, speaking over WPAG (1050 on your dial) at 1:15 p. m. on Sunday, November 3.—adv.

Indians Racing For Grid Honor

TO MEET MORENCI HERE FRIDAY NIGHT; WHIP MICHIGAN CENTER, 13-7

By Jim Sisson

Morenci, one of the two teams that stand in Tecumseh's path for the Lenawee county grid championship, will meet the Indians at Recreation Center tomorrow evening at 8 o'clock. The Bulldogs, though they have not won a game this season, would give no small amount to tip over Tecumseh's applecart during the contest. Should the Indians defeat Morenci, and win from Blissfield one week from Friday, they would be LCAA champs. The loss of either game would tie them for the title. It would be Tecumseh's fourth title in five years.

Tecumseh took the elevator out of their recent slump last Friday in Michigan Center and defeated the eleven there by a score of 13 to 7. Jas. McDowell, high school principal, managed the squad, Coach Miles Runk being absent because of illness. However, Runk is back on the job.

The Warriors played on fairly even terms with the Center during the first period and in the second quarter Tom Corkery made several nice end sweeps and then Jim Sisson flipped a 20-yard pass to Bill Hayden who scampered 10 yards for the tally. Don Aebersold failed on the plunge.

In the third quarter the Braves held the Center line back with Bob Dinse doing an outstanding job. In the final stanza the Michigan lads made seven points, and then Tecumseh pulled its sleeper play, Harold Anderson to Hayden, for another touchdown. Sisson made good the extra point. It was Tecumseh's first triumph over the Center since the teams have been meeting.

CULBERTSON P. T. A. TO MEET ON FRIDAY

The Culbertson P. T. A. will meet Friday evening, November 1 at the home of Mr. and Mrs. Ellsworth Robison, with Mr. and Mrs. Winton Murphy assisting in entertaining.

Mrs. John Brooks is leader of the program which will be followed by a box social and auction of boxes.

AUXILIARY TO MEET

The American Legion Auxiliary will meet Monday evening, November 4 at the Legion hall. Mrs. E. J. Aebersold is chairman of the meeting. Thirteen members of the Legion and Auxiliary attended the Second District meeting in Jackson, Sunday, and Mrs. C. W. Howe installed the district officers.

School Health Program Set Up

COUNTY HEALTH UNIT TO CO-OPERATE IN "SCREENING" PROCESS IN TECUMSEH

In a meeting in the public schools here Thursday afternoon, initial steps were taken for setting up a permanent health program to operate each year through the cooperation of the Lenawee County Health Unit throughout all grades of the Tecumseh elementary schools.

In a conference with Dr. H. C. Huntley and other members of the staff of the Lenawee County Health Unit, it was decided that the initial inspection and screening would be carried on by the teachers with the assistance of the local Health Education Committee. A nurses inspection of cases screened out by the teacher's inspection will follow. A medical conference between the child, the parents, the teacher and the county health doctor will be the final step in determining corrective measures to be taken. In the cases of children whose parents are financially unable to provide the necessary medical and dental services, it is hoped that community funds may be provided to assist the parents in providing these corrective measures for the children.

During the course of the meeting, Miss Heist and Dr. Huntley of the Health Unit instructed the teachers in techniques to be used in observing health conditions of children in the classroom. Such observation will be a continuous process with conditions observed recorded for referral to the county health nurse and doctor at appointed times during the year.

Miss Yolande Baldwin Weds Arthur J. Williams

Mr. nad Mrs. Ned Baldwin are announcing the marriage of their daughter, Yolande Marie, to Arthur J. Williams, son of Mr. and Mrs. W. H. Williams of Carey, O. The ceremony took place on Friday, Octobebr 25, in Angola, Ind., the Rev. Harold Findley of the Congregational church, officiating. They were unattended.

The bride chose a suit of lightning blue with black accessories for her wedding and wore a corsage of white gardenias.

Mrs. Williams is a graduate of Tecumseh high school and spent two years at Seina Heights College, Adrian. Mr. Williams is a graduate of the Indiana School of Technology at Ft. Wayne, and is an engineer. He served for two years in the Army, 19 months in the Pacific area.

DON'T FAIL TO VOTE

Next Tuesday, November 5, voters of Lenawee county and the State of Michigan will go to the polls in the first peace-time election in four years. At this general election a United States Senator will be chosen as well as members of Congress, a governor and his official family will be named, and scores of lesser offices will be filled. Also, three important amendments to the Michigan constitution will be decided upon—amendments that affect the purse strings of every resident of the state, whether they are property owners or not.

While hundreds of potential voters will be unable to cast their ballots throughout Michigan because they failed to register, in Lenawee county it seems that the vote will be a little better than normal, this due, perhaps, to the fact that in several communities electors will decide on the liquor-by-the-glass issue. In the three communities to vote on the issue thus far—Tecumseh, Deerfield and Clinton—it has been defeated. In each instance the vote was comparatively heavy.

It is the duty of every American citizen to vote on election day. It is doubly necessary that each citizen vote this year because of the importance of the three amendments to the constitution. The proposed amendment No. 2, if carried, will, in all probability, necessitate a thorough overhauling of the tax structure of the state.

So, regardless of your political faith, your like and your dislikes, do your duty as an American citizen next Tuesday and vote. Express yourself on all of the issues. It is your right as a citizen—a right that must be protected if it is to endure.

Friendship—Three Thousand Miles Apart

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess—between Dad Hoskins, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together—Dad puzzling over Dalton's latest letter, while he sends a chart of his next move to England.

Dad always thinks best with a mellow glass of beer beside his chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things—like a game of chess or a glass of beer—that can make for tolerance and understanding . . . between people of all nations . . . between neighbors here at home!

You Can Figure Fuel Savings Without Work or Worry If You'll Insulate Your Home!

Some folk worry considerably about the size of their heating bills; they worry because their house is not always comfortably warm; they worry about the family health.

You can eliminate all of these worries, definitely, if you'll insulate your home NOW.

The cost of heating can be reduced as much as one-third through insulation. Every room in the house can be a comfortable room. The family health—from dangers of drafts, etc., can be improved.

Yes, it's true. Your fuel dealer will pay your cost of insulation over, perhaps, a three to five year period. Isn't that something to consider?

Don't take our word about savings effected through insulation. Ask the family that lives in an insulated house. They'll tell you, frankly and honestly, about fuel savings, about the comforts.

Democracy Marches On

Delegates from local units representing the more than 15,000 members of the Michigan Milk Producers Association convene at Lansing on November 7 for their 30th annual meeting.

In the traditional manner of a democracy, these Delegates were elected by the general membership and speak the majority voice of all Association members on matters of major policy and administration.

Because these Delegates represent a large and important segment of all residents of this area, it follows that what is good for MMPA members likewise reacts to the public good.

The inter-dependence of dairy farmer and general public has been recognized by MMPA from its inception 30 years ago.

It has prompted Delegates to foster new scientific safeguards for public health protection;

It has led Delegates to sponsor production methods for increasing the quantity and quality of milk to meet increasing public demands for nature's best food at its very best;

It has enabled Delegates to set up administrative procedures for cooperative marketing and mutual aid which cost less than one per cent of gross sales—far less than administrative costs of the American Red Cross, Community Fund and similar activities;

It has resisted taking temporary advantage of abnormal conditions to obtain "quick money" at the expense of sound long-range planning;

It adopted more than a decade ago the base-and-excess plan which authorities on milk marketing have called the best year-in, year-out program ever devised for the advantage and protection of both milk consumer and milk producer.

Out of this background of successful operation, Delegates on November 7 will lay broad plans for sound future growth.

And action of the Delegates, you may be sure, will adhere to those basic principles of Democracy on which MMPA has operated for more than three decades—Awareness that what is good for the milk producer must be likewise good for the milk consumer.

City Folk Buy Most of Farms

MORE THAN HALF OF RURAL SALES ARE MADE TO PEOPLE FROM URBAN AREAS

The number of transfers of farms in Michigan in the last three years has been about double the normal turnover according to Karl T. Wright, farm management specialist at Michigan State College. A survey, being conducted by this department with the U. S. Department of agriculture, also reveals that about half of the buyers of Michigan farm land are city persons.

Wright believes this is a higher percentage than in other states. He believes that many persons, living in our industrial cities, were raised on farms and have a "yen" to own a farm.

"There are two types of buyers of this group. One is the factory worker who went through the last depresion in the city. He thinks a small place in the country would provide him greater security in the event of another depression. The other city buyer is one of the wealthier class who wants a farm as a hobby. His income dpring the war years has been high, and even if he loses money operating the farm, the reduction in his income tax will equal the loss," Wright explains.

The other half of the buyers, Wright says, are either farm owners or tenants purchasing farm land. Most of these are owners who areb uying additional land to have a larger and more efficient farming unit. The smallest group is that of tenants becoming established as owners.

Michigan land prices remain above the U. S. average and the March 1946 figures were 13 points above the peak, Wright pointed out. Before the price break in 1929, Michigan land prices stood lower than the United States average, Wright's figures reveal.

How to Store Potatoes
Since light causes potatoes to turn greenish and taste bitter, they should be covered with cloth or paper or stored in a dark place—preferably where the temperature is about 40° Below that, there is danger of freezing. Be careful not to bruise, as bruises open the way for decay.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

A Big Vote of Confidence for Senator Vandenberg

We believe that the re-election of Senator Vandenberg presents a challenge to the people of Michigan. The Senator has taken the voice of our State into the highest councils of domestic affairs and into the peace deliberations of the world. He has given our State a prominence and an influence in world events that is unequalled in our history. His re-election becomes a matter of State pride.

We are proud of Arthur H. Vandenberg. We are proud that he comes from Michigan. He should be re-elected to the U. S. Senate with an extra **big vote of confidence.**

And remember this — no matter how heavy his responsibilities around the world, he has never failed you and our home State when Michigan interests have been at stake in Washington.

Let's get out and vote on Nov. 5. Let's tell the world that we support our Senior Senator from Michigan.

This message is published in behalf of 100,000 citizens from all 83 Counties of Michigan who placed Senator Vandenberg in nomination in June.

Re-elect SENATOR VANDENBERG

Auto Turnover High in County

AVERAGE CAR HAS BEEN SOLD FOUR TIMES IN YEAR, RECORDS SHOW

The average automobile in Lenawee county has been sold four times within the past year, according to the records at the branch office of the secretary of state in Adrian. Many times a car is sold twice before the title is received by the owner, which is a violation of the law.

"If an accident should happen in which the car to which the owner holds no title is involved, the original title holder (the man who owned the car first) would be held responsible," a spokesman for the secretary's office said. "People selling cars should be sure to sign the title transfer before a notary public, and, too, they should be sure that the name of the person to whom the car is sold appears on the title. Too, they should see to it that the transfer is made through a branch office of the secretary of state within 10 days of the sale, unless the car is sold to a licensed automobile dealer."

The secretary's office also warned that house trailers must have titles before plates can be issued or before the trailer can be sold. This law was passed in 1945 and became effective last September. House trailer owners who do not have titles should report to the secretary's office in Adrian and make application for them. This requires about 30 minutes time, and the work cannot be done when the license plate rush is on, the office warned.

Motorists operating cars on half-year plates now may purchase full year licenses, although the half-year tags do not expire until August 31. It is not necessary to bring the old plates to the office to make the purchase. Motorists buying truck or trailer licenses must bring in their old registration stubs or a weight card.

Children are still children. . . they put all of their thought into the games they play, they do not know fear as does the adult.

It is the motorists responsibility, then, to drive carefully, always, but should a child dart out, unexpectedly, suffer serious injury, would your insurance protect you?

Don't neglect proper insurance on your car. One damage suit might cost you your life's savings. . . your home.

A Few of the 600 at Rotary-Sponsored Hallowe'en Party

Here are a few of the 600 boys and girls, entertained at the Rotary Club's Hallowe'en party at the Strand Theatre, last Thursday evening. Thep hoto was snapped by Lester Coller as the crowd was about to enter the Strand. It may be difficult for you to recognize the youngsters in their spooks'-night get-up, but mothers and dads who spoent hours of their time preparing the costumes will, most certainly, be able to find members of their family.

600 Youngsters Entertained At Spooks Party

TEEN-AGERS COOPERATE 100 PER CENT WITH ROTARIANS IN HALLOWE'EN AFFAIR

At least 600 youngsters were guests at the annual Rotary-sponsored civic Hallowe'en pary and parade, staged in Tecumseh last Thursday vening. The party was given by the club in an effort to reduce vandalism to the village to a minimum and the children cooperated with Rotary 100 per cent.

"I do not know of a single destructive thing that was done by the youngsters in the village on Hallowe'en," Wade L. Jones, president of Rotary, said. "I would like to compliment the teen-agers for their fine spirit of cooperation, and let them know that it is appreciated. I think that Tecumseh this year enjoyed more cooperation on th part of the youngsters than any other community in the county—a record of which youth may be proud, and for which Rotary would like to say thank you."

The Spooks' party, with John Zeigler, the club's program chairman in charge, got under way at 7 o'clock with a parade through the business district of the masqueraders, headed by the high school band. After the costumes had been judged the youngsters went to the Strand Theatre which had been taken over for the evening for the entertainment of the merrymakers. A special feature picture was shown, there were several reels of comedies and sports, and a community sing.

On the stage, before the entertainment started, prizes were awarded for best costumes. To children under the age of eight years, pound boxes of candy were awarded to Carol Berkhof, Wilma Bumpus and to a girl dressed as the Statue of Liberty, whose name was not learned. Boys winning in this group were Edsel Brooks, Charles Baird and Bobby Holmes.

ARE YOU WEARING A RED FEATHER?

Community Fund Drive Lags Far Behind Its Goal--

There are too few red feathers in Tecumseh's hats.

That was the opinion of the directors of the Community Fund Campaign today when they announced that less than $1,000 had been subscribed against Tecumseh's quota of $3,500, and a warning was sounded that if this community is to reach its goal by next Wednesday evening, November 13, when the campaign ends, some generous giving must be done.

Ellsworth A. Collins, general chairman of the campaign, said yesterday that total contributions were between $900 and $1,000.

"Of course," Mr. Collins said, "we have heard from only one industrial plant, but all residential and business district solicitors have been checked. We are hopeful that industries that have not thus far reported will help to push the total nearer to the goal but success is still a long way off."

A year ago, Tecumseh subscribed more than $3,500 to its Community Chest in a speedy and successful campaign.

Funds raised this year, it was pointed out, are for Tecumseh organizations including the Boy and Girl Scouts, the Child Study Club, the Tecumseh Recreation Center for summer playground activities, and for other welfare and health work.

All funds are administered by local men, it was pointed out, ann the directors of the Fund are hopeful that this year's campaign will be successful and that a nest egg can be built up as a reserve against future needs.

Tecumseh Tied For Grid Honor

MEET BLISSFIELD HERE FRIDAY EVE IN FINAL GAME; DOWN MORENCI, 21-0

By Jim Sisson

Coach M. E. Runk's Tcumseh footballers gained the rights to at least a tie for the championship in the L.C.A.A. by bowling over the lowly Morenci Bulldogs, 21-0, last Friday on Tecumseh's rain-soaked gridiron. This triumph also gives the Indians the chance at sole ownership of the season's trophy as they meet the Blissfield eleven tomorrow night in the '46 schedule's finale on the Tecumseh recreation field.

Runk's clan is now perched on top of the conference standings with three victories against no setbacks. But the up-and-coming Sugar Boys will invade Tecumseh's battle grounds with a full fledged purpose of upsetting the Braves' chances for top honors. If Blissfield should turn the tables it would not only sink the Orange and Black to the Hudson level, but it would be the first encounter between the two rivals in six years that the Sugar Boys have come out on the long end of the scoring.

So the final figures of the L.C.A.A. will hinge mainly on the Tecumseh-Blissfield battle although Morenci and Hudson will also engage in a Friday struggle.

The experts, by matter of comparison and deduction, calculate a Teepee Town victory by at least six points, but the fast improving Kuney boys have thrown away pencil and paper and will give their last sugar beets to end their season in the victory column.

The Standings

	W	L	Pct.
TECUMSEH	3	0	1.000
Hudson	2	1	.667
Clinton	2	2	.500
Blissfield	1	2	.333
Morenci	0	3	.000

In last Friday's mudfest the Indians stepped off to a quick start when Dick Purkey, Braves' right end, scooped up a blocked Morenci punt and sped 40 yards for the initial tally. Robert Dinse plunged the 7th point for the Warriors cause.

Shortly after the second stanza opened, Melvin Murphy skirted his right end to score again. Dinse added the conversion touch and the first half score read: Tecumseh 14, Morenci 0.

The visitors were never able to even start a threatening drive and time after time their punts were blocked. The final tally was pushed across by hard driving Dinse in the third quarter. With the extra point fulfilled, the Tecumseh reserves took over the situation and held throughout the remaining minutes.

Tom Corkery, although he did not score, showed up well in the Warrior backfield along with Roger Williams, Bill Hayden, Tom Judd, and Ben Hammack who made up the backbone in the hard charging forward wall.

The fighting spirit is also back in THIS as proved last Friday night as the ball club shaped into its normal form. And with Bill Brown and Marvin Barber returning to uniform, the efficiency of the Indians is expected to rise to even higher levels tomorrow night.

Voters Return G.O.P. Victory

TECUMSEH AND LENAWEE VOTE WITH STATE AND NATION IN BIG LANDSLIDE

A Republican victory throughout the state and nation, in most sections assuming landslide proportions, was rolled up on Tuesday when a record-breaking vote was counted in the off-year general election. Incomplete returns indicated GOP control of Congress, especially in the House, for the first time since the early '30's.

In Michigan, Kim Sigler, graft prosecutor and Republican nominee for governor rolled up some 300,00 majority over his Democratic opponent, ex-Governor Van Wagoner. Likewise, Michigan gave Senator Vandenberg a terrific vote, and favored a majority of GOP congressmen. It was a victory day for most Republicans in the state.

The three proposed constitutional amendments apparently won at the hands of the state voters, although returns still must be checked.

In Tecumseh, about 80 per cent of the registered voters cast their ballots and 1,341 votes were counted. This community gave GOP victories to all candidates, and favored the adoption of the so-called airport amendment, No. 1, as well as the soldier bonus amendment, No. 3. It voted down the sales tax amendment. The vote was: Amendment No. 1, 773 to 272; No. 2, 527 to 663, and No. 3, 604 to 552.

On the non-partisan ballot, Leland Carr polled 992 votes for justice of the supreme court to Victor Bucknell's 167. John R. Zeigler received 21 votes for circuit court commissioner, with several other scattered votes for this office.

In Tecumseh, Sigler polled 1,048 votes to Van Wagoner's 273. Keyes, for lieutenant governor, and all other state officials also polled more than 1,000 votes to the Democrats' less than 400. Senator Vandenberg received 1,051 votes to Lee's 392, and Cong. Earl C. Michener received 1,017 to Kelly's 355. Elmer Porter, unopposed for the state senate, received 1,081 votes, and R. G. Conlin, for the state legislature, received 1,049 to Bourn's 370. On the county ticket, all Republicans received comfortable majorities.

In the City of Adrian, where liquor-by-the-glass was an issue, voters turned down the proposal by a vote of more than two to one. A similar turndown was handed to this issue in both Hudson and Morenci. Previously, the issue was defeated at the polls in Tecumseh, Britton, Clinton and Deerfield.

Miss Mary Lou Boyd Weds James R. Feight

At an impressive candle light service held Sunday evening at 8 o'clock in the First Presbyterian church, Miss Mary Lou Boyd, only daughter of Mr. and Mrs. Lawrence Boyd, became the bride of James R. Feight, son of Mr. and Mrs. Oren Feight, all of Tecumseh. The double ring service was read by the Rev. James Cameron Murdoch before the altar decorated with palms, hampers of yellow and white mums and lighted tapers in candelabras.

Preceding the ceremony Mrs. F. C. Dickinson, organist, and Archie Boyd, violinist, played a 15-minute recital. Mrs. Richard Carter of Britton sang "Because" and "O Promise Me." Mrs. Dickinson and Mr. Boyd also played the Wedding March from Lohengrin and Mendelssohn's Recessional.

The bride, who was given in marriage by her father, was gowned in white satin nylon overskirt, and long train; tiny buttons at the back closing the fitted bodice. A beaded coronet held the finger tip veil of net. She carried an arm bouquet of white poms and white carnations, tied with satin streamers. Mrs. John Becker of Tipton, matron of honor, wore pink taffeta with net overskirt and matching headdress of flowers, and carried a colonial arm bouquet of shaded poms and pink roses. Bridesmaids were Mrs. LeRoy Feldkamp of Saline and Mrs. Robert Williamson of Tecumseh and wore gowns of blue and yellow with halo of flowers in their hair and carried colonial arm bouquets of shaded poms. Duane Hunt of Tipton was best man and the groom's brothers Russell Feight of Jackson and William Feight of Ithaca were ushers. Barbara Jean Boyd of Detroit and

WORLD WAR III

Without fuss or furor, military authorities are preparing for World War III. Politicians are talking about it; it is a common topic of conversation among discharged veterans in fact it has about reached the dinner-table level.

We read with interest what Dr. Harold C. Ury, who participated in the development of the atomic bomb, had to say about another war. Either the United States must secure adequate inter-national control of the A-bombs or begin war preparations, he thinks.

With such horror threatening them, the American people should take stock of themselves. Just what is it that compels them to choose death if need be rather than face a future under possible domination of another nation? The popular slogan of "saving the world for democracy" is not enough, yet something so powerful prevades this land that the people will, unhesitatingly, choose destruction rather than "appease" those who would have us live other than according to our political ideals.

The reason we would rather die than appease is because here in the United States we believe that the individual is more important than the state. This is the essence of Christianity. It is this, and nothing else, for which the people of this country are willing to stake their lives.

It is this Christian philosophy of the individual first that we see and feel in the morning air as we wend our way to work or play. It prevades every business enterprise, big and little. It is the foundation of government. On Sunday the bells of thousands of churches peal a ringing affirmation. No mere clumsy words can describe this philosophy of America, but it is there for all to enjoy—and it is worth more than life itself.

Who Gets Off Easiest— Men or Women?

Maybe you saw that poll on who has the easiest life—men or women? Of course, the men voted that the women did, and the women vice versa.

It would be the same in our town—take any family. Thad Phibbs envies his Missus spending the day at home, with no hot office to attend to. And Sue envies Thad his luncheons with the boys; and his evening glass of beer with friends (while she cleans up the dishes in the kitchen).

Of course, none of it goes very deep. Thad knows way deep down that the Missus has plenty of work running a house; and Sue knows Thad's friendly glass of beer is well-deserved relaxation after a long hard day's work.

From where I sit, most husbands and wives may grumble now and then—but they know in their hearts it's a case of live and let live, give and take, that comes out pretty even in the end.

IN YOUR ATTIC

MAY BE THE BIGGEST HEAT THIEF IN TOWN

An uninsulated attic robs your home of heat. Heat conducted by the plaster ceiling flows directly into the empty spaces above the attic floor.

You must constantly replace this heat loss with more heat. That means higher fuel bills.

YOU
Can Insulate it Yourself

1. Insulate your attic. If the floor is not covered you can insulate it yourself. If a floor has been laid, the job may require the services of a helper.
2. Measure your attic and take down the dimensions of the space to be covered. By knowing the length, width and height, we can easily give you the cost of material.
3. In beginning the job, place the insulation directly on the laths. Be careful not to step off the ceiling beams. Use a board thrown over the beams to stand on.
4. We have all types of insulating materials to do your job efficiently. Come in, talk over and see your savings.

Give Now To Your Community Chest

(Yes, it's very true! Your fuel dealer will pay for the cost of insulating your home through the economies you'll enjoy over a three or four year period. Ask the man who lives in an insulated home, he'll tell you!)

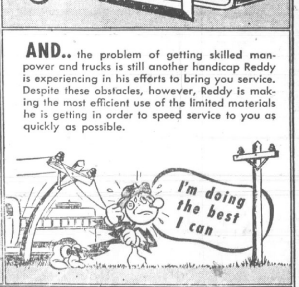
AND.. the problem of getting skilled manpower and trucks is still another handicap Reddy is experiencing in his efforts to bring you service. Despite these obstacles, however, Reddy is making the most efficient use of the limited materials he is getting in order to speed service to you as quickly as possible.



SO.. if you are among those folks who are waiting and wondering why Reddy hasn't arrived at your home, this brief explanation will help you to know the reason why.

Gives you premium-plus lubrication. Why does your car have more go when you remove the "goo"? That's easy! You get rid of gooey deposits of sludge, varnish, carbon, and soot. So there's nothing to stick rings, or interfere with free valve action and smooth, powerful piston strokes. You have a sweeter-running engine . . . a better-lubricated, longer-lasting engine.

This is the latest idea in motor oils—to thoroughly lubricate the engine . . . to clean it . . . and keep it clean: It's the Permalube idea. It's premium-plus lubrication!

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

"I never saw oil drain out so dirty!" "Good! That shows Permalube's been taking out the 'goo'!"

Farm Income in County on Gain

CROPS AND LIVESTOCK PRODUCED LAST YEAR HAD RECORD VALUE OF $12,309,000

Nearly doubling their annual gross income in comparison with 1940, as reported by the U. S. Bureau of Census, Lenawee County farm families last year produced crops and livestocks with the record value of more than $12,309,000.

This huge increase in farm revenue has already created heavy demand for general farm improvements and for home remodeling, according to a study released by the Tile Council of America. With every industry anticipating greater business in the state than before the war, floor and wall tile manufacturers alone expect their sales here to triple in the next few years.

"Increased sales of industrial products mean in turn a new level of prosperity for every local businessman and worker," said D. P. Forst, chairman of the Council's Residential Construction Committee.

The study shows that many farm improvements were made even during the war. Since 1940, for example, the number of farm homes reporting electric lights here has increased from 3,512 to 3,737. Heavy demand for such modernizing as installation of running water, tiling of bathrooms and improving kitchen layouts has already resulted, accordig to Forst.

Forst also pointed out that farmers in the county today have 960 more tractors than in 1940, according to the Bureau of Census, and that the number of trucks on farms has likewise increased substantially. "These facts not only indicate the importance of the farm market but also make it one which no businessman or manufacturer can afford to overlook," he said.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

School Addition Bids Rejected

COSTS "OUT OF LINE" BOARD HOLDS; INVESTIGATE EAST BRANCH REMODELING

All bids for the construction of an addition to the West Branch school building were rejected by the board of education, in session Monday evening. The board held that bids received were "out of line" and that the building program would "rest on the table" at least until Spring when, possibly, a better idea of future buildings costs might be obtained.

The board had advertised and received bids for an enlargement to overflowing with elementary of the West Branch, now crowded grade pupils. The board said that it expected that costs on the project would be between $14,000 and $18,000. The lowest complete bid received was $25,020, and the lowest composite bid was $23,067. These amounts, the board felt, were from five to eight thousand over their estimates.

"I think that the board feels that the building plan should be dropped until Spring," W. L. Berkhof, superintendent, said, and possibly at that time we will know a little better what future building costs ill be."

To care for the crowded condition in the schools, an overflow class is now meeting in the Parish House of St. Peter's Episcopal chudch. This is in addition to the classes meeting in the Brownville School, recently turned over to the school by Ford-Edison Institute.

The board at its meeting on Monday also authorized an investigation of the possibility of rehabilitating the East Branch building. It approved the Adult Education night school program, plans for which are now in the making, and conducted other routine business.

The total registration of school voters, as the result of last week's registration, was placed a 800.

Education Week Observed Here

TECUMSEH SCHOOLS INVITE PARENTS TO VISIT TEACHERS AND COUNSELORS

The problems of readjustment facing the world today lend special significance to the twenty-sixth observance of American Education Week, November 10 to 16. Schools face many new tasks today, and programs must be reconverted to meet the many new demands being made, including broader opportunities for young and handicapped children, the training of tomorrow's technicians, the education of veterans, education for home and family living and increasing emphasis on health and safety education. These are in addition to those problems of special significance, educating for citizenship in our democracy and educating for world citizenship by preparing children and youth for global understanding and cooperation.

To achieve to even a reasonable extent the many tasks placed before the schools, there must be complete understanding by the people of every community of the nature of these problems, what they entail in terms of physical facilities and personnel and what must be done on the local level if the schools are to fulfill their function to the fullest. To promote this understanding in Tecumseh the standing invitation to all citizens to visit the schools is being supplemented by special invitations to visit the elementary grades during American Education Week. Since school authorities are interested in having Tecumseh citizens see the schools as they are no special program or change in routine has been planned. On the high school level, also, special invitations are being issued to parents to visit counselors for the purpose of discussing the progress and problems of their children. This, also, is a regular part of the high school program which this year coincides with Education Week.

Meat Counters Are Not Rushed

PRICES FALLING "LITTLE BY LITTLE" AS FREE ECONOMY SYSTEM RETURNS

Lines at local meat counters are no longer of the push and rush variety, and there is plenty of meat, in fact meat sales are slowing up considerably as housewives wait for prices to tumble, it was learned through a canvass of markets.

Under the "free economy," butter prices have tumbled from a high of 95c to 83c, sirloin steak has dropped from 65c to 59c, hamburg from a peak of around 50c to 41c and lard has come out of hiding to an asking price of 49c.

One market operator said that meat is not moving rapidly at these prices and indicated that another 30 days probably would see a considerable further price cut.

Stores are not taking advantage of price boosts on other merchandise because of the withdrawal of ceilings. Stocks will be sold at the old prices, but, of course, it was pointed out, if replacements cost more, then prices must advance.

"The housewife is a shrewd buyer," one merchant said, "and she is fully capable of regulating prices. If the asking price is too high for her budget, she simply buys substitutes.

Most business men were of the opinion that the removal of ceilings might cause a flurry in prices for a few weeks, but they were agreed that the law of supply and demand already has become operative.

Time Extended on Chest Drive

LITTLE MORE THAN HALF OF QUOTA SUBSCRIBED; NOVEMBER 20 LAST DAY

A one-week extension in the time alloted to complete Tecumseh's Community Fund campaign was announced today by Ellsworth A. Collins, when he let it be known that little more than one-half of the $3,500 quota had been subscribed.

"The campaign was to have closed yesterday," Mr. Collins said, "but directors of the Fund have decided to extend the time to November 20. This will make possible the collection of considerable money not yet reported, and I believe that we may be able to reach our goal."

To date, Collins said, $1,800 has been subscribed, a little more than one-half of the quota. However, he pointed out that there are several industrial plants yet to be heard from, as well as residential solicitations still to be completed.

"Some people are just realizing the fact that the Fund is lagging, and that we need additional money. It would no surprise me if we reached our quota within another week," he declared.

Funds raised in the drive remain in Tecumseh and are disbursed by the directors of the corporation. In the budget to share in this year's contributions are the Boy and Girl Scouts, the Tecumseh Recreation Center, the Child Study Club and other worthy welfare and health projects.

Tecumseh Wins Football Title

WIN FROM BLISSFIELD FRIDAY GIVES THS FIFTH L.C.A.A. VICTORY IN FIVE YEARS

By Jim Sisson

Coach M. E. Runk's Tecumseh gridders captured the L.C.A.A. trophy last Friday night when, on the home town field, they mounted their last obstical, the Blissfield Sugar Boys, 19-0.

It was Runk's first championship in football but it was the fifth in six years for the THS records. The Indians thus ending their season with a perfect course in league play but with a six-won, two-lost average for the complete schedule.

The season's finale was played on a dampened turf but it did not even resemble slightly the mud hole which served as a battle ground the previous week. The Braves received the opening kick-off and on Bill Hayden's pass snaring and Bill Brown's line driving, the Warriors rolled to their first score early in the first period. Brown plunged over from the 3-yard seripe but his conversion attempt was stopped short.

Brown again struck pay dirt in the second stanza when he went over from Blissfield's one-yard marker. He made good the extra point as he got off guard thru the Sugar Boys forward wall for his 13th point.

Runk then permitted his second stringers to go into action and they pushed the visitors all around the field but failed to tally in the third quarter. The first squad then reentered the encounter to play their last minutes of football. Marvin Barber promptly swept his right end on a buck lateral for nine yards and the final score. The scoreboard then reading Tecumseh 19, Blissfield 0.

The Sugar Boys, although out with everything to score an upset on the league leaders, failed to even near accomplishing the task. Maloney, speedy Blissfield back, was penned in and stopped cold in every attempt.

The Teepee Town squad will be depleted next season by the graduation of 10 from the Orange and Black ranks. Those who played their last football for old THS include: Ben Hammack, Tom Judd, Roger Williams, Bob Dinse, Bill Hayden, Jim Sisson, Marvin Barber, Jack Hadley, David House, and Don Aebersold. They will be gone but their record will remain and be remembered in the high school files.

Final Standings

TECUMSEH	4	0	1.000

IS FOOD THE ANSWER TO PEACE OF WORLD?

"How little can we eat and survive," was the interesting topic discussed by Prof. Howard Alexander of Adrian College, when he addressed the regular dinner meeting of the Rotary Club, Tuesday evening at Brees House.

Prof. Alexander aided in an experiment at the University of Minnesota, testing man's ability to live on a limited ration, comparable to that of eastern Europe in war-time. He told of the mental and physical changes noted, and intimated that food or the lack of it may mean the difference between peace and war in the future.

Discussing the urgent need for food relief in starving areas, he questioned whether or not the souls of those who have more than enough might not arrive unless they respond to the humanitarian call. He made a plea for all relief agencies, not only for food but for clothing.

INDIVIDUAL IS FIRST

The essence of Christianity is the importance of the individual. And that doctrine has been the foundation in law of all nations whose material progress has been greatest.

The first real step forward in individual freedom was the Magna Crata, which has deeply colored the history of the world. Its most perfect expression is found in the Declaration of Independence and the Constitution of the United States which carried the ideal of freedom a vast distance further. These documents say, in effect, that man as an individual, as a person, is important and that he has certain fundamental and eternal rights which cannot be abrogated by men in the mass as represented by the state.

It is not coincidental that governments based on the theory that the state is all important and the individual unimportant have inevitably destroyed or submerged religion and Christianity. For this kind of government must turn itself into a fake religion. Its goals are wholly material. Hitler knew that when he scoffed at Christianity and said that the ideal of Nazism was the one true deity for the German people. Lenin knew it, when he said that Christianity was the opium of the people.

Our government was based on a spiritual concept, not a material one. Yet unprecedented material progress has been made here. The reasons are plain. The man who is individually important as a citizen is the man who becomes economically important as a worker. He is the thinking man, the doing man. He is the direct opposite of the regimented man.

The great lesson of all history is that all institutions—religion, industry, the arts and the crafts—must remain free or none will remain free. There can be no compromise with oppression. Government domination of the individual or the business is slavery. The basic idea upon which our free enterprise rests is the Christian philosophy—the importance of the individual.

The Dollars You Earn
And
The Dollars You Save...

• • •

Savings are more than dollars and cents. They may be the difference between security and insecurity for today and tomorrow. Its personal meaning is the money you accumulate and save over and above your current spending.

With a steadily growing savings fund you can plan and look farther ahead. You'll find that the men and women who work toward a goal in life are savers.

A convenient way to save is a savings account where one can deposit any amount at any time, where your dollars earn interest and yet are quickly available.

From where I sit ... *by* Joe Marsh

How to Handle a Fortune

Some months ago I reported in the *Clarion* how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world . . . getting a new house or car . . . wearing fancy clothes . . . or dining on cold pheasant and champagne . . . ?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk — that's *worth* a fortune, after all!

It's Summer Every Day

With Insulation!

Now that the thermometer has started to drop and chill winds greet you each morning, why not ACT to give your home that "summer-time feeling" all during the winter.

You can do it easily and quickly with INSULATION. The average homeowner can insulate his own attic—through which escapes most of the needed heat. The cost of doing the work is trivial—only a few dollars in most instances.

There's still plenty of time to insulate your home and let the fuel dealer pay for the cost. He'll do just that through the savings that you will make in fuel consumption. Ask the man who lives in an insulated house; he'll tell you of both savings and comfort.

AT long last you slip behind the wheel of your very own Buick.

You look around a minute — straighten your tie — grin a little at the handsome picture you know you must be making.

You turn the key. Step on the starter-treadle. Feel those eight big Fireball cylinders take silken hold.

Easy as a breeze, you slip away in two agile tons of steady-going levelness — and right then and there a lot that was dark is clear.

You see why this car is the *most wanted automobile in America today.*

You see why this doubles the problem posed by industry-wide slowness of parts and material flow.

You see why Buick production men are gladly putting every waking hour into ceaseless battle against such log-jams, so that they can supply these sweethearts to the greatest possible number.

You see how quickly a wait can be forgotten — when there's something like this at the end of the wait.

What matters is that *this is the best Buick yet.*

It's available at OPA prices applying at delivery and — though we like to get trade-ins — with or without a car to trade.

Band In Demonstration At Charlotte Conclave

The Tecumseh high school band was in Charlotte last Wednesday night, November 6, where, with 11 other high school bands, they participated in a marching and playing demonstration.

As Tecumseh band marched onto the field they formed the letter C for Charlotte playing "How Do You Do?" and after a countermarch they swung around playing "Tecumseh High" and formed the letter T. Then, in keeping with Tecumseh's Indian traditions, the band formed a wigwam. An imitation campfire was built by two Boy Scouts and as the band played "Pow-Wow" four cheer leaders, dressed in orange and black and with Indian head dress, did a war dance around the fire.

The Boy Scouts were David VanWinkle and Gordon Keyser; the cheer leaders Martha Hewlett, Carol Morse, Louise Poley and Pat Hammack.

After an individual performance by each band, the evening concluded with a mass band performance.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job

Don't delay increasing your coverage—tomorrow may be too late.

HOW YOU GOIN' TO KEEP 'EM AWAY FROM THE FARM?

New Round of Strikes Seen as Boon to Small Town

By Gene Alleman
(Special to The Herald)

LANSING—Another round of labor strikes in big cities, now in the offing as a result of Washington's lifting of wage and price controls, will only accelerate migration of industry to small towns.

That's the belief of a number of labor relation experts who make a business of finding out why workers become dissatisfied and what the employer can do to keep them happy.

Industrial plants in small towns personally, are comparatively free where the boss knows the worker of employee turmoil. There is more democracy in living; home ownership is not penalized by high taxes; transportation is no great problem; food is relatively easy to get, and prices are reasonable.

Our authority? The sedate Wall Street Journal which has just conducted a nation-wide survey. A minority factor contributing to employee satisfaction: Profit-sharing. Cost-of-living adjustment in wages work fine when costs are going up, but not when costs are going odwn.

In the cities it's the high cost of living.

On the farms it's the high cost of production.

For example: A consumers' council in Detroit raised a howl when the price of milk is adjusted to bring the Detroit market in line with Toledo and Chicago.

Latest figures from the bureau of agricultural statistics (U.S. department of agriculture) show that farm production costs have more than doubled since the five-year period, 1935-39. Production costs jumped from 5½ billions to 11½ billions.

This increase of cost to the farmer does not include such items as clothing, household goods, automobiles, trucks and so forth—things which farmers need just as city people need.

The American industrial situation is full of paradoxes — facts which appear to be a direct contradiction.

For example: George T. Christopher, president of the Packard Motor Car company, Detroit, said the other day that absenteeism is greater today than it was during war-time. "More absenteeism! Why?" you ask. Christopher's conclusion is that many workers shun work because they are getting the highest wage in history! "Here is a summary in the case of one woman employe who was absent and was interviewed by a nurse sent to find out if she was ill," he said. "The woman declared quite frankly that her 'spending money was backing up' and she wanted time to get rid of it."

The worker's candid comment explains the illogic of why we have low production per worker in a period of our greatest prosperity—a veritable fantastic situation. By reverse, you may assume that employee production will increase in a period of hard times when spending money does not back up!

While strikes have been more numerous in 1946 than in any wartime year, industrial production continues at a high rate. Try to explain that. In fact, we have just about attained Wallace's promised land of "full employment" within 12 or so months after V-J Day.

Unless labor and industry stage a costly cat-and-dog fight paralyzing our industrial production, economists now predict a mild economic "recession" in 1947 to be followed by a fairly stable period of good times. Federal labor courts, proposed by Senator Homer Ferguson, would assist the nation in averting disastrous nation-wide tieups.

As we analyze political trends, the Nov. 5 "mandate" was more of a protest against the federal administration in power than a clear-cut directive to victorious Republicans. We were weary of restrictions, tired of shortages, disgusted with bureaucracy.

It is easy to move toward the right when your pocketbook is full.

It is another matter to do so when your pocketbook is empty.

KENNETH WILL, AGED 51 YEARS, BURIED IN BROOKSIDE ON WEDNESDAY

Born, November 30, 1895, in Murphysboro, Illinois, Mr. Will and his family came to Tecumseh five years ago and purchased the Mills property on Union street, which had since been their home. He was a plumber by trade, was a member of the American Legion, the Veterans of Foreign Wars and the 40 and 8.

Recently he had been suffering from severe attacks of neuritis, but his condition was believed improving. Despondency due to ill health is blamed for his act.

About 1:25 Monday morning, Mr. Will called a friend and told him what he had done. He asked that he call Ellsworth A. Collins, local undertaker, and come to the house at once. Mr. Collins and the friend called police and a physician. Mr. Will was unconscious when they arrived. Efforts to save his life were to no avail.

Education Week Is Held Success

BIG MAJORITY OF PARENTS HELD CONFERENCES WITH TEACHERS IN TECUMSEH

Friday, November 15, marked the end of National Education Week and the end of a week of Parent-Teacher Conferences on the high school level which were a part of its observance in Tecumseh schools. James McDowell, high school principal, announced that of 355 pupils enrolled in the grades seven through twelve, 203 had their parents participate in these conferences. In fact, 87% of the parents of the eleventh grade boys came for conferences and the lowest percentage of participation of parents from any grade was 48%. This high percentage of participation is very satisfying as it indicates an active interest on the part of the parents, pupils, and teachers in the educational activities of this community, the principal said.

"The conferences seemed very satisfactory to both the parents and the teachers. They concerned the achievement, preference, aptitude, and intelligence tests which were given during Thursday and Friday preceding the opening of school. Also, six weeks marks, progress thus far, and individual personal problems were discussed. Such cooperation between the home and the school leads to better learning activities and improved education facilities for the boys and girls of our community," the principal pointed out.

The next debate will be at Royal Oak on November 27.

Other debaters were Gordon Keyser, Marian Murphy, Charles Manley and Jason Woodcox.

Churches Plan For Attendance

"GO TO CHURCH DURING DECEMBER" WILL BE SLOGAN OF MINISTERIAL GROUP

During the month of December an emphasis on church attendance is planned by the Tecumseh Ministerial Association.

"Adequate preparation for Christmas can be made by attending the church of your choice," said the Rev. Edward Escolme of the Friends church. All members of Tecumseh churches will be urged to invite others to attend with them. Those who have not become affiliated with any church will be welcome to the services of any church of their choice.

"Go To Church in December" will be the theme of the month according to the Rev. Blair Bashore, pastor of the Baptist church, and chairman of the Ministerial Association. "If the entire community can be inspired by church attendance who knows what the results could be in better community life," remarked Dr. Mac Naughton of the Methodist church. Speaking of the need of awareness of the gift made by God the Rev. James C. Murdoch of the Presbyterian church said, "In the service of Christian Worship our souls are confronted with the majesty and mystery of the Eternal God and His only Son whom He gave for our salvation, therefore let us celebrate Christ's birth month by attending church every Sunday."

The general campaign and publicity is under the direction of the secretary of the Association, the Rev. Allan L. Ramsay, rector of St. Peter's Episcopal church.

Community Fund Total $2,522.58

DRIVE ENDED YESTERDAY, UNDERSUBSCRIBED; SOME INDUSTRY YET TO REPORT

Tecumseh's Red Feather Community Fund campaign ended yesterday with a total subscription of $2,522.58, nearly $1,000 short of the $3,500 quota, Ellsworth A. Collins, chairman, reported. He said that all solicitors in residential and business districts had reported, but he said that reports still were lacking from some of the industrial plants.

"There is a possibility that several more hundreds of dollars will be received in the drive," Mr. Collins said, "but of course we cannot saw how much. There still are three or four reports to come in that should swell the receipts considerably."

Funds received in the campaign remain in Tecumseh for the benefit of local organizations including Boy and Girl Scouts, Child Study Club, the Recreation Center for summer supervised play, and other worthy welfare and health projects.

"I would like to take this opportunity," Collins said, "to say thank you to the many persons who worked to make the campaign a success, and for the many generous contributions."

RETAILERS BLAMELESS

Retail merchants, through no fault of their own, have fallen into an unenviable position. Price controls have been largely abandoned. Damned up rises in costs are now breaking through the walls of production. Retailers have no choice but to let the flood move on to consumers. They are in the position of "personally" introducing the public to the tragic reality of inflation.

There are a few things that consumers should keep in mind in these troubled days. Probably most important is the fact that the average retailer is opposed to rising prices as wholeheartedly as anyone. Modern retailing is set to operate on high volume and low prices.

Another thing to remember is that in the long run competition in the free market is the only sure road back to stability and plenty. The United States has a highly competitive retail distribution system. All merchants are working to get their share of the business. Under such a set-up, resistance by retailers to unjustified price increase is automatic and relentless.

These favorable factors cannot control inflation. But they mean that consumers will get as fair a break as possible—far better than ever before in the history of this or any other country.

If consumers will buy only what they need, keep their heads and not spend their money unwisely, prices will come down just as surely as the sun sets. Retailers are only too happy to work with consumers in such a program.

From where I sit ... by Joe Marsh

Why Bert Won First Prize

Folks weren't surprised when Bert Childers won first prize for his corn at the county fair.

Yet the judges admit it wasn't just because Bert had the finest ears of corn. He knew how to *display* them: neatly arranged, with the husks cleanly trimmed, and the booth white and spotless.

"Trimmings" sure make a difference no matter what you're offering—as Andy Botkin, keeper of the Garden Tavern, well knows. Andy doesn't just sell good beer. He sells it in a place that's clean and attractive ... in nice surroundings that belong with the enjoyment of a wholesome beverage of moderation.

And Andy, of course, is a wholehearted supporter of "Self Regulation." That's the system by which the Brewers and tavern keepers themselves make sure that taverns selling beer are clean and orderly.

From where I sit, people like Andy also rate a "First prize." Not just for the quality of the product —but for the "trimmings" too.

There's Danger in Under-Insurance of Both Real and Personal Property

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

Look ahead to Something Great

White sidewall tires, as illustrated, will be supplied at extra cost as soon as available.

Put to you straight, the story's this:

No car made today is coming to you fast as its makers would like.

It stands to reason that the car most wanted is not going to be the easiest to get.

But that car will have what you're aiming for.

Style that's no mere one-year wonder — but smart and clean and right in a way that lasts.

Power — plenty of it — a big bonnetful of Fireball straight-eight power, smooth as cream pouring from a pitcher.

Size and roadability and easy-handling — this car will be a travel-wise honey that hugs the road as though it loved it!

There will be smoothness and steadiness you haven't known before — and putting it all together for you a hard-driving production outfit that's staging a notably successful battle against shortages and slowdowns.

If it takes longer to get a Buick than anyone thought a few months back, it has also proved itself as a whale of a lot more automobile than folks expected!

So skip today — give a thought to tomorrow — and plan ahead for something good.

Get your money down on a Buick, available for future delivery — with or without a car to trade.

What Other Car Has So Much That Clicks For Forty-Six!

SMARTNESS — that sets the style pattern with car-length Airfoil fenders and bolt-on rear wheel shields.

POWER — from a Buick Fireball valve-in-head straight-eight engine.

OIL SAVINGS — from non-scuffing Accurite cylinder bores.

FLASHING ACTION — of Filite-weight pistons.

STEADINESS — from full-length torque-tube drive in a sealed chassis.

GLIDING RIDE — from Panthergait all-coil springing.

COMFORT — of soft Foamtex* cushions in roomy Body by Fisher.

SURE FOOTING — of Broadrim wheels.

CONTROL — through Permi-firm steering.

CONVENIENCE — of high-leverage StepOn parking brake.

PROTECTION — of Buick-originated fender-shielding front and rear bumpers.

* Foamtex seat cushions standard on Super and Roadmaster models. Available on Special Series at extra cost.

THE TECUMSEH HERALD

NINETY-SEVENTH YEAR—NUMBER ONE | TECUMSEH, MICHIGAN, TUESDAY, NOVEMBER 26, 1946 | FIVE CENTS PER COPY

Tecumseh's Coal Pile Dwindling

SUPPLY MAY LAST 3 TO 4 WEEKS; RAIL FREIGHT SERVICE IS SLASHED

Although Tecumseh already has started to feel the effects of the coal miners' strike against the government, there is no immediate need for cold houses or buildings in this village, and there probably will not be for at least two or three weeks, a survey indicated today.

While dealers' stock piles are dwindling, and are very limited, it was estimated that with conservation and restrictions the present supply could be made to last for from two to four weeks. If, however, the strike is not settled so that coal may again be rolling from the mines by mid-December, there is a very grave possibility that Tecumseh will be in for a cold Christmas.

Two car loads of coal were received by dealers here on Monday. In all probability that will be the last shipment until the strike ends, unless it is sent by government directive. No more coal may cross the Ohio river except on federal order.

Local dealers admit that the situation is critical and they are following federal directives to the letter. No coal may be delivered where there is a 10-day supply. Schools and churches are not on the priority list. Utilities come first, railways second, laundrys are third and hospitals fourth.

The public schools here have a supply of fuel that will last for from two to three weeks, depending upon the weather. Coal ordered by the school in mid-October has not yet arrived. The bulk of the school's coal pile is at the West Branch and will have to be transferred to the Central building.

Industry, by and large, is not seriously hurt. The only plant using any appreciable amount of coal is the Quaker Oats, and the supply there is sufficient for from 30 to 40 days.

S. Henry Smith, manager of the Consumers Power Co., here, said that thus far he had not received any directives from his company as to a need for power curtailment. "I'm hoping that we will not get such orders but, of course, I don't know," he said.

The most serious blow here as a result of the strike is the curtailment in freight service over the Toledo-Jackson branch of the New York Central Railroad Co. It was announced at the freight office here Monday that effective Wednesday, only two freight trains would operate on the branch weekly, on Wednesdays and Saturdays. At the present time there are two freights daily.

Local industry, commenting on the curtailment, said that they would endeavor in some way to "get by" during the emergency. It may mean the creation of a larger stock pile, and storage space for the most part is at a premium. Some plants are shipping as much as six or eight cars of freight daily, it was said.

Folk who are using fuel oil for heating during the emergency may be, for the moment, better off than homes and plants consuming coal but it was pointed out that oil is moved by rail and that rail shipments are being seriously curtailed. However, it would appear that oil consumers will be affected later than coal consumers.

EARLY PUBLICATION

Because of the Thanksgiving holiday, The Herald this week is published on Tuesday instead of Thursday. Publications will be resumed next week on Thursday as usual.

Thanksgiving

WELCOME, GUEST; come share our festive board. Whatever we have aplenty we offer you with bountiful hands. Whatever is lacking we can do without, compensating for its absence with our own good cheer, generous spirit and gratitude for whatever blessings we do enjoy. As the Pilgrim Fathers found it in their hearts to observe the first Thanksgiving on bleak New England shores we who have so much more can certainly say Grace in all sincerity, inspired by the history of our founding fathers' faith.

This country is rich in traditions which are so basically sound, they will outline all the changes which may take place in another three centuries of progress and existence. Our baths may be plastic rather than porcelain; our foods processed, compressed or fed to us like pills; the tempo of our dance music and of our very lives speeded-up and slowed down in alternating generations. Still the great humane urges to tolerance, personal freedom and individual security, characteristic of those who gave us the tradition of Thanksgiving, will never be forsaken.

WASTE PAPER PICK-UP HERE FRIDAY, NOV. 29

Scouts Ask for Old Paper to Aid New Cabin Fund

Would you like to help the Tecumseh Boy Scouts realize a 10-year-old dream—a new cabin of their very own in Elliott Park at Kilbuck and Ottawa streets?

Of course, you would, and so will the hundreds of other residents of this village when they gather up their waste paper and cooperate in a village-wide paper pick-up, sponsored by the Scouts, next Friday, November 29, the day after Thanksgiving!

Scouting here is being reorganized, and the boys and their leaders are determined to see to it that the youngsters' dream of a cabin takes form either this Fall or in the early Spring. Already the scouts have $1,575 with which to build the new cabin. A few hundred more dollars are needed, and there is a determination that the money can be made through waste paper collections and other enterprises.

"There's going to be no fooling about this paper pick-up next Friday, it's going to be thorough and village-wide," E. M. Campbell, chairman of the Rotary Club's committee on Scouting said in making the announcement. "We do hope that the residents cooperate with us, and that those who have waste paper to give will put it on their boulevards by 9 o'clock on the designated morning. The truck will make only one trip on each street, because that is all that we will have time for. However, no streets will be omitted."

The plan for the new cabin, 24 feet by 40 feet, is complete and it will be built of cedar posts by local labor. Wilfred Waldron has agreed to build the fireplace. The foundation and floor will be of cement. Jerry Spafford has been named as chairman of the building committee, Le Roy Tilley is chairman of the finance committee and Leslie Becker is chairman of the activities committee. It will be under Mr. Becker's direction that the paper pick-up will be made on Friday.

At the present time there are some 28 or 30 registered Scouts in Tecumseh, and here is a sufficient waiting list to enable the inauguration of another troop, possibly two more.

"We believe that a new troop will soon be organized at St. Peter's church, and some are optimistic and believe that before long we will have four active troops here," Mr. Campbell said. "I believe that there is a very great need for Scouting locally, and I believe that it is up to all of us to make this training possible if the boys want it."

Mr. Campbell is taking an active interest in the reorganization of Scouting, and said that he is receiving excellent cooperation from his committees.

IF IT WERE TRUE

Customers in the average store know little or nothing about merchants' profits, judging from a survey recently completed by the Los Angeles Merchants and Manufacturers Association. The survey revealed that a majority of the people questioned were under the impression that more than half of the customer's dollar went for net profit to the lucky storekeeper.

That, as the saying goes, would be nice work if you could get it. However, the merchant is far from being in the golden position a misinformed public thinks he is. On the average, something less than five per cent of the customer's dollar represents net profit to the store. And in some staple lines, such as foods, where there are no style trends and other problems to add to the cost of operation, the net is often less.

Such figures indicate the injustice that is done when buyers' strikes and other consumer rebellions are directed at the storekeeper. It's all very well to protest to high priced meat and butter, but place the blame where it belongs. Today's prices are simply the direct and inevitable reflection of today's governmental, industrial, agricultural and general business costs, and they can't go down appreciably unless costs go down, which includes labor and taxes.

The mercnant, chain or independent, large or small, old and new, is doing a fine job under rough conditions. He's got problems enough without being blamed for those over which he has no control.

From where I sit ... *by* Joe Marsh

A Lesson In Conservation

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer—when the talk turns to forest preservation, soil erosion, and other things that affect a farming community.

Judge Cunningham speaks up: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation—and that's preserving our democratic way of life, our sense of personal freedom, our respect for one another's rights."

From where I sit, the Judge is right. All America's great resources, our abundant natural wealth, are lost the minute we lose the right to work them as free people in a free land!

Whenever you see or hear of an encroachment on our rights—whether it's the right to free speech, or the right to vote as we see fit, or the right to enjoy a friendly glass of beer in licensed, law-abiding places . . . watch out!

It Takes a Lot of Planning To Build a New Home

It really takes a heap of planning to build a new home—especially is this true if you give it thought and consideration for the future.

The general arrangement of the house, the number of bedrooms, the size of the living room and the dining room, the basement and the utility room, all of these things must be carefully thought out if your new home is to meet all future requirements.

That is why we suggest that you begin planning NOW if you are thinking of building a new home next Spring. Undoubtedly the end of the winter will see a sharp upswing in building in Tecumseh.

We suggest, then, that you see us NOW about your new home. We'll help you to choose the site, plan its arrangement, obtain the material and the labor necessary for completion.

There's Danger in Under-Insurance of Both Real and Personal Property Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

It was agreed that no further action would be taken on the bids until the secretary had had an opportunity to determine if there were any bids which had not reached the Board as the result of the closing of the Post Office on the day when bids were to have been submitted.

A motion was made by Mr. Lindsley and seconded by Dr. Helzerman that the superintendent and his secretary be appointed as a committee to register the registration board for the registration of electors who have not as yet registered for school elections and desire to do so at the high school office. The motion was carried.

It was moved by Dr. Helzerman and seconded by Mr. Lindsley that the superintendent be authorized to plan and administer the adult education program for the community during the current school year. The motion was carried.

A motion was made by Dr. Helzerman and seconded by Mr. Lindsley that the meeting be recessed until 10:00 A.M., November 12. The motion was carried.

The Board of Education reconvened at the high school office on Tuesday morning at 10:00 A.M. Members present were Mr. Touborg, Mr. Satterthwaite and Mr. Spafford.

The following bid which had been delayed through the closing of the Post Office was opened by the secretary and read:

Charles E. Konneker, General Contract, Detroit, Michigan $16,280.00

Following the reading of the bid and further discussion of all bids which had been submitted, it was moved by Mr. Satterthwaite and seconded by Mr. Spafford that all bids be rejected by the Board because of the high cost of construction in relationship to the estimates which had previously been released to the public. It was also agreed that public sentiment regarding the advisability of the early construction of the project could be determined as a guide to further action in the matter in the Spring. The motion was carried.

Upon motion made by Mr. Satterthwaite and seconded by Mr. Spafford, the meeting was adjourned.

P. C. Satterthwaite,
Secretary.

Schools Face Fuel Shortage

SUPPLY IS EXPECTED TO BE ADEQUATE UNTIL CHRISTMAS VACATION, DEC. 20

While Tecumseh's industry sees little need for immediate worry as a result of the fuel shortage occasioned by the miners' strike against the government, the public schools here already are feeling the pinch, with coal stocks dwindling rapidly. Thus far, only two "casualties" have been reported due to the fuel shortage, the Campbell Cleaning Shop having been forced to close its doors Saturday, and Greenwald's Laundry has been forced to limit its work, because of a lack of coal with which to produce steam.

W. L. Berkhof, superintendent of schools, said that there is sufficient coal to heat the buildings—if the weather does not get too cold—until the regular Christmas vacation, December 20. The schools should reopen on January 6, but, he said, it will all depend upon the coal situation at that time. All evening activities at the school have been discontinued. Schools in some sections of the state already have been forced to close.

Unless the embargo on freight, which becomes effective on Friday, has some serious affect on industry, there seems to be little need for worry about the operation of Tecumseh's factories until after the first of the year. All industrial plants reported "business as usual" this week, and they could see no reason for holdups in December.

Coal stocks in dealers' bins here were shrinking fast, but it was expected that "emergency" fuel, shipped here on government order, would arrive probably this week. Dealers have been in conference with the Solid Fuels Administration, and have been promised supplies.

It was said today that so far no residences have been cold because of a lack of coal, although deliveries have been limited to half tons in some cases. Tons are the maximum delivery permitted.

Street signs, window display lights and other outside lighting is taboo, but street lighs are permitted to burn as usual.

New Taxes Are Seen In State

NEW REVENUES MUST BE FOUND IF SALES TAX IS DIVERTED, CONLIN SAYS

While death and taxes have long been considered two certainties in life, R. G. Conlin, state representative, of Tipton, told members of the Rotary Club here Tuesday evening that new taxes might be expected as a result of the passages of the constitutional amendment in the November election, diverting one-third of the sales tax to local government and schools. Mr. Conlin spoke following the club's dinner at Brees House.

Millions, heretofore spent by the state, will be returned to local government, Mr. Conlin said, and the state faces a large deficit. New tax revenues must be found, too, he pointed out to enable payment of the soldiers' bonus. Locally, he said that Tecumseh and Tecumseh township governments would get about $15,000 from the tax diversion, to say nothing about aid that will come tot he schools. He declared, however, that some townships will get money that they do not need, pointing out that Franklin township will receive, under the new arrangemet, about $6,000.

New tax sources will be investigated, Conlin said, when the legislature convenes in January.

Community Fund Is Over the Top

CONTRIBUTION FROM TECUMSEH PRODUCTS CO., SWELLS LOCAL TREASURY

The Tecumseh Community Fund —the red feather campaign—is over the top, a contribution from the Tecumseh Products Company making it possible for the village to exceed its $3,500 goal, Ellsworth A. Collins, general chairman, said today.

"The drive is now officially closed and receipts in the campaign total $3,508.88," Mr. Collins said. "At one time we were a bit worried that the community might not reach its quota but, thanks to the generosity of the Products company, we have done it again. Tecumseh, in this campaign, operated true to form. We did not fail to exceed any war-time quota for bonds or other patriotic enterprises, and now, in our own campaign, we have again exceeded our goal.

"I want to again take this opportunity to say thank you to all of those who worked so hard to make the campaign a success," Mr. Collins continued. "There was not a single worker who did not carry on successfully, and the public, generally, was very generous in giving."

All funds subscribed in the campaign remain in Tecumseh to be expended by the board of the Community Fund. Boy and Girl Scouts, the Recreation Center and any other worthy civic and welfare projects share in the receipts.

Indian Cagers To Meet Dundee

GAME THERE TOMORROW NIGHT; SCHEDULE ANNOUNCED, MAY PLAY AFTERNOON GAMES

By Jim Sisson

Coach Myles Runk blew his whistle in the THS gymnasium a few days ago to call out his prospective cagers for the 1946-47 season. In the first practice session he was mobbed by 37 candidates for the basketball squads, but not being without resources to dispose of the throng he called in David Dick, a high school teacher and former coach, to aid in the direction of the reserve squad activities.

Among those to report for the preliminary, which is exceedingly small this year, were only three lettermen from last year's championship quintet. Co-capts. Ben Hammack and LaMar Cheever along with Bill Hayden, who were winners of the T will probably be among the starters in the opening contest tomorrow with Dundee.

In the host of promising material for the first five are also; Marvin Barber, Harold Anderson, Bill Brown, Jim Sisson, Tom Judd, Roger Williams, Jack Gillin, Millard Snyder, and Jack Whelan. These offer valuable height which will come in handy at anytime but Runk hasn't decided definitely on any one of the starting berths, as yet, and will perhaps even surprise himself with his opening lineup tomorrow evening.

The clash between the Vikings and Indians will be the first of the season for both, and in past experiences on the Dundee hardwood give the Vikings a slight advantage. In the 42-43 season the Braves were the victors on the Dundee court, but in schedules of 43-44, and 45-46 Tecumseh dropped the regular season contests in non-league games. However, on both occasions the scores were very close which indicates a hot time in the Dundee gym tomorrow.

The remaining encounters on the Warriors' schedule include:

Dec. 13—Morenci, here
Dec. 19—Monroe Cath. Central, here
Jan. 10—Clinton, here
Jan. 14—Blissfield, there
Jan. 17—Addison, here
Jan. 31—Morenci, here
Feb. 7—Dundee, here
Feb. 11—Monroe Cath. Central, there
Feb. 14—Clinton, there
Feb. 18—Blissfield, here
Feb. 21—Addison, there
Feb. 28—Hudson, here

Due to the bronmout the basketball games may be played in the afternoons but they will be played on the scheduled dates.

WHAT IS THE ISSUE?

As residents of Tecumseh and Lenawee county sit by and watch their coal piles shrink and wonder just what is causing all of the trouble in the soft coal industry, some may have to come to the conclusion that the miners are an overworked lot of folk, laboring long hours at starvation wages.

Here are some facts recently released by the National Coal Association which every person should know:

In August, the average weekly earnings of bituminous coal miners was $62.37—a higher average weekly earnings figure than reported by any other industry in the United States. It was 161.18 per cent higher than in 1939.

The rise in the cost of living between 1939 and 1946, on the other hand, was 44.6 per cent, according to the Bureau of Labor Statistics.

The coal miners' hourly earnings in August averaged $1.467, an increase of 65.8 per cent over 1941. So, whether wages are figured on a weekly or an hourly basis, it is apparent that they have far outrun rises in the cost of living.

It has been said that the miners must work a 54-hour week, because some mines work six days a week, some weeks. But very few miners work all of the six days. In June, figures are available, the average for example, for which government work week was 42.9 hours. Again, one hour of the nine-hour work day is spent, theoretically at least, in traveling back and forth to the working place. That means that while the miner actually works only eight hours, he gets paid for nine.

Lastly, the standard work week in the industry is now 35 hours, and all time worked over 35 hours is paid for at time-and-a-half rate.

We wonder if United Mine Workers' leadership is not so much concerned with wages and hours as it is with the ruthless and limitless domination of a great industry.

From where I sit ... by Joe Marsh

How to Stop Worrying

I guess folks in our town do about as much worrying as in yours—over housing and prices, and crops, and jobs—and the little domestic problems that are always coming up.

Dad Hoskins, who's lived to the happy age of eighty, has a simple formula for stopping worry. About every problem, he asks himself: Is there anything I can do about it? If there is, he never postpones making a decision, or taking necessary action.

If there isn't anything he can do about it, he sets aside a "worrying hour" after dinner, and gets his worrying over in one concentrated period. When that's over, he relaxes over a friendly glass of beer with Ma Hoskins—and they talk about pleasant things together, until bedtime.

From where I sit, that's as workable a formula as you could find ... right down to the mellow glass of beer that seems to wink away your worries.

"Our Checking Account Is A Practical Necessity"

We overheard a customer's conversation with another the other day. It went something like this: "These days I have had to stick closely to my budget. I can't afford to lose a cent either through my own carelessness or from theft. That's why I have a checking account. My cancelled checks are undeniable proof of payment of bills. With the figures before me, I find it easier to come out on top with my budget, too."

We know of many other folk who feel the same way about their checking accounts.

Why don't you open one this week and end your budget worries?

To Keep Well—

Guard Yourself Against Winter's Colds!

There's an old saying that an ounce of prevention is worth a pound of cure and, as yet, no-one has been able to refute it.

That's why we suggest that at this season of the year you watch your physical condition—guard yourself against the most common of all ailments . . . a cold.

We have many home remedies for colds that usually work very successfully, and at the first symptom you should do something to check its progress. However, if you are unsuccessful, see your doctor. And, if he gives you a prescription, bring it to us for careful compounding with fresh, potent drugs.

There's Danger in Under-Insurance of Both Real and Personal Property Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

Attention! Dairymen

Your dry cow is preparing for 10 months more of milk production. How much milk she produces during these 10 months will depend on the ration she is given during this dry period. A special dry cow feed will develop a strong rugged calf during these important last two months, and will help condition the cow for a profitable 10 months of milk production following the freshening period.

The special dry cow ration is easy and economical to obtain and feed. Just grind and mix 150 pounds of your own grain with 100 pounds of HAYDENS DRY & FRESHENING BALANCER. Feed 6 pounds to 9 pounds per cow per day according to breed and size. Ask us for formulas and feeding directions.

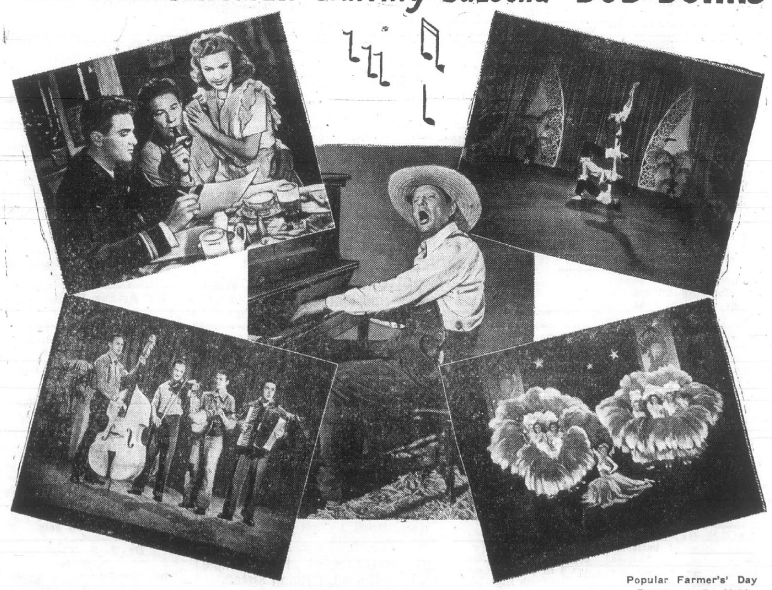
"THE WINDJAMMER" *Starring "Bazooka"* BOB BURNS



To be shown here on JOHN DEERE DAY.

Popular Farmer's' Day Program o Be Held Friday, December 6th, by Local John Deere Dealer

Free to farmers, in this and neighboring communities, is the big John Deere Day Program to be held at the Strand Theatre on Friday, December 6, at 10 a.m.

According to Fay Whelan, local John Deere dealer, this year's John Deere Day Program will provide a full measure of top-notch entertainment every farmer and his family will long remember.

The main attraction is a 55-minute Hollywood feature, "The Windjammer," which stars "Bazooka" Bob Burns, famous radio and screen comedian. The "rib-tickling" story is built around a windy character, Bob Newton by name, who claims to be able to make animals talk. His experiences, and those of his charming daughter, in filming a talking animal picture in Hollywood will be enjoyed by everyone

In the supporting cast are such well-known artists as Gale Robbins, Scott Elliott, Kenneth MacDonald, Ida Moore, Eddie Kane, Dan Duncan, and Sam Flint.

Four Other All-Talking Pictures

In addition to "The Windjammer," four other new, all-talking pictures will be shown. They include "Headliners in Tractor Value"—the story of the new John Deere Models "A" and "B" Tractors for 1947 . . . "New Power for the Smaller Farm"—an important announcement of a new tractor with a complete line of integral equipment for the small acreage farmer . . . "Conservation Farming with Regular Equipment"—an educational picture on how to keep your soil "at home" with the equipment you have on your own farm . . . and "New Pages in John Deere Progress"—a newsreel on newly developed John Deere integral and drawn machines for 1947.

The Hoyt E. Whelan Co., cordially invites every farm family in this area to come to this farmer's day program. He promises a good time to everyone who comes.

According to Mr. Whelan, admission to the John Deere Day Program is by ticket only. Any farmer who has not received tickets can get them free by inquiring at the store before the day of the show.

Our Shop Is Closed....
Because of the Coal Strike

We regret very much that we have been forced to close our shop because of a lack of coal with which to make steam, occasioned by the mine strike.

When we will reopen is problematical, depending, of course, upon when fuel will again be available.

We regret this inconvenience as much as do our customers, but the situation is beyond our control. We ask that you bear with us until such time as we will again be able to operate.

Grown-Ups Here Talk Education

SPECIAL MEETING, COOPERATING WITH SCHOOLS, HELD AT LIBRARY

A special meeting of grown-ups, including representatives of industry, unions, clubs, churches, veterans' groups and other organizations, was held at the library here last evening for the purpose of discussing ways and means of making available to adults a "more rounded" education. The meeting was called at the request of the schools and Neville Hart, directing the Adult Education Program locally, was in charge.

Mr. Hart is of the opinion that civic problems, community activities, and state and national issues all can be thoroughly discussed by such adult groups and better understand if everyone has a clear meaning of the undertakings or problems. If an adult program is to be carried on here this winter, under state supervision, Mr. Hart hopes that it may include some of the things directly concerning Tecumseh and its immediate area. It was for the purpose of feeling out public opinion on such a plan that the meeting was called last evening.

Mr. Hart and W. L. Berkhof, superintendent of schools, will canvass the matters discussed at last night's session and formulate a program to be followed out in future meetings. The program will be announced at a later date.

Attending last night's meeting were representatives of the Grange, the Rotary and Exchange Clubs, the Child Study Club, the Monday Club, the Tecumseh Products Workers Union, the Ministerial Association, the American Legion, Veterans of Foreign Wars, the Parent-Teacher Association, the schools, management and other groups.

Warren E. Jackson

Former Pastor Is Named M. C. E. Field Secretary

Rev. Warren E. Jackson of Ypsilanti, a former pastor of the Tecumseh Baptist church, has been named Field Secretary for the Michigan Christian Endeavor Union. Rev. Jackson has also served as pastor in Traverse City and Wyandotte and during the war years gave valuable leadership and counsel in ministering to people in the Willow Run area under the sponsorship of the Michigan Council of Churches. Many years of service have been given in summer conference and leadership training, in boys' camp activities and in personal counseling. Recently he has done research work for the Department of Comity of the Detroit Council of Churches and the Presbytery of Detroit.

Doctor Discusses Church In The Post-War World

"The Church's Place in the Post-war World," was the interesting subject discussed by Dr. Thomas Ballentine, member of the surgical staff of the University of Michigan and former Army surgeon, when he spoke following a turkey dinner served at a men's meeting in St. Peter's Episcopal parish house, Monday evening.

Dr. Ballentine believes that it is vital that the church give the post-war program serious consideration. The church, he holds, not only is necessary to the world's social order, but so is the social order vital to the church's existence. He spoke very informally, permitting his listeners to interrupt him at any point by way of discussion.

The Rev. Allan Ramsay, rector, presided at the meeting, of which L. W. Larsen was the chairman. Both spoke briefly. Group singing was led by Glenn Driscoll and Bob Hadley played several accordion solos.

Mr. Larsen said that the church is considering the formation of a men's group to further such discussions, and the plan will be discussed at a later meeting.

Methodists Announce Christmas Program

The Youth Group will act as ushers and assist with the Christmas tree festivities when Santa Claus will be present.

The program will be under the direction of the following teachers: kindergarten, Mrs. A. L. Van-Winkle; primary, Miss Bertha LaPointe; juniors, Mrs. Edward Beal and Miss Mary Jane Smith; intermediates, Mrs. Kenton Hunt; young peoples' group, Mrs. John Cameron.

Tecumseh Wins 1st Cage Meet

DOWN DUNDEE QUINTET BY CLOSE MARGIN; PLAY MORENCI ON FRIDAY

By Jim Sisson

In the opening game in the 1946-47 schedule, the Tecumseh cage quintet steamed into full blast as they downed the Dundee Vikings last Friday night. The Indians had trouble finding the bucket range on the Dundee hardwood but finally overpowered their adversaries, 24-21.

Coach Runk's cagers trailed in the opening stanza but were nosing ahead by a slim one point margin in the 11-10 halftime scoreboard reading. The third period was the big eight minutes for the Braves as they climbed 10 points out in of the Dundee five.

However, the Warriors lost their substantial lead as the Vikings closed in in the remaining seconds and only scored four points in the final quarter to squeeze out the verdict of 24-21.

Co-captain LaMar Cheever grabbed top scoring honors as he racked up four field goals and a charity toss for nine points to lead the Tecumseh in the initial contest. Harold Anderson, Indian forward, ran a second in the Braves' tallying with seven markers.

David Dick's junior Warriors were not as fortunate in their preliminary reserve contest and they ended up on the short end of the 39-19 score. Bill Martin led the Orange and Black's tallying with eight points.

Tomorrow the local quintet travels to Morenci to open L.C.A.A. activity. The Indians scalped the Bulldogs in both encounters last season and will be out to match the victories this year. The Bulldogs dropped their first engagement to the Delta, Ohio, quintet 46-21.

Lights Burn Normally After Coal Strike

Lights burned normally again in Tecumseh this week, following John L. Lewis' decision on Friday to order the miners back to work after a 17-day strike against the government. Coal is again commencing to trickle into dealers' bins, and soon the back-to-normal sign will be hung out by dealers. Of course, it was said, if it turned very cold within the next few days, there might be some shortage until shipments arrived.

The public schools here have sufficient fuel to operate until the December 20 holiday vacation, and it is expected that bins will be refilled during the recess, which lasts until January 6.

The removal of freight embargos eased industry's headache, and shops, like homes and stores, settled down to a more normal way of operation.

School Health Plan Launched

LOCAL SCHOOLS TO MODEL STATE-COUNTY PROGRAM BEGINNING IN JANUARY

Tecumseh elementary schools have been selected by the newly established Lenawee County Unit of the State Health Department for the purpose of developing a program of cooperation between the home and the school to promote the health and well-being of school children. It is anticipated that such a program, once developed, will be carried on in all schools of the county. Tecumseh, because of its fine cooperation in health projects in the past, has the privilege again of leading the way. The Tecumseh Health Education Committee, headed by Mrs. Richard Preston and representing the whole community, is again cooperating in the present project.

Starting in January school medical conferences will be held at the Central school building between Dr. J. R. Huntley of the County Health Unit, the parents of each child who has been screened out in previous inspections, the child, and the teacher of the child. At these conferences parents will be advised as to medical care which should be obtained and corrective or remedial measures which should be taken. Invitations have been issued to parents to attend these conferences. Based on the interest and cooperation shown by parents in similar projects in the past, a good attendance is expected.

During the past several weeks a health inspection of all grade children has been conducted in the school for the purpose of screening out those children who appear most in need of medical care or corrective work. This part of the program was under the direct supervision of Miss Agnes Hansen, physical education and health supervisor, with the cooperation of the grade teachers.

LEWIS VS PEOPLE

The Portland, Oregon, Journal came to the heart of John Lewis' recent coal controversy when it observed that it was a quibble to say that the strike was directed against the government or the mine owners. Instead, said the Journal, "It was directed against the nation's factories and railroads, against its farmers, storekeepers, the babies, against John Doe and his neighbors along main street in Tankville. The mine operators at one time made the lot of the miners pitable indeed—but they have been brought into line and the government itself became the employer. Now the boss of the miners, holding the whip hand, is insisting upon the very principal against which he screamed at the employers — domination, coercion, oppression. Whatever the rights and wrongs of the controversy itself may be, no man should have the power to defy his government, his president, and his fellow countrymen."

The strike issue in all industry has gone far beyond the question of whether workmen are entitled to higher pay, shorter hours or other benefits. These matters could be equitably decided and settled through the normal process of collective bargaining.

From where I sit ... *by* Joe Marsh

A Grand American Tradition

The Cuppers had a grand old family reunion last week—for the first time since the war.

Big and little Cuppers came, by car and train, from as far west as Nebraska and as far east as Vermont. They crowded Dee and Jane's house, set up quarters in the barns, or stopped with neighbors—and a jollier gathering you couldn't have imagined!

I was asked to their final Saturday night supper, when they sang old songs, drank beer and cider, reminisced. Dark Cuppers and blonde ones—Vermont accents and Alabama drawls—doctors and farmers . . . all with their differences of taste and politics, yet as close and harmonious in spirit as a group could be.

From where I sit, it's a great American tradition—not just family reunions, but the ability to get along as one harmonious family, regardless of differences of taste—whether it's taste for politics or farming, beer or cider.

You Can Have A New House

Next Spring or Summer!

Yes, as we now see it, it will be entirely possible for you to start building the home that you have been dreaming about all during the war—maybe before—next Spring or Summer.

Tonight, tomorrow or next Sunday, drive around Tecumseh and note the number of new homes that are being built. Note the new addition to the Indian Acres Subdivision on North Union street—an excellent site for a new home!

Lots are still available in this subdivision, and we'd suggest that you see us and begin making your plans for the home that you'll want and need next Summer. It's not too early; remember, materials, labor and many other things must be found before actual construction starts.

We've helped many, many folk to build their new home. We'd be be happy to help you, too. But don't delay.

Would You Sell Your Property For It's Insured Value?

The average owner in this area today, is lulled into a sense of security by the fact that he has an insurance policy covering fire, theft or other losses.

He forgets that he established the amount of his insurance coverage back in 1940 or earlier and has failed to keep his insurance abreast of the steadily rising values and replacement costs.

Home owners should ask themselves this question: "Would I sell my home or belongings today for the amount of insurance I carry?"

Another way to visualize this danger of under-insurance is to consider the replacement costs in dollars and cents and not in percentages.

For example, a home that was worth $7,000 in 1939 is worth over $11,000 today in most cases. The 1939 insurance coverage no longer is adequate to do the job.

Don't delay increasing your coverage—tomorrow may be too late.

"HIS NAME SHALL BE CALLED EMMANUEL"

This name of Christ means "God with Us." One of the great religions of the Earth emphasizes the transcendence of God, that is, God is far above His creation; another great religion says "God is imminent, that is He is through all things, is a part of the strucure of things. As Christians, and believers in the divine revelation of the Bible, we too, believe God the Father is above all and through all; but we also believe and know God is with us. His name is Emmanuel."

This idea of "God With Us" is a very comprehensive one. God was with the race of man and especially the Jewish nation in the historical preparation for the advent of Jesus Christ to the world. God was with us in a real biological miracle. Jesus was born of a Virgin. God is with us in the personal experiences of salvation. God is with men in the struggle for social and economic justice. He blessed the patriarchs, Abraham, Isaac and Jacob with a plentitude of economic goods. He wants to bless the working man in modern America and Russia and all men in the same way. God is also with us in the rich assurance of a prophetic hope. Jesus Christ is coming again. "To them that look for Him, He shall appear the second time.' His name is Emmanuel—God with us.

Let Car Troubles Spoil Your Holiday Season!

There's no need for you to let your car "get you down," during the holiday season just for the want of careful and efficient mechanical adjustments that can be made in a jiffy by our trained workmen.

If your car isn't working smoothly; if it doesn't start promptly and worries you when you drive, we'd suggest that you bring it to us for a diagnosis and repair.

Often, at this time of year, your car needs tuning up; the ignition system needs overhauling, to give you the performance that you demand.

And another suggestion: DIXIE GAS IN YOUR FUEL TANK makes cars work smoothly, start quickly. We sell DIXIE exclusively in Tecumseh.

To Keep Well—

A Minor Illness Should Not Be Neglected

Often we suffer from the so-called "common cold," or from an infection due, perhaps, to a burn or a cut, and tell ourselves that in a day or two everything will be all right; that there is no need for worry.

And often we are right. Simple home remedies, such as will be found in the medicine chest, usually do the trick. But don't neglect "minor" ailments. If they do not respond readily to treatment, call your doctor for expert information.

If your doctor gives you a prescription, bring it to us for careful compounding with fresh, potent drugs.

THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

DECLARATION OF POLICY

1. **PRIORITY OF DELIVERY**—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.

2. **PRICES**—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.

3. **TRADE-INS**—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.

4. **ACCESSORIES**—No customer will be asked to purchase accessories as a condition of securing delivery.

5. **STATUS OF ORDERS**—Customers will be informed, upon request, of the true status of their orders in our files.

Stores To Open In The Evening

CHRISTMAS SHOPPING IS BRISK AND STOCKS STILL ARE VERY COMPLETE

For the convenience of late Christmas shoppers, who find it difficult to do their trading during the daytime, many merchants here announced today that beginning tonight, their stores would remain open each evening until Christmas. Stores not remaining open tonight, it was said, will begin opening evenings on Friday.

A survey of the stores shows that Christmas shopping has been brisk for several days and the first three days of this week were exceptionally busy. It is believed that the evening opening hours will help many residents, especially those in the rural areas, to do their shopping more leisurely.

Merchants' stocks this year are much larger than they were a year ago in almost all departments. Heavy electrical appliances are still on the "short" side of the list, but it is surprising how many small electrical appliances, including radios, have found their way to the market since the war. Christmas tree lights, except flourescent, are at a premium, as are bulbs for tree sets purchased in former years. However, other tree decorations are almost on the plentiful side.

Toys, too, are plentiful this year, with electric trains, mechanical sets of many kinds, dolls that say "Mama" and other things that quicken the hearts of the youngsters appearing for the first time since before the war.

In the ready-to-wear line, there is an excellent assortment of clothing for men, women and children to choose from. Real silk hosiery is back again, nylons are a bit on the difficult side, but there are scores of other wanted items. In jewelry, watches are again available, and the sale of diamonds is said to be on the up-swing.

St. Peter's Church Scene Of Wedding On Monday

At an impressive ceremony held Monday evening at St. Peter's Episcopal church, Miss Dorothy Van Gieson, daughter of Mr. and Mrs. Lawrence Van Gieson, and Chester Ray Marsh, son of Mrs. Nina Marsh, all of Tecumseh, were united in marriage. The Rev. Allan L. Ramsay, rector of St. Peter's and Rev. Charles Marsh of Detroit, a brother of the groom, officiated. The bride was attended by Lois Helmerdinger of Clinton as maid of honor, Norma Jean Westfall of Clinton and Nina Marsh of Tecumseh as bridesmaids. Robert Miller was the groom's best man and his brothers, Frank and Harry Marsh, were ushers.

Following the ceremony a reception for 150 guests was held in the parish house.

The bride is a graduate of Tecumseh high school. The groom entered army service before completing school and served three years overseas. He is now employed at Tecumseh Products Company.

Mr. and Mrs. Marsh will begin housekeeping in their new home on Russell Road.

HERALD TO BE PRINTED EARLY FOR TWO WEEKS

This will assure distribution of the newspaper to all subscribers before the holidays. News matter and classified advertisements for the early publications will be accepted up to 10 a.m., on Monday, and correspondents are asked to abide by this rule. Display advertising will not be accepted later than Saturday.

TECUMSEH TO DISCUSS CIVIC PROBLEMS

Town Hall Series To Be Launched Here

Tecumseh is to have its own "Town Hall."

The decision to hold a public forum series, giving residents of this community an opportunity to discuss civic problems and air their views on state and national affairs was reached at a meeting of representatives of organizations, including clubs, schools, churches and industry, at a meeting held here last week. Another session of the group was held last evening when plans were completed for the first in the series of meetings, probably during the latter part of January. Meetings will be held at the high school, will be open to the public without charge, and top-flight speakers, probably from the University of Michigan, will be among the leaders of the discussion group. Neville Hart, of the high school faculty, will be in charge.

"Under the present plan," Mr. Hart said, "informed speakers of national reputation will be presented, with a general discussion period following the address. Topics of importance to every American will be selected."

W. L. Berkhof, superintendent of schools, said that the Town Hall series would be in conjunction with the regular Adult Education Program, being offered by the schools.

"We also plan another series of meetings to develop leadership training, if the interest in such a course is popular. Also, some night school courses may be offered in connection with the education program, for those who desire. However, all will depend upon the interest shown in thecommunity. There is some demand now for a course in shop mathematics, and industry will be canvassed to determine how popular such training will be. We will also offer other night school classes, perhaps in commercial work, if the demand for them is sufficient to warrant the effort."

Schools Recess Friday For Holiday Vacation

The Tecumseh Public Schools will recess Friday afternoon for the Christmas holiday and will not reopen until January 6, W. L. Berkhof, superintendent, said today.

A Christmas party for the seventh and eighth grade students will be held on Friday evening, December 20, in St. Peter's parish house. There will be games and refreshments in addition to the regular program.

The Christmas party for the high school will be on Friday night, in the form of a dance in the school gymnasium. This party is traditional in Tecumseh, the board of education sharing in the expense.

Aebersold was leader of the program which included Christmas carols by school children sung in five different languages; vocal solo "Baby Jesus" by Mrs. Harley McConnell; a review of the book "Fresh from the Hills" by Mrs. W. L. Berkhof, who also told of books now in the library. Assembly singing closed the program.

Monroe Cagers Here, Tonight

INDIANS OUT TO AVENGE DEFEAT SUFFERED ON GRIDIRON LAST OCTOBER

By Jim Sisson

Coach Myles Runk's Tecumseh cage quintet seem to be starting the season on the right foot, ringing up victories in their first two starts; the last, an L.C.A.A. battle with Morenci which the local lads made an easy win 37-23.

The game last Friday on the Bulldog hardwood was the Indians' all the way. The Braves jumped into the driver's seat in the first period and remained in command throughout the entire encounter.

LaMar Cheever again topped the scoring for Tecumseh as he chalked up 12 markers during the engagement. Bill Hayden was only a short step behind as he collected 11 points to his credit. However, Badgley, the Bulldog's lanky center, carried off the game's top honors with a total of 13 points.

The Indians displayed their power and team work last week which gave good signs of sending them to another championship. Many spectators claim that the Runk five is showing up as well as did the 41-42 Tecumseh cagers who took the county crown and went to the state semi-finals.

The Warriors had a big night in Morenci as the Junior high and David Dick's Reserve squad also took scalps to turn in victories in a perfect evening.

Tonight, the Indians will engage in their first home contest as Monroe Catholic Central moves in for a battle. The game will be played on a Thursday because of a previously scheduled Christmas Party in the high school tomorrow night.

As usual there will be three contests for the evening performance. The Junior high game will begin about six, the Reserve at seven, and the Varsity around eight. The Braves have a big score to settle with the Falcons, remembering that October night when the Catholic football eleven trounced them 19-0. With the humiliation fresh in their minds the Orange and Black will be out to pile up a score that will even the status between the schools.

Miss Beth Satterthwaite has a wheel chair which is available if needed and Miss Spalding asks that anyone having nursing equipment to please list it with her.

Board Studies Rental of Books

RECEIVES PETITION OF PTA GROUP ASKING THAT ACTION BE TAKEN SOON

Rental of public school books to pupils instead of forcing them to purchase their own books, as has always been the custom here, is being given serious consideration by the board of education with a promise from the body that some form of action will be taken on the plan before February. The issue, which has been discussed here for several weeks, was brought to a focus last week when the board, in regular session, received a petition from the Parent-Teacher Association, asking for consideration. The petition, passed at a previous PTA meeting, was presented by Mrs. R. H. Moore and Mrs. T. Rentschler.

Should the board adopt the PTA proposal, it was said that effective probably next fall, all books would be purchased by the disrtict, stored in a common library at the school and rented to students on a per-book basis. Distribution of the books at the beginning of the school year would cause a rush period, it was pointed out, and at that time the Parent-Teacher group volunteered without-expense service of its members.

No estimate has been made, as yet, as to the expense involved in the purchase of the books by the district, but it was pointed out that whatever cash outlay was made that it would be self-liquidating from rental fees.

The board also is studying a plan of remodeling the East Branch school building, erected in 1865, and now badly in need of renovation. At the present time only the first floor of the building is in use and if remodeling plans were carried out, at an expense of about $16,000, two more rooms would be available. A state inspection of the building first will be made to determine the practicability of such a program.

The board has been considering the enlargement of the West Branch building to make available more room for students in the already crowded system here, but to date contractors have estimated that the enlargement of that building would cost in excess of $20,000 —far more han the board planned to spend.

"I guess we will just sit tight for a few weeks to determine which way the wind is going to blow on building costs," a member of the board said. "We cannot afford right now to spend too much on a remodeling program, although we do need more room very badly."

The board also authorized the superintendent to make a survey of the heating system in the Central Building, looking toward its modernization. What the expense of this program will be has not been estimated.

SOUND, FREE DEMOCRACY

A British commentator on American affairs recently said that the United States was moving to the "right," politically speaking, while the rest of the world was tending toward the "left."

A more accurate view would be to say that the United States seems to be moving back to its philosophy of maximum freedom of opportunity to all—while much of the rest of the world is, willingly or not, being subjected to the defeatist philosophy of the superstate with its regimented, slavish peoples.

The wisdom of the American voter is traditional, and he exhibits it again and again. We, as a people, accepted the regimentation of war in the belief it was part of the price of victory. But we didn't surrender our liberties—we simply "loaned" some of them for the duration. With the war over and the victory won, the people demand government, state and national, which will conform to our established way of life. That is the real lesson of the November elections.

What does Christmas mean? Tired clerks, weary parents, a pile of unpaid bills, an avalanche of Christmas cards, and presents for which one has no use? Christmas may mean that and nothing more.

What does Christmas mean? An opportunity to remember half-forgotten friends, to be kind and considerate of others, especially those less fortunate than one's self? Christmas may mean that too.

Just what does Christmas mean? It means that God cares for man. Because he cares he sent his Only Begotten Son into the world. In Christ we find light and life. In Him is love, and joy, and peace.

Worth its wait in Golden Moments

THE first big moment comes, of course, when you step out of your door, and there's your very own Buick, all ready and waiting.

The next one comes when you roll down the street in this handsome creation—and practically feel the eyes of the passers-by following.

You get another lift the first time you meet a hill, and the voice of your Fireball straight-eight engine drops from baritone to bass as it meets the challenge — and tramps the grade down into easy levelness.

Then some night you'll find yourself alone on a quiet moonlit country road—and the whisper of your engine, the soft tread of your coil-sprung wheels, your gentle, cradled, easy stride, will fill your soul with a peace you wouldn't trade for worlds.

The simple truth is that it's not only an automobile you wait for when you wait for a Buick — it's an endless series of sweet satisfactions.

It's not just a matter of size and room and Fireball power and all-coil springing, as any Buick owner will tell you—it's the wonderful way all these add up to make a constant flow of golden moments.

You'd like those moments to start coming soon. So would the whole, hard-hitting crew that's waging relentless war against delays and shortages to produce Buicks for you — and fast.

But the most important thing — when you think it out — is *what* you get rather than *when* you get it — and what you really want is found nowhere else but in Buick.

Why not settle your mind on that and be done with it? You can place your order now for future delivery, with or without a car to turn in — though we like to get trade-ins for our used-car buyers.

What Other Car Has So Much That Clicks For Forty-Six!

SMARTNESS of car-length Airfoil fenders and bolt-on rear wheel shields. *POWER* of Buick Fireball valve-in-head straight-eight engine. *OIL SAVINGS* from non-scuffing Accurite cylinder bores. *FLASHING ACTION* of Flite-weight pistons. *STEADINESS* from full-length torque-tube drive. *GLIDING RIDE* from all-coil springing. *COMFORT* of roomy Body by Fisher. *SURE FOOTING* of Broadrim wheels. *CONTROL* through Permi-firm steering. *CONVENIENCE* of high-leverage StepOn parking brake. *PROTECTION* of Buick-originated fender-shielding front and rear bumpers.

NINETY-SEVENTH YEAR—NUMBER FIVE | TECUMSEH, MICHIGAN, MONDAY, DECEMBER 23, 1946 | FIVE CENTS PER COPY

ST. NICK MAKES HURRIED CHANGES IN HIS PLANS

Santa Visits Here As Tree Lights Twinkle

Although it had appeared for several days as though Santa Claus might by-pass Tecumseh this year and not pay his official visit to the community as had been his custom for many, many years, the jolly Old Saint made a sudden change in his plans on Saturday and in the evening he, personally, welcomed several hundred children and brought each of them a gift as thousands of multi-colored lights, hiding within hurriedly installed Christmas tree decorations in the downtown section, winked and blinked their approval.

It was mid-morning on Friday when it came to the attention of Ray W. Herrick, president of the Tecumseh Products Company, that no civic plans had been made for the decoration of Tecumseh's business district; that no one contacted Santa and invited him to visit the children here; in fact, it was learned that St. Nick, insofar as an official visit was concerned, had intended to "forget" the community. It seems that coal strikes, the shortage of electric bulbs for tree lights and other matters had dampened the spirits of some of those who usually took command of such a situation at this season of the year.

"It's all wrong, and it's not going to be that way," Mr. Herrick said emphatically. "Santa Claus IS coming to Tecumseh. What? Are you going to let the children think he's dead? Not while I'm here you're not going to give those youngsters such an impression.

"I don't like to see Tecumseh without Christmas decorations at this season of the year, and there's no reason why we can't have them. I'm willing to do my share and I know that everyone else feels the same way. We're getting too busy with our own affairs to think of the children. When we get that busy it's time we stopped a minute and took stock of ourselves. Let's forget business for a minute and give the kids a break."

And so it happened, Mr. Herrick was talking to Wade L. Jones, village clerk and president of the Rotary Club. Telephones jingled, hurried orders were placed, Santa was contacted and workmen and electricians went into action. By noon on Friday the trees had been cut at the Keeney Orchards and by mid-afternoon half of them had been installed. Saturday the electricians began their job and at 7:15 Saturday evening, as St. Nick rode into town on a fire truck, the lights were turned on to welcome him. Santa made the trip to Tecumseh by plane, was met at the airport by firemen and brought to the business section. For each child he saw he had a gift.

And that's the way Santa "happened" to visit Tecumseh. Running a factory that employs 1,500 or 1,600 men and meeting a payroll that annually amounts to more than $5,000,000 is a job in itself—for some folk. But, it seems, it's not such a job for Mr. Herrick, in fact it doesn't keep him so busy that he can't find a few minutes to think of the kiddies.

Christmas Mail May Set Record

POSTAL EMPLOYEES HERE BELIEVE IT HEAVIEST IN HISTORY OF TECUMSEH

Although Christmas is not over for the postman until the last piece of mail has been delivered, Percy A. Bowen, local postmaster, is of the opinion that both incoming and outgoing mail will set new records for Tecumseh by the time the last parcel and card have been delivered Tuesday night—and it may be rather late.

The postoffice, on Saturday, sold completely out of one and a half cent stamps—the kind so popular on greeting cards—and Mr. Bowen was forced to seek relief from neighboring offices. Sale of the little brown stamps here has totaled more than 100,000 this Christmas season, to say nothing about the sale of three cent stamps and larger denominations, used in mailing packages.

Yes, the mailman really has had a job in Tecumseh this year, keeping up with his deliveries. Midnight oil has burned more than once in the local office during the past week, and routemen and sorters were still "behind the eight ball" at noon on Saturday. However, the afternoon gave them an opporunity to catch up a little, and and it was promised that all mail would be delivered before the holiday.

The mailing of Christmas packages began early this year, because of the threatened embargo, due to the coal strike, but postoffice officials were grateful, because that did take some of the load off their shoulders later in the season.

To give the public a glimpse of the amount of mail handled here during the past week, last Monday's stamp cancellations amounted to 14,340 cards and letters, Tuesday's was over the 14,000 mark, on Wednesday it was over 13,000 and Thursday and Friday's total was well over 22,000. Saturday's mailing was expected to near the 10,000 mark.

Of course, a big majority of the cards and letters mailed were for residents in Tecumseh and on routes out of Tecumseh, but there were pouches and pouches of cards going mail, too. And the in-coming mail—it sometimes required two trucks to carry it.

Oh yes, and there were letters to Santa Claus, too, which were to be dispatched to the North Pole, but probably replies to these letters will be greatly delayed, because Santa, at this season, is a very busy man.

Turkeys By Ton Products' Gift

EIGHT TONS OF FROZEN BIRDS FOR EMPLOYEES AS WELL AS BASKETS OF FRUIT

Sixteen thousand pounds of dressed turkeys—eight tons to be exact—will be distributed to married employees of the Tecumseh Products Company the day before Christmas and to unmarried employees—about 400 of them—will go beautiful baskets of fruit.

The Products company is the largest single employer of labor in Tecumseh, and annually it has been the company's custom to distribute turkeys to its employees at Christmas. Once or twice during the war, officials found it difficult to obtain birds of the proper pounds and in insufficient quantity to meet their needs, but always they have "come through" in time for the holiday.

The turkeys this year are plump, fresh-frozen birds, all dressed and ready for the oven. They are pleasing to the eye, too, in their cellophane wrappings. Big trucks filled with the turkeys will back up to the Products' gates at noon Tuesday, and it is expected to take the remainder of the day to complete the distribution. The baskets of fruit will be distributed at the same time.

Stores Remain Open To Accommodate Late Buyers

Saturday was one of the busiest shopping days experienced by Tecumseh stores in many years, it was said, and shops tonight and tomorrow are anticipating heavy buying as last-minute shoppers complete their Christmas gift lists.

The stores here will remain open this evening, and again tomorrow evening, to accommodate those who have been unable to do their shopping earlier.

"Tuesday and Tuesday evening," the day and night before Christmas, will be the men's shopping time," one merchant observed. "I've noticed that a majority of the males find it difficult to make up their minds just what to buy their wives until the last minute, and then they make a rush for the stores."

"I don't think its because the men can't decide," one male confided. "Take myself, I wait until late, then the choice of gifts has narrowed down somewhat, and I find it easier to decide."

But anyway, the Christmas rush will be over tomorrow night in the stores.

MERRY CHRISTMAS

Merry Christmas!

Magic words, aren't they? They transcend strikes, politics, elections, even the top news story of the day. Santa's picture crowds all others off page one of the nation's newspapers. It's Christmas! That's all that matters.

It is well that Americans can pause at this season of the year and celebrate Christ's birthday. Except, perhaps in the British empire—and there may be exceptions in some parts of that far-flung domain—the United States will be alone in the world this year in its traditional celebration of Christmas. Dictator-bossed nations know no Christ; their god is a man. Whether they like it or not, they have no choice. It can't be otherwise. Dictatorship and christianity have no place in such a social scheme.

There are those, it seems, who would destroy Christmas and democratic freedom in America. All of us have witnessed such attempts in the past half-decade. There are men who would rise even above government; men who feel that their will is greater than the will of the people.

It is well, then, at this season that we pause in the midst of the Christmas holiday and reflect on the true meaning of the occasion. What does Christmas mean? We believe it is love, joy and peace—life itself.

There are those in America who might well take the opportunity this Christmas to permit the spirit of love, joy and peace to transcend their selfish desires for money and power. Unity, cooperation and good-will must prevail if we are to progress as a nation. We have much to be thankful for—if you don't believe it, ask the Germans, the French or the Italians.

Yes, this is America! We're celebrating Christmas in true American fashion. We recognize His authority; we refuse to subordinate His authority to a dictator's.

When we do subordinate Christ's authority we no longer have American freedom because American freedom is based upon Christianity. The two are synonomous.

We're glad we can say Merry Christmas with all of its traditional meaning, and we hope, sincerely, that a greater portion of the world can say it, too, in the not-to-distant future.

Four Cases of Rabbit Fever Are Reported

Four cases of tularemia (rabbit fever) among Michigan hunters brings a warning from the State Health Department:

Always wear rubber gloves when dressing rabbits. Be careful that a sharp bone does not pierce the glove. Do not handle rabbits that are found dead. Beware of slow or sluggish rabbits; they are likely to be infected with tularemia. Cook rabbits thoroughly so that no red meat or red blood remains. Thorough cooking of the meat destroys the germs. Play safe—destroy all rabbits whose internal organs are studded with small white spots—it may be tularemia.

VISITORS CORDIALLY WELCOME

CHRISTMAS is a birthday known the world around. The one day when Man becomes acutely aware of God's enduring love. If the family gathering in Bethleham could but throw its influence around each family today what joy would be found throughout the world.

CHRISTMAS is a day of rejoicing. Let us remember that our joy comes from the gift of God in His only Son, Jesus Christ. To hear the song of the Angels in our hearts let us draw near the Christ Child and take Him into our daily lives.

CHRISTMAS is a day of promise. God made it and He keeps it. Since the gift is given to us may we accept it and show our loyalty by keeping our promise to Him.

● It is our hope that this blessed season will bring to your home not only the festive joys of Yuletide but that deep inner peace which is essentially a part of Christmas.

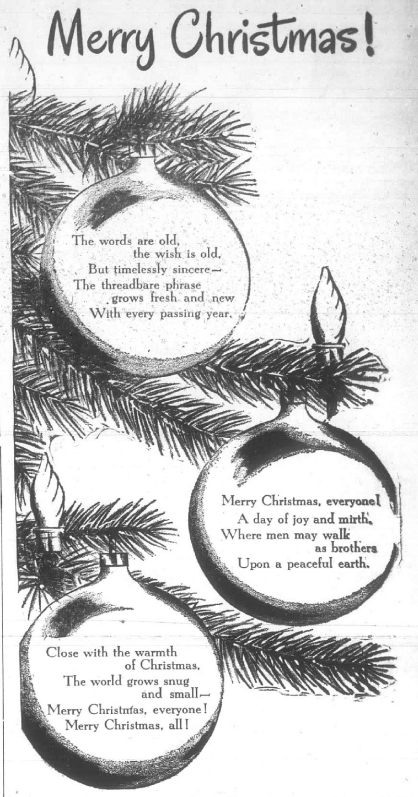
Merry CHRISTMAS GREETINGS 1946

Christmas lights shed a glow unknown at any other time of the year. The same lights, after Christmas, have lost their charm, so, you see it is really the Christmas spirit that lights our homes! We wish you every happiness this Christmas season of 1946.

Cameron Drug Store

Merry Christmas!



The words are old,
the wish is old,
But timelessly sincere—
The threadbare phrase
grows fresh and new
With every passing year.

Merry Christmas, everyone!
A day of joy and mirth,
Where men may walk
as brothers
Upon a peaceful earth.

Close with the warmth
of Christmas,
The world grows snug
and small—
Merry Christmas, everyone!
Merry Christmas, all!

Sincere Wishes for a Merry Christmas

LET'S ALL BE HAPPY!

Christmas is likely to become too prosaic to many of us grownups, but to boyhood's eager eyes it is a time of preparation and expectancy . . . an enchanted season when the woodland is hushed and even ordinary tasks take on the glamor and joy of dragging home the Christmas tree. May your Christmas of 1946 be in this spirit.

ONLY 150 MALES IN COUNTY WITHOUT JOBS

MSES Report Says Lenawee Plants Are Busy

With Lenawee county's industrial plants operating at near-peak production, Clifford J. Rice, manager of the Michigan State Employment Service, Adrian, said today that there are only approximately 150 males and some 500 females in Lenawee who are not now employed, and the most of the male unemployed are returned veterans, he declared. This figure compares favorably with an estimated 2,000 unemployed at the beginning of the year, of which number one-half were women. During the year 1946, he said, more than 2,500 service men have returned to the county and have been absorbed by industry.

Employment in the 13 larger industrial plants of the county, including the Tecumseh Products Company, has gained considerably throughout the year, Mr. Rice said. In January, 1946, these plants were employing 5,491 persons, of which 1,043 were women. On December 15, employment had increased to 7,123, including 1,358 women. Employment in the county reached an all-time high on November 13 when 12,886 persons were employed by 126 of the county's employers. It is estimated that approximately 2,500 additional workers are employed in the smaller establishments from which no reports are obtained, making total non-agricultural employment about 15,300.

At the beginning of the year, the MSES offices had 319 unfilled job openings on field for 255 men and 64 women. Today there are orders on file for 82 workers. Job opportunities are not presently as numerous, due to plant inventories, layoffs and material shortages. The heaviest demand for workers was in September.

Apprenticeship and on-the-job training programs, developed last March, are now operating in 89 plants to the advantage of 165 discharged veterans.

Income Taxes Due In March

REVENUE AGENTS TO BE IN ADRIAN IN JANUARY TO ASSIST IN MAKING RETURNS

Every person with an income of $500 or more during the calendar year of 1946 must file an income tax return, the federal government warned today. To assist taxpayers with this work, the Department of Revenue announced that a Deputy Collector of Internal Revenue would be at room five in the Adrian State Savings Bank building, Adrian, on January 6, 7, 8 and 9 from 8 a.m., to 4:30 p.m., to give any assistance needed, and without charge for his services.

Most taxpayers have already made substantial payments on their 1946 federal tax through withholding from their wages or direct payments to the collector's office, but, nevertheless, all taxpayers must file annual returns on or before March 15, 1947, as provided by law, the department warned.

Atomic Energy Town Hall Topic

FIRST IN LOCAL SERIES OF FOUR WILL BE HELD HERE ON JANUARY 20TH

Atomic energy, its use in peace as well as in war, will be the interesting topic discussed at the first in a series of four Town Hall sessions, scheduled for Tecumseh during the winter months. The meetings will be held at the high school and will be free to the public, the board of education and civic clubs and organizations bearing the expense of the educational meetings.

While the speaker has not been announced for the first session, to be held at 8 p.m., on Monday, January 20, Neville Hart, faculty member in charge of the school's adult education program, said that it would be a recognized authority in the field of science. Following the talk, the meeting will be thrown open for discussion.

At an organizational meeting held last week, Mrs. Truman Rentschler was named as president of the Town Hall series, Mr. Hart, vice-president, and Mrs. Robert Ries, secretary-treasurer.

Mr. Hart said that it is hoped to hold four Town Hall meetings, perhaps two in February and another in March.

"Interest is keen for such a program," Hart said. "A canvass of clubs and organizations leads us to believe that the series will be well attended. We hope, in this way, to better acquaint Tecumseh folk with some of the outstanding topics of the day, and give them an opportunity to express their views in these matters. Everyone is invited to attend all of the meetings."

Mill Operates 24 Hours Daily

NEED FOR FLOUR ABROAD IS ALARMING; GOVERNMENT ASKS TOP PRODUCTION

Despite plenty of food in the United States, there is an alarming need abroad.

The Hayden Flour Mills, of Tecumseh, working on a large order for export to the famine areas, received a telegram this week from the government, reading in part as follows: "The Department of Agriculture is in dire need of flour to send overseas so much that it will take delivery on your contract at once. Please exert every effort possible to produce and ship to your fullest capacity. Your cooperation is solicited so that flour can be sent to those critically in need of same."

The Hayden mill is and has been operating 24 hours a day for the past several months. An increase in capacity, with added equipment recently purchased will mean that if the present production schedule is maintained throughout 1947 that the local firm will require at least 250,000 bushels of wheat.

According to Perry Hayden, president, producers may deliver wheat to the mill during the remaining days of 1946 and take settlement for the same in 1947.

Tent-Home Is Razed By Fire

HUSBAND, WIFE AND FIVE CHILDREN LOSE ALL PERSONAL EFFECTS IN BLAZE

Fire of unknown origin completely destroyed the tent-home and contents of Virgil Kash and family on the Pink school grounds, west of Tecumseh early Saturday morning. The family, consisting of Mr. and Mrs. Kash and five children had lived in the tent since last July when the house in which they lived in town was sold and no other was available. They were building a new house on the ground nearby but it is not yet ready for occupancy.

Mr. Kash is employed at Tecumseh Products Company on the night shift and the fire broke out about six o'clock before his return home. The family, asleep, was awakened by smoke from the blaze which seemed to start under the floor. The children were taken to a neighbor's home. Everything in the tent was lost including a new oil burner, a pressure stove, their purse, and a dog and cat. There was no insurance and the loss has not been estimated.

Indian Cagers Leading League

NEXT HOME GAME WILL BE WITH CLINTON ON LOCAL FLOOR, JANUARY 10TH

By Jim Sisson

The league-leading Tecumseh high school cagers will meet their ancient rival from the north, the Clinton Redskins, in the second of their L.C.A.A. scheduled games on the local court, Friday evening, January 10. This will be one of the most hotly contested battles of the season and is expected to attract a record crowd, inasmuch as the rivalry between the two teams is running high.

Coach Myles Runk's Indians stepped into the top berth of the L.C.A.A. standings while they were taking care of the non-league Monroe Catholic Central by a 33-23 score. It came about the same evening on another court when the Clinton Redskins were upset by Morenci to leave only Tecumseh and Addison without defeat in the conference.

The Catholic Central contest, there, December 19, was dubbed as plenty rough with an overdose of fouls. At halftime the Warriors held a 23-12 lead, led by the sharp-shooting of Bill Hayden. Anderson and Cheever each collected six markers and Basile slipped in 14 for Monroe. The victory evened the status between the schools, giving the Indians revenge for the humiliating 19-0 pounding they received from the Falcons on the football field, last fall, and chalked up the third straight cage win for Tecumseh, although only one game was in the association.

The basketball season continues into February, and there are still many games to be played before the league victor is decided.

A NEW YEAR DAWNS

Only a few hours now remain of the old year 1946—a year that will long be remembered by both business and labor; a year that is certain to live in history, a year that, perhaps, in another decade or so, we might like to strike out of our national diary.

There is little need, however, of dwelling on the past. Whether it was pleasant or unpleasant, profitable or unprofitable, difficult or easy, there is nothing now that can be done about it. It is history; a matter of record.

As the new year dawns, however, there is always hope. For those who have traveled a difficult path there is hope for improvement. For those who have enjoyed an easy existence, there is hope that it will continue. Always, most of us are optimistic as to what the future holds.

There is no doubt—at least there should not be—in anyone's mind but that the year 1946 and the years immediately preceding have been kind to us as a nation. We have come through, successfully—at least, insofar as fighting is concerned—one of the worst wars in the history of the world. On the battlefield we won the peace. A large portion of the universe has recognized our supremacy.

But what about the peace? What does the future hold for all of us both individually and collectively?

To that question we must submit an answer in the New Year. Will we lose the peace we have won? Can we prove to the world that we can live together as a nation "undivided?"

It is time—a good time—to resolve, regardless of our station in life, that we will demonstrate here at home that peace can prevail. Strikes, lock-outs, portal suits and bickering must give way to common sense methods in dealing with industrial-labor difficulties.

A new year may be dawning but as it grows older we'll find that it will be, in a large measure, at least, just what we make it.

NEW YEAR

Men call the guardian of their hopes by many names. But prominent in the story of every spiritual symbol is the phenomenon of birth and growth. Perhaps this is because in the Child we find our hope . . . and his . . . and His.

At any time in history, with or without science and industry, we could have had a better world had we been able to give our children our skills and deny them our failings; to teach them our loves and spare them our hates.

In what our children are taught to think and feel lies all future hope. Remember this on your way home tonight, and at home, and abroad, day and night. Think not alone of your children, but of those whose parents you reject, of those whose parents reject you.

Our children must not hate; they must learn not to be hated. It's a long chance, but no other course offers any hope at all.

HANDLE WITH CARE! You can wreck their New World just as surely as someone else wrecked yours.

Student's Neck Broken In Crash

MARDA GENE DUNCAN IN SERIOUS CONDITION IN U. OF M. HOSPITAL, ANN ARBOR

Miss Marda Gene Duncan, 18-year-old daughter of Mr. and Mrs. Harry Duncan, W. Logan street, is in a critical condition in University Hospital, Ann Arbor, the result of a broken neck, suffered early New Year's morning when the car in which she was a passenger was involved in an accident on the Holloway road, a short distance south of the John Calhoun farm. Five other occupants of the car suffered lesser injuries.

The car in which Miss Duncan was riding was driven by Richard Winder, 19, of Detroit, formerly of Clinton. Others in the car were the Misses Dorothy and Louise Bowen, daughters of Mr. and Mrs. Percy Bowen, Tecumseh, and Robert Hamilton and Dermont Poley, also of Tecumseh. They were returning from Toledo when the accident happened, about 2:45 New Year's morning. It is believed that Mr. Winder momentarily fell asleep at the wheel and the car skidded on the ice-coated road and crashed into a utility pole and then struck a tree. The front of the Winder car, a 1946 model, was badly wrecked.

Miss Duncan, riding in the front seat, was thrown forward and downward under the instrument panel. Three vertebrae in her neck were fractured. She was unconscious when she was removed to Tecumseh Hospital in an ambulance. Winder suffered cuts and bruises and five teeth were knocked out. Others in the car were bruised and suffered from shock, and Mr. Hamilton's foot was injured. All were treated at Tecumseh Hospital and then released, except Miss Duncan, who was transferred by ambulance to Ann Arbor about 11 o'clock New Year's Day.

The injured girl graduated from Tecumseh high school last June and was a student at Michigan State Normal College, Ypsilanti. During her senior year in high school she was the editor of the "Senior Echoes," the class annual, and was prominent in other scholastic activities.

Mr. and Mrs. Duncan accompanied their daughter to the hospital and have since remained in Ann Arbor. Although suffering from paralysis, Miss Duncan was able to see several visitors last Sunday.

The Holloway road accident was the only serious one reported in this section of the county during the 10-day cold spell that has gripped southern Michigan and northern Ohio, blanketing the area in snow and sleet. The storm started with snow, the day before New Year's, making travel slow and dangerous. On January 2 the first of the sleet storm came, forming a crust over the snow and coating trees, wires and highways. Traffic moved at a snail's pace, and some damage was reported by utility companies from falling branches and wires.

Temperatures near the zero mark were reported for about four days, Friday through Monday, and then the mercury rose a few points but even in midday remained below the 32 mark.

BROWNVILLE SCHOOL CLOSED BY WEATHER

The Brownville school building, recently taken over by the district from the Ford-Edison Institute, did not reopen Monday with the other public schools, following th holiday recess. The reason is the inability to heat the building during the extreme weather, with present facilities. Third grade students, housed here, are reporting for classes at the Central building, with Alvin Brazee as teacher. W. L. Berkhof, superintendent, said that he hoped that suitable heating equipment could be found to permit the reopening of the building within a few days.

Town Hall Gets Under Way Soon

U. OF M. PROFESSOR TO BE FIRST SPEAKER DISCUSSING ATOMIC ENERGY IN PEACE

Ernest F. Barker, professor of physics at the University of Michigan, will be the first speaker at the Tecumseh Town Hall series, Monday evening, January 20, at the high school. The meeting starts at 8 o'clock.

Dr. Barker's subject will be an explanation of the constructive side of atomic energy for the benefit of civilization rather than destruction. After his talk the meeting will be thrown open to discussion, with the audience participating.

Dr. Barker attended the Universities of Wisconsin and Rochester, obtaining his A.M., and Ph. D., at the University of Michigan. For a time he was a professor of physics at the University of Western Ontario. He has performed scientific research in infra-red spectroscopy and the structure of molecules, and since 1941 has been chairman of the department of physics at the U. of M.

Neville Hart, chairman of the Town Hall series here, a member of the high school faculty, says that interest is keen in the program locally, with all clubs in Tecumseh participating. Another organizational meeting was held at the library last Monday night.

New Scout Troop Is Organized At St. Peter's

A new troop for boys of scouting age in Tecumseh is being formed under the sponsorship of St. Peter's church. The first meeting of boys twelve years of age and over who are interested has been called for next Wednesday, January 15, at 7 p.m. The gathering will be held at St. Peter's parish house.

Chairman of the new troop committee is Fred C. Hadley who has as his co-workers and their duties the following men: Paul Johnson, membership; William A. Wright, advancement; activities, M. L. Dannells, jr.; finances, Forest Abner; chaplain, Rev. A. L. Ramsay. The scoutmaster is A. A. Musch who has had extensive work in scouting and Red Cross work and is well qualified to take on this work with Tecumseh boys. He will have as his assistant leaders several young men who have come up through the ranks of the Boy Scouts.

"We look forward to having another good troop of Scouts in Tecumseh and will provide the boys with every opportunity for development in scouting skills," said Mr. Musch. Parents will be asked to cooperate in several ways to keep the interest of the home in this work with boys, according to Chairman Hadley.

Redskins Meet Indians Friday

AGE-OLD RIVALRY TO FLARE WHEN CAGE ENCOUNTER GETS UNDER WAY HERE

By Jim Sisson

For the third time in as many years, the Tecumseh Indians and the Clinton Redskins will meet on the high school cage court here Friday evening in the all-out battle (with no holds barred) which plays a big factor in determining the county basketball champs when the season winds up in February.

Last season the neighboring rivals split their two engagements and as a result ended up co-champions in the L.C.A.A. In '44-'45 the high stepping Clinton five were hailed masters at both meetings and annexed the cage crown. The preceding schedule ('43-'44) did not show the Redskins as the chief contender but Tecumseh waded through both encounters and emerged with the basketball title.

The records thus far:

Tecumseh:		Clinton:	
24	Dundee	21	
37	Morenci	23	
33	Mon. Cath.	23	
94		67	
32	Saline	25	
18	E. Jackson	36	
26	Hudson	12	
26	Morenci	28	
102		101	

Coach Rip Van Winkle's clan will invade the Tecumseh court as the statistical underdog, having dropped two games this season, one being in league competition. The first defeat came from a fast East Jackson quintet which did no material damage to Clinton's conference standings. But on December 20, the Morenci squad moved into Clinton without a victory in the season, and overturned the Van Winkle aggregation in overtime 28-26.

Thus, Myles Runk's Indians are leading the L.C.A.A. as they had swamped the Morenci team on the Bulldog hardwood 37 - 23. This seems to be the only common denominator between the traditional foes. However, the sixteen margin here and a perfect record of three scalps mean absolutely nothing when the tomahawks begin to fly.

As proof one can look again at the '44-'45 season. The Indians hit the warpath against the Redskins with five straight wins tucked away, while Clinton entered with but one loss—to the class A Toledo Woodard quintet. But the Clinton lads cleaned up in a slow deliberate contest 19-16.

A packed house will be promised all the traditional fight and rivalry in the battle which will probably be the clash of the year for Lenawee. The ten performers who are slated to touch off the cage warfare in the Tecumseh gym are listed by Runk and Van Winkle as:

Tecumseh		Clinton
Anderson	F	Randall
Hayden	F	Seidel
Cheever	C	Kroh
Hammack	G	George
Sisson	G	Woodward

French People Know Suffering

TECUMSEH WOMAN, BACK FROM EUROPEAN VISIT, SAYS CONDITIONS ARE HORRIBLE

"Thank God, I live in America. I was never more happy than when I put my feet on American soil after my visit to Europe." That, in a few words, sums up the feeling of Mrs. Donald Blesing, E. Pottawatamie street, who recently returned from France, where she visited relatives whom she had not seen for nearly 30 years. Mrs. Blesing returned on the Queen Elizabeth, and was several weeks marooned in France before she was able to book passage.

"After you've been to France, and you have seen what I saw, we, here in America, have no reason to complain," she declared. "Conditions over there are not good. Everything is rationed. It is impossible to buy candy or sweets of any kind. You can buy candy, made with, substitutes, but it is not fit to eat.

"People in France," Mrs. Blesing continued, "do not get the necessary food. The houses in Alsace are for the most part damaged. Some have a roof missing, others lack one or more sides. Many of them appear to have suffered from small-pox, blown full of holes.

"Many of the folk spent from six to 10 hours of every day in their basements during the liberation period. All were afraid of the concentration camps, where they were treated just terrible, most inhuman. They were beaten, and in the night they were made to swim in the river, and in the middle of the winter they were unable to dress until they were told to do so. One instance I was told about, a man was beaten so badly that when he died the flesh fell from his bones. He was only one of thousands to suffer. Everyone lived in constant fear. In free France some of a Legion was organized to fight the Germans, but when Legion members were caught they didn't shoot them, they died a terrible death by torture. This inhuman treatment in Alsace came about because of one man who went to Hitler to get permission to do what he wanted with the people who did not obey the Nazis. He made them fight with the Germans ,although Alsace had been French since the other war. This man was shot while I was in Alsace. I feel like most of the folk do over there, he should have been put in a concentration camp and treated as the others were. One of my nieces got her face slapped for failing to salute, Heil Hitler, when the Nazi supermen paraded through the town. She was threatened with more severe punishment if the instance should occur again."

Mrs. Blesing spent about five months in France, leaving the United States last July.

Seniors Will Present 3-Act Comedy Next Week

"Cash and Carrie," a three-act comedy, will be presented by the senior class in the high school auditorium Wednesday and Thursday evenings, January 15 and 16.

The cast for the play which takes place in the home of Carrie Ferguson, includes Jane Hoekstra, as Carrie, a kindly pleasant mother, but a little vague about money matters; Louise Bowen as Anne, her eldest daughter, torn between a business career and love; Dorothy Brandt, as Marilyn, concerned about dates and dresses; Louise Wilson as Alberta, the youngest daughter, 11-year-old Girl Scout and infant terrible; Morris Fisher as the son Trig who wants to go to South America; Jean Wilson and Jeannine Clark as Jenny and Judy, friends of the family; Viola Retter as Dorothea the colored maid. Ralph Peotter takes the part of Uncle Omar Tully, a pompous old gentleman retired from business, very concerned about state government. He promises Carrie a new home on Cherry Hill, the high social residence section of the city, provided she makes a budget work over a period of time. To help her financial problems Carrie takes in roomers. Those taking the parts of roomers are Don Beaubien, Colleen Davidson, Gloria Underwood, and David House. Wilfred Waldron as Bradley Kirkwood helps settle the family's numerous difficulties which seem to multiply.

The play is full of action and sparkles with comedy.

Don't miss "Cash and Carrie." Can mom balance her budget? Uncle Omar says not.—adv.

Company Expects To Employ 2,400 At Peak Production

$310,000 Expansion Program Will Add 73,000 Square Feet To Floor Space

Tecumseh Products Company—Tecumseh's largest employer of labor—is predicting for 1947 a year of prosperity!

Briefly, from its president, Ray W. Herrick, here is the company's program for the New Year:

A payroll that will exceed $6,000,000 and may reach $7,000,000.

Employment of 2,400 persons when peak production is reached, probably during late summer.

The construction of a new building, between Plant No. 1 and Plant No. 2, (the latter the old Cyclone Fence Company's plant), at a cost of $160,000 for materials and $150,000 for machinery.

The operation of a modern cafeteria in this building, sufficient in size to meet the demands of its employees.

Sales volume during the next 12 months of $35,000,000.

A 200 per cent increase in sales over the company's peak in pre-war years.

"We are ready to go," was the way Mr. Herrick summed up his company's position. "The contract for the new building has been awarded and actual construction will begin in March. We hope to have the plant finished and in operation by mid-July.

"We pondered this move for a long time for just one reason. We wondered whether or not the Village of Tecumseh could keep pace with us in such an expansion program. Frankly, we considered the purchase of plants in both Brooklyn and Manchester because we were fearful that Tecumseh might not be able to absorb the increased employment by our plant. Right now we are bringing in employees from Palmyra, Riga, Blissfield, Brooklyn, Tipton and Adrian and from many other sections, these men being forced to drive these distances daily because housing here is critical. I say this because I would like to emphasize the need for speedy residential building.

"Here at Products, the management and the Union discussed the expansion program for some time and finally it was decided to discard the idea of purchasing outside plants, and to build the new building here. We trust that Tecumseh is awake to what such an expansion program means to this community. It means that our employees will have some $125,000 to $135,000 in weekly payrolls; that about 800 more persons will be employed than at the present time; that there will be greater demands made upon the community for housing; that increased demands for merchandise will be made upon the stores, and that the village, I mean the municipality, itself, will feel new demands in the way of civic improvements. The schools, likewise, will come in for a share of the increased population.

"A survey shows that of the new houses being built in Tecumseh at the present time about 60 per cent of them are being purchased by our employees," Mr. Herrick said that he understood that, since the war's end, between 100 and 125 homes have been built or are under construction here.

"That is a commendable number," the manufacturer continued, "but it is not sufficient. I don't want to see Tecumseh grow too fast, but I know that no less than 300 more houses must be built here within the next two years if the village is to keep pace with the demands that will be made by employed labor. Men do not like to drive great distances to and from their work. Too much time is consumed. Then, too, the community that meets the demands by employed labor also reaps the profit. By profits I mean rents, the sale of houses, merchandise purchased in stores, etc. Men and their families always spend the bulk of their money in the communities in which they live."

Mr. Herrick believes the opportunity is ripe in Tecumseh at the present time for intensified community leadership.

"Not only do we need new homes, better schools, larger school buildings and other civic improvements," he continued, "we also need improved stores, a greater selection of merchandise from which to choose, and a genuine desire on the part of our business men to be of service to the community. I may be rather blunt in such a statement, but I believe that it is time for an awakening. Folk spend their money, a lot of it, at least, where they are invited to spend it, in a friendly atmosphere, where prices are right and where competition is keen.

"This is not the time to be talking about depressions and business recessions. It is the time that we should forget such talk and exert our energies to building up our product, making our places of business more attractive, increasing our stocks, widening our varieties don't prepare to meet competition, at home, or from abroad. If we don't prepare to meet competition, then we may be in for trouble. I'd like to see the stores in Tecumseh expand and do more business rather than to see new stores come in and take the business. We must not become satisfied with the business we are doing and not try to broaden our horizon. We never stand still. We must go forward or go backward."

At the present time, Herrick said, Products is employing 1,600 people. By the first of May, he said, this number will be increased to at least 2,000. How rapidly this number may be further increased will depend entirely upon the supply of materials for fabrication, but he does not anticipate that the hiring of workers will be halted until about 2,400 are on the payroll.

"We are adding three new hermetic compressors to round out our line of refrigeration units, making our offering complete in the trade," he said. "Right now we are building 3,000 units daily, in May we will be building 4,000 units and in June it will be stepped up to 5,000." In addition, he said, the company this year will build 600,000 transmissions for Bendix washing machines. The latter business is "just a side line," he pointed out.

The Products company still retains its position as the largest independent manufacturer of electrical refrigeration units in the world. It is determined to maintain and defend this position, the manufacturer said.

"In this new building that will be finished by mid-summer, we also will have enlarged offices," Herrick said. "We realize that we must expand the administrative end of the business if we are to expand our growth. We have just completed a new building, 200 by 40 feet, an addition to our shipping department. We will move into this building this week."

Mr. Herrick pointed out that his greatest concern is to make Tecumseh realize how Products is growing and expanding, so that thec ommunity may keep in step.

"There is no reason why Tecumseh, by 1950, could not be a town of 5,000 or 6,000 population or larger," he said. "And that need not be the end of our growth. At the present time we are buying from outside sources all of our castings, all of our motors and many, many other products that we use. These products could be manufactured right here in Tecumseh, if the community so desired. New plants could be built, more houses could be built, payrolls could be doubled.

Two years ago, the Rotary club, in a series of post-war programs, attempted to show the way in Tecumseh after the war's end. This growth and expansion was predicted. Now we need civic leadership, perhaps a Chamber of Commerce. The community needs to be kept on its toes. Products is going forward. Tecumseh must go forward, too, if all of us are to succeed. We have great confidence in our nation, our state and our community. If we all pull together, and I believe we will, then we are certain to progress for the benefit of everybody."

ANOTHER SIGLER NEEDED

Ordinarily, we are opposed to the centralization of authority. We dislike seeing the state take over the powers of local government; we do not like to see too much pressure exerted on local school officials by the State Department of Public Instruction and we also dislike federal interference in local and state affairs.

We must concede, however, that the Michigan State Highway Department, in the days before the maintenance and repair of highways was turned back to county government, did a commendable job, a job, we believe, that was much better than the one now being done by the Lenawee County Road Commission.

Especially, we refer to the care that the county has been giving the highways since the recent snow, ice and sleet storm—or should we say the lack of care.

Certainly, the county commission has not troubled itself too much about the condition of M-50—M-52, admitedly one of the most traveled roads in this section of Lenawee. Between Tecumseh and Adrian there are two dangerous hills, Waldron's and Bixby's, and it is certain that the motoring public worried far more about conditions in these spots than did the county commission and its employees.

Maybe what Lenawee county needs on its road commission is a Kim Sigler. If it can't find one, then we'd be in favor of giving the road maintenance job back to the State of Michigan and permitting Kim to be the boss.

Cameron Drug Co.

OFFICIALLY FRANCHISED AS

BEEBE Livestock and Poultry Medicine Distributor

The Beebe Laboratories are pleased to announce our appointment as an official distributor of the complete line of Beebe livestock and poultry medicines.

The House of Beebe believes quality in livestock and poultry medicine comes ahead of anything else. That is why every Beebe product is made from formulas as near specific in action as is known to modern science.

With quality of product goes quality of dealers. Beebe believes that for the farmer's protection, drug items should be sold through drug stores . . . hence the policy of selling Beebe products through druggists only.

This unusual policy—not duplicated by any other manufacturer of livestock and poultry medicines—is a tremendous advantage for you.
Beebe stands behind the druggist—it will pay you to rely on your Beebe druggist.
